BILLING CODE 4154-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Delivery of Prevention of Mother to Child Transmission of HIV (PMTCT) Products in River State, Nigeria

Announcement Type: New.

Funding Opportunity Number: PA 04260.

Catalog of Federal Domestic Assistance Number: 93.941.

DATES: *Application Deadline:* September 7, 2004.

I. Funding Opportunity Description

Authority: This program is authorized under Sections 307 and 317(k)(2) of the Public Health Service Act, [42 U.S.C. Sections 242l and 247b(k)(2)] as amended and under Public Law 108-25 (United States Leadership Against HIV/AIDS, Tuberculosis and Malaria Act of 2003) [22 U.S.C. 7601].

Purpose: The purpose of the program is to improve the quality of life of people living with HIV/AIDS (PLWHAs) and their families. Nigeria has a population of 120 million and a current HIV sero-prevalence rate of 5.8 percent, thus making it the country with the largest number of HIV infected persons in Sub Saharan Africa (3.4 million HIV infected persons). As part of its response to the epidemic, the Government of Nigeria, in 2001, requested that the national Prevention of Mother to Child Transmission (PMTCT) task force team and the newly convened Antiretroviral (ARV) committee develop guidelines and protocols for implementing pilot PMTCT programs and ARV treatment and care programs respectively. The Centers for Disease Control and Prevention (CDC) announces the availability of Fiscal Year (FY) 2005 funds for a cooperative agreement program to increase United States support to countries in which the CDC's Global AIDS Program (GAP) is operating. In coordination with host (or "in-country") GAP program staff, the applicant will assist in addressing the devastating impact of HIV/AIDS on individuals, families, and communities in Nigeria. The funded organization will provide technical assistance (TA) to implement, monitor, and evaluate the delivery of PMTCT products in River State, Nigeria, to reduce HIV transmission from mother to child and to prolong the lives of parents infected with HIV/AIDS.

The GAP has established field operations to support national HIV/AIDS control programs in 25 countries. The CDC's GAP exists to help prevent HIV infection, improve care and support, and build capacity to address the global AIDS pandemic. GAP provides financial and TA through partnerships with governments, community- and faith-based organizations, the private sector, and national and international entities working in the 25 resource-constrained countries. CDC/GAP works with the Health Resources and Services Administration (HRSA), the National Institutes of Health (NIH), the U.S. Agency for International Development (USAID), the Peace Corps, the Departments of State, Labor and Defense, and other agencies and

organizations. These efforts complement multilateral efforts, including The Joint United Nations Programme on HIV/AIDS (UNAIDS), the Global Fund to Combat HIV, TB and Malaria, World Bank funding, and other private sector donation programs.

The U.S. Government seeks to reduce the impact of HIV/AIDS in specific countries within sub-Saharan Africa, Asia, and the Americas through the President's Emergency Plan for AIDS Relief (PEPFAR). Through this new initiative, CDC's GAP will continue to work with host countries to strengthen capacity and expand activities in the areas of: (1) Primary HIV prevention; (2) HIV care, support, and treatment; and (3) capacity and infrastructure development, especially for surveillance and training. Targeted countries represent those with the most severe epidemics where the potential for impact is greatest and where U.S. government agencies are already active. Nigeria is one of these targeted countries.

To carry out its activities in these countries, CDC is working in a collaborative manner with national governments and other agencies to develop programs of assistance to address the HIV/AIDS epidemic. CDC's program of assistance to Nigeria focuses on several areas of national priority including scaling up of prevention and care strategies for HIV prevention, care, and treatment.

The measurable outcomes of the program will be in alignment with goals of the National Center for HIV, STD and TB Prevention (NCHSTP) to reduce HIV transmission and improve care of PLWHAs. They also will contribute to the goals of the PEPFAR which are: (1) Within five years treat more than two million HIV-infected persons with effective combination anti-retroviral therapy (ART); (2) care for ten million HIV-infected and affected persons including those orphaned by HIV/AIDS; and (3) prevent seven million infections in 14 countries throughout the world.

Any entity that receives, directly or indirectly, U.S. Government funds in connection with this document ("recipient") cannot use such U.S. Government funds to promote or advocate the legalization or practice of prostitution or sex trafficking. Nothing in the preceding sentence shall be construed to preclude the provision to individuals of palliative care, treatment, or post-exposure pharmaceutical prophylaxis, and necessary pharmaceuticals and commodities, including test kits, condoms, and, when proven effective, microbicides. A recipient that is otherwise eligible to receive funds in connection with this document to prevent, treat, or monitor HIV/AIDS shall not be required to endorse or utilize a multisectoral approach to combating HIV/AIDS, or to

These provisions must be express terms and conditions of the subagreement, acknowledge that each certification to compliance with this section, "Prostitution and Related Activities," are a prerequisite to receipt of U.S. Government funds in connection with this document, and must acknowledge that any violation of the provisions shall be grounds for unilateral termination of the agreement prior to the end of its term. In addition, all recipients must ensure, through contract, certification, audit, and/or any other necessary means, all the applicable requirements in this section, "Prostitution and Related Activities," are met by any other entities receiving U.S. Government funds from the recipient in connection with this document, including without limitation, the recipients' sub-grantees, sub-contractors, parents, subsidiaries, and affiliates. Recipients must agree that HHS may, at any reasonable time, inspect the documents and materials maintained or prepared by the recipient in the usual course of its operations that

relate to the organization's compliance with this section, "Prostitution and Related Activities."

All primary grantees receiving U.S. Government funds in connection with this document must certify compliance prior to actual receipt of such funds in a written statement referencing this document (e.g., "[Recipient's name] certifies compliance with the section, 'Prostitution and Related Activities.'") addressed to the agency's grants officer. Such certifications are prerequisites to the payment of any U.S. Government funds in connection with this document.

- Recipients' compliance with this section, "Prostitution and Related Activities," is an express term and condition of receiving U.S. Government funds in connection with this document, and any violation of it shall be grounds for unilateral termination by HHS of the agreement with HHS in connection with this document prior to the end of its term. The recipient shall refund to HHS the entire amount furnished in connection with this document in the event it is determined by HHS that the recipient has not complied with this section, "Prostitution and Related Activities."
