

maximum level of permanent impacts allowable under the LAHCP within the portion of the CZ owned by private landowners would be 20 percent (3 percent not requiring mitigation and 17 percent requiring mitigation) and 1 percent on lands owned by The Nature Conservancy (TNC), Colorado Division of Wildlife (CDOW), and the State Land Board (SLB) (not requiring mitigation). In all cases habitat connectivity would be maintained.

In addition to the proposed action, alternatives considered included—(a) no action, (b) development of individual conservation easements, and (c) waiting for Larimer County to develop and gain approval of a county-wide HCP. The draft EA analyzes the direct, indirect, and cumulative impacts of the proposed activities and mitigation on the Preble's, and also on other threatened or endangered species, vegetation, wildlife, wetlands, geology/soils, land use, cultural resources, air quality, and water resources and quality.

Two federally listed species, the threatened Preble's and the threatened bald eagle (*Haliaeetus leucocephalus*), occur onsite. However, only the Preble's has the potential to be adversely affected by the activities covered in the LAHCP. To mitigate impacts that may result from incidental take (exceeding the limit of 3 percent on private land and 1 percent on the TNC, CDOW, and SLB land), the LAHCP provides for mitigation in the form of either (1) conservation of existing habitat at a ratio of 4:1 (4 acres conserved for every 1 acre of habitat in the CZ impacted), or (2) habitat improvement or creation at a ratio of 2:1. Additionally, the LAHCP calls for mitigation of temporary impacts to the CZ at a 1:1 ratio and identifies methods for and timing of reseeded of temporarily disturbed areas. A monitoring program would be implemented to determine whether the LAHCP is achieving the biological goals and objectives outlined in the plan.

This notice is provided pursuant to section 10(c) of the Act. We will evaluate the permit application, the EA/LAHCP, and comments submitted therein to determine whether the application meets the requirements of section 10(a) of the Act. If it is determined that those requirements are met, a permit will be issued for the incidental take of the Preble's in conjunction with the development of new agricultural and residential structures and ongoing agricultural activities in the Livermore Area of northern Larimer County, Colorado. The final permit decision will be made no sooner than 60 days after the date of this notice.
