

The following are considered reasonable ranges by treatment or modality:

- Screening/Brief Intervention/Brief Treatment/Outreach/Pretreatment Services—\$200 to \$1,200.
- Outpatient (Non-Methadone)—\$1,000 to \$5,000.
- Outpatient (Methadone)—\$1,500 to \$8,000.
- Residential—\$3,000 to \$10,000.

If the State deviates from these costs, it should provide a justification for doing so, in order for SAMHSA to determine reasonableness of costs. Reasonable cost is based on actual cost of providing such services, including direct and indirect cost of providers and excluding any costs that are unnecessary in the efficient delivery of services covered by the program (Center for Medicare and Medicaid Services, 2003). While cost ranges for recovery support services are not specified above, due to the great variations that exist, applicants are expected to provide costs for recovery support services that they intend to provide. Per person costs for each modality should be computed by dividing the number of persons served in each modality by the amount of the project budget used to fund that program component after subtracting out the costs of required data collection and submission.
