Background

TSA is establishing three new systems of records under the Privacy Act of 1974: Employee Transportation Facilitation Records (DHS/TSA 003), Transportation Security Administration Notification Contact Lists (DHS/TSA 008), and Transportation Security Intelligence Service Operations Files (DHS/TSA 011). TSA is also altering three established system of records: The Transportation Security Enforcement Record System (DHS/TSA 001) by expanding the system purpose to cover criminal enforcement actions, adding a new category of individuals covered by the system, adding a new routine use to cover security incidents by members of the armed forces, and adding the (j)(2) general law enforcement exemption; the Personnel Background Investigation File System (DHS/TSA 004) by adding the (k)(1) specific exemption for classified information; and the Internal Investigation Record System (DHS/TSA 005) by adding the (j)(2) general law enforcement exemption and expanding the purpose to cover investigations of security-related incidents and reviews of TSA programs and operations. Each of the three altered systems of records (DHS/TSA 001, 004, and 005) is also gaining routine uses to allow for the disclosure of information to an appropriate agency or transportation facility operator when necessary to address threats to transportation security and an existing routine use has been amended to allow for the disclosure of records to state and local transportation agencies when compatible with the purposes for which the information was collected. The complete revised notice of each system of records follows.
