The Proposal

The FAA is considering an amendment to 14 CFR part 71 to establish Class E airspace at Tracy, MN, for Tracy Municipal Airport. Controlled airspace extending upward from 700 feet or more above the surface of the earth is needed to contain aircraft executing instrument approach procedures. The area would be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9M dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an establishment body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities

under the criteria of the Regulatory Flexibility Act.

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, is amended as follows:

Regulated Navigation Areas, Security Zones, and Temporary Anchorage Areas; St. Johns River, Jacksonville, FL

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to establish a series of temporary regulated navigation areas, security zones and temporary anchorage areas on the St. Johns River, Jacksonville, FL, from Winter Point to the Intracoastal Waterway, for Super Bowl XXXIX activities and events. The river will be divided into two regulated navigation areas and four security zones in order to provide increased layered security in close proximity to the downtown area of the river. Additionally, the size of existing fixed security zones around docked cruise ships will be increased. Existing anchorage grounds will be modified and temporary anchorages will be added to accommodate the vessel traffic expected during the Super Bowl events. The regulated navigation areas, security zones and temporary anchorages are necessary to protect national security interests and the safety of navigation during Super Bowl events. These areas will be enforced at various designated time periods beginning February 2, 2005, through February 7, 2005. Entry into the security zones will be prohibited to all persons and vessels unless authorized by the Coast Guard Captain of the Port Jacksonville or his designated representatives.

DATES: Comments and related material must reach the Coast Guard on or before January 10, 2005.

ADDRESSES: You may mail comments and related material to Coast Guard Marine Safety Office Jacksonville, 7820 Arlington Expressway, Suite 400, Jacksonville, FL, 32211. We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking (CGD07-04-090), indicate the specific section of this

document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8½ by 11 inches, suitable for copying. If you would like to know that your submission reached us, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

If, as we anticipate we make this temporary final rule effective less than 30 days after publication in the **Federal Register**, we will explain in that publication, as required by 5 U.S.C. (d)(3), our good cause for doing so.

Public Meeting

We do not plan to hold a public meeting. The United States Coast Guard, along with other state and federal law enforcement agencies, has conducted numerous outreach meetings with port users and the affected maritime community regarding port restrictions. However, you may submit a request for a meeting by writing to Coast Guard Marine Safety Office Jacksonville at the address under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a separate notice in the **Federal Register**.

Background and Purpose

In light of terrorist attacks on New York City and the Pentagon in Arlington, VA, on September 11, 2001, and the continuing concern for future terrorist and or subversive acts against the United States, especially at high visibility events where a large number of persons are likely to congregate, the Coast Guard proposes to establish temporary regulated navigation areas and security zones in certain waters of the St. Johns River.

The Super Bowl is a sporting event, hosted each year in a different city in the United States, sponsored by the National Football League (NFL). Super Bowl XXXIX will be held in Jacksonville, FL, on Sunday, February 6, 2005, at ALLTEL Stadium. Security measures for Super Bowl XXXIX and the events preceding it, including temporary regulated navigation areas, security zones and anchorages proposed herein, are necessary from February 2, 2005, to February 7, 2005, and are needed to safeguard the maritime transportation infrastructure, the public, and designated participants from potential acts of violence or terrorism during Super Bowl XXXIX activities.
