

requests an effective date of October 22, 2004.

WSPP states that copies of this filing will be served upon Keith Bailey, Chief Operating Officer of MLCI, and Catherine Krupka and Donna Sauter of McDermott Will & Emery, counsel to MLCI. WSPP further states that in addition, copies will be emailed to WSPP members who have supplied e-mail addresses for the Contract Committee and Contacts lists which will reach most if not all active members. WSPP indicates that this filing also has been posted on the WSPP home page (<http://www.wspp.org>) thereby providing notice to all WSPP members.

Comment Date: 5 p.m. eastern time on December 13, 2004.

Standard Paragraph

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant and all parties to this proceeding.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Western Area Power Administration

Provo River Project Rate Order No. WAPA-116

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of rate order concerning a power rate formula.

SUMMARY: The Deputy Secretary of Energy confirmed and approved Rate Order No. WAPA-116, placing a rate formula for the Provo River Project (Project) of Western Area Power Administration (Western) into effect on an interim basis. The provisional power rate formula will remain in effect on an interim basis until the Federal Energy Regulatory Commission (Commission) confirms, approves, and places it into effect on a final basis, or until the power rate formula is replaced by another power rate formula.

DATES: The provisional rate formula extension will be placed into effect on an interim basis on April 1, 2005, and will be in effect until the Commission confirms, approves, and places the provisional rate formula extension in effect on a final basis for 5 years ending March 31, 2010, or until superseded.

FOR FURTHER INFORMATION CONTACT: Mr. Bradley S. Warren, CRSP Manager, CRSP Management Center, Western Area Power Administration, PO Box 11606, Salt Lake City, UT 84147-0606, (801) 524-5493, or Ms. Carol Loftin, Rates Manager, CRSP Management Center, Western Area Power Administration, PO Box 11606, Salt Lake City, UT 84147-0606, (801) 524-6380, e-mail loftinc@wapa.gov.

SUPPLEMENTARY INFORMATION: The Project was authorized in 1935. Construction on the Project, which includes Deer Creek Dam and Powerplant on the Provo River in Utah, began in 1938 but, because of World War II, was not completed until 1951. The powerplant, authorized on August 20, 1951, was completed and generation began in 1958. Its maximum operating capacity is 5,300 kilowatts.

Provo River Project power is now marketed independently from the Salt Lake City Area Integrated Projects subsequent to a marketing plan that was approved and published in the **Federal Register** on November 21, 1994. This marketing plan allows Western to market the output of the Project to customers of the Utah Municipal Power Agency and the Utah Associated Municipal Power Systems (Customers) in the Provo River drainage area.

Contract Nos. 94-SLC-0253 and 94-SLC-0254 between the United States and its Customers require that the amount of each annual installment be established in advance by Western and submitted to the Customers on or before August 31 of the year preceding the appropriate fiscal year. Each fiscal year, Western will estimate the Deer Creek Powerplant (DCP) expenses by preparing a power repayment study, which will include estimates of operation, maintenance, and replacement costs for the DCP.

Each annual installment pays the annual amortized portion of the United States investment in the Deer Creek Dam and Reservoir hydroelectric facilities with interest and the associated operation, maintenance, and replacement costs. This repayment schedule does not depend upon the power and energy made available for sale or the rate of generation each year, but is included in the contract in which the Customers pay all operating, maintenance, and replacement expenses of the Project and, in return, receive all of the energy produced by the Project. Western will continue to provide the Customers a revised annual installment by August 31 of each year using the same methodology.

By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to Western's Administrator, (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy, and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Commission. Existing DOE procedures for public participation in power rate adjustments (10 CFR part 903) were published on September 18, 1985 (50 FR 37835).

Under Delegation Order Nos. 00-037.00 and 00-001.00A, 10 CFR 903, and 18 CFR 300, I hereby confirm, approve, and place Rate Order No. WAPA-116 into effect on an interim basis. The extension of the rate formula will be promptly submitted to the Commission for confirmation and approval on a final basis.

Dated: November 22, 2004.

Kyle E. McSlarrow,
Deputy Secretary.

In the matter of: Western Area Power Administration Power Rate Formula Extension for the Provo River Project; Order Confirming, Approving, and Placing a Rate Formula Extension for the Provo River Project Into Effect on an Interim Basis.

This rate was established in accordance with section 302 of the Department of Energy (DOE) Organization Act (42 U.S.C. 7152). This Act transferred to and vested in the Secretary of Energy the power marketing functions of the Secretary of the Department of the Interior and the Bureau of Reclamation under the Reclamation Act of 1902 (ch. 1093, 32 Stat. 388), as amended and supplemented by subsequent laws, particularly section 9(c) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(c)), and other Acts that specifically apply to the Provo River Project (PRP).

By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to Western's Administrator, (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary, and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Commission. Existing DOE procedures for public participation in power rate adjustments (10 CFR 903) were published on September 18, 1985 (50 FR 37835).

Acronyms and Definitions

As used in this rate order, the following acronyms and definitions apply:

CRSP: Colorado River Storage Project.

Commission: Federal Energy Regulatory Commission.

Contracts: Contract No. 94-SLC-0254 with UMPA effective December 22, 1994, and Contract No. 94-SLC-0253 with UAMPS effective January 19, 1995, which were extended to September 30, 2024.

Customers: UMPA and UAMPS.

DCP: Deer Creek Powerplant.

DOE: Department of Energy.

DOE Order RA 6120.2: A Department of Energy order dealing with power marketing administration financial reporting and ratemaking procedures.

FY: Fiscal year; October 1 to September 30.

Interior: United States Department of the Interior.

kW: Kilowatt—the electrical unit of capacity that equals 1,000 watts.

MW: Megawatt—the electrical unit of capacity that equals 1 million watts or 1,000 kilowatts.

NEPA: National Environmental Policy Act of 1969 (42 U.S.C. 4321, *et seq.*).

OM&R: Operation, Maintenance, and Replacement.

PRP: Provo River Project.

PRS: Power repayment study.

PRWUA: Provo River Water Users Association.

Reclamation: United States Department of the Interior, Bureau of Reclamation.

SLCA/IP: Salt Lake City Area Integrated Projects. The resources and revenue requirements of the Collbran, Dolores, Rio Grande, and Seedskadee projects blended together with the CRSP to create the SLCA/IP resources and rate.

UAMPS: Utah Associated Municipal Power Systems.

UMPÁ: Utah Municipal Power Agency.

Western: United States Department of Energy, Western Area Power Administration.

Effective Date

This power rate formula will become effective on an interim basis beginning April 1, 2005, and will be in effect pending the Commission's approval of this or a substitute rate formula on a final basis for 5 years ending March 31, 2010, or until superseded.

Public Notice and Comment

Paragraph 903.23(a) of 10 CFR 903 for rate extensions does not require either a consultation and comment period, or public information or comment forums. This request is for approval of an extension of the present methodology used for calculating the annual installment. On April 14, 2004, Western met with the Customers and notified them of Western's intent to extend the present rate formula. Western also discussed the FY 2005 budget and capital expenditures. The Customers expressed their desire to continue using the rate formula methodology through notifications dated July 20, 2004, and August 26, 2004.

Project Description

Construction of the PRP began in May 1938, and the powerplant was completed in 1958. Presently, it has a generating capacity of 5,300 kW of power. Only energy excess to PRP purposes has been available for Federal marketing. Between 1963 and 1994, SLCA/IP needed additional energy and purchased the available PRP energy at an amount established annually for the PRP to cover its costs, including OM&R and repayment expenses. These expenses included \$1.6 million of irrigation assistance to the PRWUA.

PRP's original power investment has been repaid.

PRP power is now marketed independently from the SLCA/IP under a marketing plan published in the **Federal Register** on November 21, 1994. This marketing plan allows Western to market the output of the PRP to customers of UMPA and UAMPS in the Provo River drainage area.

Power Repayment Studies

Each fiscal year, Western will estimate DCP expenses by preparing a PRS that will include estimates of OM&R costs for the DCP for the next fiscal year. The PRS determines if power revenues will be sufficient to pay, within the prescribed time periods, all costs assigned to the PRP power function. Repayment criteria are based on law, policies including DOE Order RA 6120.2, and authorizing legislation.

Western calculates the annual installment based on 2 years of data. The calculation includes the projected costs of the rate installment year (future fiscal year) and an adjustment from the last historic fiscal year. The adjustment is the surplus or deficit that occurs in the last historic year when actual costs and repayment obligations are subtracted from actual revenues. This surplus or deficit is combined with the projected rate installment year costs to arrive at the rate installment. Each annual installment pays the annual amortized portion of the United States investment in the Deer Creek Dam and Reservoir hydroelectric facilities with interest and the associated OM&R. This repayment schedule does not depend upon the power and energy made available for sale or the rate of generation each year.

Certification of Rates

Western's Administrator certified that the interim rates for PRP power are the lowest possible rates consistent with sound business principles. The provisional rates were developed following administrative policies and applicable laws.

Statement of Revenue and Related Expenses

The revenue requirements for the PRP are based on PRS calculations for future requirements, which will be adjusted when FY actuals are known. The following table summarizes revenues and expenses for the current 6-year rate formula and the actual revenues and expenses for the same period.

PROVO RIVER COMPARISON OF 6-YEAR REVENUES AND EXPENSES FY 1999–2004
[\$1,000]

Item	Actual ¹	Projected ²	Difference
Total Revenues	\$1,857	\$1,424	\$433
Revenues Distribution:			
O&M	1,217	1,046	171
Transmission	179	179	0
Interest	165	153	12
Investment Repayment	264	46	218
Surplus Revenues	32	0	32
Total Revenues Distribution	1,857	1,424	433

¹ Amounts for FY 2004 are estimates taken from FY 2003 final PRS.

² Taken from FY 1998 final PRS.

The following table provides a summary of the projected revenues and expenses during the provisional rate formula period.

PROVO RIVER PROJECT 6-YEAR PROJECTIONS REVENUES AND EXPENSES
[\$1,000]¹

	FY 2005–2010 projections
Total Revenues ²	\$1,785
Costs:	
O&M	1,606
Interest	133
Investment Repayment	46
Total Costs	1,785

¹ Does not include \$29,788 per year for transmission expense.

² Although the rate process seeks approval for a 5-year period (FY 2006–2010), 6 years of data are shown in the above table because FY 2005 is an estimate.

Basis for Rate Development

Each Customer is billed for electric service calculated every FY, payable in 12 equal monthly payments. Every FY, Western will estimate PRP expenses by preparing a PRS which will include estimated of OM&R costs for the DCP. The amount of each monthly payment will be established in advance by Western and submitted to the Customers on or before August 31 of the year preceding the appropriate FY.

The calculation of the amount of the annual installment and the monthly payments will include adjustments to the OM&R charges. These adjustments deal with the difference between estimated and actual OM&R expenses. If OM&R charges are underestimated, an amount equal to the difference must be added to the next annual installment. Conversely, if OM&R charges are overestimated, the amount would be deducted from the next installment.

In accordance with the Contracts, minor replacements and additions are included in the annual operation and

maintenance expenses of the DCP. If major replacements and additions exceeding \$5,000, but not greater than \$25,000, are needed, the Customers will be given the option of financing their share of the cost or having the cost capitalized and amortized over the life of the replacement or addition, or over the life of the contract. If the Customers select the latter, the costs will be capitalized at the current interest rate prescribed by DOE, under RA 6120.2, Paragraph 11B, “Basic Policy for Rate Adjustment; Interest Rate Formula,” in the fiscal year in which the replacement or addition is made. Such costs will be based on prudent and businesslike management practices and following established electric industry operation and maintenance practices. If extraordinary replacements exceeding \$25,000 are needed, the Customers will consult with Reclamation, PRWUA, and Western on financing the replacement.

The rate does not depend upon the power and energy made available for sale; instead, the Customers will pay the total PRP’s annual powerplant expenses in return for the total marketable PRP production. Each Customer will pay its proportional share of the OM&R expenses identified in the PRS in 12 monthly installments.

Availability of Information

Information about this rate formula extension is available for public review at the Colorado River Storage Project Management Center, Western Area Power Administration, 150 East Social Hall Avenue, Suite 300, Salt Lake City, Utah 84111. Documents are also available at <http://www.wapa.gov/crsp/rateanal.htm> under CRSP rate adjustment documents for the Provo River Project’s section.

Regulatory Procedure Requirements

Environmental Compliance

In compliance with the National Environmental Policy Act (NEPA) of

1969 (42 U.S.C. 4321, *et seq.*); Council on Environmental Quality Regulations (40 CFR 1500–1508); and DOE NEPA Regulations (10 CFR 1021), Western has determined that this action is categorically excluded from the preparation of an environmental assessment or an environmental impact statement.

Determination Under Executive Order 12866

Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Small Business Regulatory Enforcement Fairness Act

Western has determined that this rule is exempt from congressional notification requirements under 5 U.S.C. 801 because the action is a rulemaking of particular applicability relating to rates or services and involves matters of procedure.

Submission to Federal Energy Regulatory Commission

The interim rate formula extension herein confirmed, approved, and placed into effect on an interim basis, together with supporting documents, will be submitted to the Commission for confirmation and final approval.

Order

In view of the above and under the authority delegated to me as the Deputy Secretary of Energy, I confirm and approve on an interim basis, effective April 1, 2005, an extension of the rate formula for the Provo River Project of the Western Area Power Administration. The rate formula shall remain in effect on an interim basis, pending the Commission’s confirmation and approval of it or a substitute rate on a final basis through March 31, 2010.

Dated: November 22, 2004.

Kyle E. McSlarrow,
Deputy Secretary.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7843-6]

Interagency Project To Clean Up Open Dumps on Tribal Lands: Request for Proposals

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The Tribal Solid Waste Interagency Workgroup (Workgroup) is soliciting proposals for its seventh year of the Tribal Open Dump Cleanup Project (Cleanup Project). Since FY99, the Workgroup has funded approximately \$13.4 million in projects. In FY04, the Interagency Workgroup made approximately \$2.5 million available to fully or partially fund 24 selected projects. A similar amount of funding is projected for FY05. The Cleanup Project is part of a federal effort to help tribes comprehensively address their solid waste needs. The purpose of the Cleanup Project is to assist with closing or upgrading tribal high-threat waste disposal sites and providing alternative disposal and integrated solid waste management.

The Workgroup was established in April 1998 to coordinate federal assistance to tribes in bringing their waste disposal sites into compliance with the municipal solid waste landfill criteria (40 CFR part 258). Current Workgroup members include representatives from the U.S. Environmental Protection Agency (EPA); the Bureau of Indian Affairs (BIA); the Indian Health Service (IHS); and the Departments of Agriculture and Defense. EPA has issued docket number RCRA-2004-0018 for this Notice.

Criteria: Eligible recipients of assistance under the Open Dump Cleanup Project include federally recognized tribes and intertribal consortiums. A full explanation of the submittal process, the qualifying requirements, and the criteria that will be used to evaluate proposals for this project may be found in the Request for Proposals package.

DATES: For consideration, proposals must be received by close of business on January 31, 2005. Proposals postmarked on or before but not received by the closing date will not be considered.

Please do not rely solely on overnight mail to meet the deadlines.

FOR FURTHER INFORMATION: Copies of the Request for Proposals package may be downloaded from the Internet at <http://www.epa.gov/tribalmw> by clicking on the "Grants/Funding" link. Copies may also be obtained by contacting EPA, IHS or BIA regional or area offices or one of the following Workgroup representatives:

EPA—Christopher Dege, 703-308-2392 or Charles Bearfighter Reddoor 703-308-8245.

IHS—Steve Aoyama, 301-443-1046.

BIA—Debbie McBride, 202-208-3606.

Dated: November 15, 2004.

Matt Hale,

Director, Office of Solid Waste.

ENVIRONMENTAL PROTECTION AGENCY

[OPPT-2004-0121; FRL-7686-1]

National Advisory Committee for Acute Exposure Guideline Levels for Hazardous Substances; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: A meeting of the National Advisory Committee for Acute Exposure Guideline Levels for Hazardous Substances (NAC/AEGL Committee) will be held on December 13-15, 2004, in Washington, DC. At this meeting, the NAC/AEGL Committee will address, as time permits, the various aspects of the acute toxicity and the development of Acute Exposure Guideline Levels (AEGLs) for the following chemicals: Acetone; acrolein; biphenyl; butadiene; chloroacetaldehyde; chloroform; dimethylamine; epichlorohydrin; ethyl mercaptan; hexafluoroacetone; methyl chlorosilane; methyl dichlorosilane; methylene chloride; N,N,-dimethylformamide; nitric oxide; nitrogen dioxide; nitrogen mustards; peracetic acid; perchloromethyl mercaptan; propionaldehyde; tetrachloroethylene; trichloroethylene; vinyl acetate monomer.

DATES: A meeting of the NAC/AEGL Committee will be held from 10:00 a.m. to 5:30 p.m. on December 13, 2004; 8:30 a.m. to 5:30 p.m. on December 14, 2004 and from 8:00 a.m. to noon on December 15, 2004.

ADDRESSES: The meeting will be held at the U.S. Department of Labor, 200

Constitution Avenue, NW., Washington, DC 20210, Room numbers C5515 1A and 1B.

FOR FURTHER INFORMATION CONTACT: For general information contact: Colby Lintner, Regulatory Coordinator, Environmental Assistance Division (7408M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (202) 554-1404; e-mail address: TSCA-Hotline@epa.gov.

For technical information contact: Paul S. Tobin, Designated Federal Officer (DFO), Economics, Exposure, and Technology Division (7403M), Office of Pollution Prevention and Toxics, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (202) 564-8557; e-mail address: tobin.paul@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. This action may be of particular interest to anyone who may be affected if the AEGL values are adopted by government agencies for emergency planning, prevention, or response programs, such as EPA's Risk Management Program under the Clean Air Act and Amendments Section 112r. It is possible that other Federal agencies besides EPA, as well as State agencies and private organizations, may adopt the AEGL values for their programs. As such, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the DFO listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number OPPT-2004-0121. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the EPA Docket Center, Rm. B102-Reading Room, EPA West, 1301 Constitution
