

reached by mail at: Federal Trade Commission, 600 Pennsylvania Avenue, NW., Washington, DC 20580. Additional information about the workshop is posted on the FTC's Web site at <http://www.ftc.gov/bcp/workshops/filesharing/index.htm>.

SUPPLEMENTARY INFORMATION:

Background and Workshop Goals

On December 15 and 16, 2004, the FTC is planning to host a public workshop, "Peer-to-Peer File-Sharing Technology: Consumer Protection and Competition Issues." The FTC's workshop is intended to provide an opportunity to learn how P2P file-sharing works and to discuss current and future applications of the technology. It will discuss the risks to consumers related to file-sharing activities. The workshop also will address self-regulatory initiatives, technological efforts, and legislative proposals. It will discuss competition issues such as the models for distributing music and the impact of file-sharing on copyright holders. Questions to be addressed at the workshop are set forth in the Commission's Notice Announcing Public Workshop and Requesting Public Comment, published in the **Federal Register** on October 21, 2004.

Extension of Time for Filing Comments

The FTC is extending the time period during which public comments may be submitted. Interested parties may submit written comments on the published questions and other issues addressed by the workshop until January 18, 2005. Especially useful are any studies, surveys, research, and empirical data. All comments should be filed as prescribed in the **ADDRESSES** section above, and must be received by January 18, 2005.

By direction of the Commission.

Donald S. Clark,

Secretary.

National Center for Environmental Health/Agency for Toxic Substances and Disease Registry—Scientific Counselors Board; Correction

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease

Control and Prevention (CDC) announces the following committee meeting: Correction.

ACTION: Notice; Correction.

SUMMARY: The Board of Scientific Counselors, National Center for Environmental Health/Agency for Toxic Substances and Disease Registry published a document in the **Federal Register** on November 2, 2004, concerning advice and guidance to the Secretary, HHS; the Director, CDC and Administrator, ATSDR; and the Director, NCEH/ATSDR, regarding program goals, objectives, strategies, and priorities in fulfillment of the agencies' mission to protect and promote people's health.

Correction: In the **Federal Register** of November 2, 2004, (Volume 69, Number 211) [Notices] Page 63547—"PLACE: CDC Headquarter facility, 1600 Clifton Road, Atlanta, Georgia 30033" Should Read: Emory Conference Center, Silver Bell Pavillion, 1615 Clifton Road, Atlanta, Georgia 30333.

FOR FURTHER INFORMATION CONTACT:

Sandra Malcom, Committee Management Specialist, NCEH/ATSDR, 1600 Clifton Road, Mail Stop E-28, Atlanta, GA 30303; telephone (404) 498-0003, fax (404) 498-0059; e-mail: smalcom@cdc.gov. The deadline for notification of attendance is November 12, 2004.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities for both CDC and the National Center for Environmental Health/Agency for Toxic Substances and Disease Registry.

Dated: November 12, 2004.

B. Kathy Skipper,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

National Personal Protective Technology Labs (NPPTL), National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC) Announces the Following Meeting

Name: Continued Discussions for Concepts of Powered Air-Purifying

Respirator (PAPR) Standards and Introduction of Concepts for Closed Circuit, Self-Contained Breathing Apparatus Standards Development Efforts Used for Respiratory Protection Against Chemical, Biological, Radiological, and Nuclear (CBRN) Agents.

Date and Time: 8:30 a.m.–5 p.m., December 15, 2004.

Place: Sheraton Station Square, 7 Station Square Drive, Pittsburgh, Pennsylvania.

Purpose: NIOSH will continue discussions of conceptual standards and testing processes for PAPR standards suitable for respiratory protection against CBRN agents. NIOSH also wishes to introduce conceptual requirements for Closed Circuit, Self-Contained Breathing Apparatus suitable for respiratory protection against CBRN agents.

NIOSH, along with the U.S. Army Research, Development and Engineering Command (RDECOM, formerly SBCCOM) and the National Institute for Standards and Technology (NIST), will present information to attendees concerning the concept development for the PAPR CBRN standard and the Closed Circuit, Self-Contained Breathing Apparatus CBRN standard. Participants will be given an opportunity to ask questions on these topics and to present individual comments for consideration. Interested participants may obtain a copy of the PAPR CBRN concept paper and the Closed Circuit, Self-Contained Breathing Apparatus concept paper, as well as earlier versions of other concept papers used during the standard development effort, from the NIOSH NPPTL Web site at <http://www.cdc.gov/niosh/npptl>. The October 30, 2004, concept papers will be used as the basis for discussion at the public meeting.

Municipal, state, and federal responder groups, particularly in locations considered potential terrorism targets, have been developing and modifying response and consequence management plans for domestic security and preparedness issues. Since the World Trade Center and anthrax incidents, most emergency response agencies have operated with a heightened appreciation of the potential scope and sustained resource requirements for coping with such events. The federal Interagency Board for Equipment Standardization and Interoperability (IAB) has worked to identify personal protective equipment that is already available on the market for responders' use. The IAB has identified the development of standards or guidelines for respiratory protection equipment as a top priority. NIOSH,
