

packaging labeling. As this occurs, Federal Government cardholders can make informed EIT purchases that conform to the Access Board's standards, and the micro-purchase exception will no longer be needed.

Without the extension of the micro-purchase exception, all micro-purchases may have to go through a special evaluation to ensure they comply with EIT Standards. EIT micro-purchases would be forwarded to contracting offices for purchase. This would significantly increase the workload in procurement offices and the finance offices, causing a reduction in efficiency and delivery (increased procurement lead-times). The potential costs to industry cannot be measured.

The Councils realized there might be some concern within the disability advocacy groups and the Government that extending the micro-purchase exemption will signal that the Government is relaxing the implementation period. That is not the case. It is only intended to deal with the small portion of EIT that is acquired with credit cards (micro-purchases) and the practical reality that the lack of package labeling, or other manufacturer accessibility information, makes informed decision making by cardholders especially difficult. To help in determining the appropriate next steps for addressing the accessibility of EIT micro-purchases, the Councils invite respondents to address the following questions in addition to providing comments on the rule.

Any and all comments related to this rule are welcomed. Note that public comments provided in response to this notice will be available in their entirety to any requester, including any requester under the Freedom of Information Act (5 U.S.C. 552). Therefore, we caution respondents not to provide proprietary or other business sensitive information. Under no circumstances should respondents provide any information unless they do so with a clear understanding that it will be made available to the public.

1. For EIT industry respondents, please include in your comments responses to the following questions:

a. What type of training is your company employing to educate your developers (hardware and software) and salespersons regarding the section 508 requirements?

b. What mechanisms or approaches should the Government consider to ensure EIT micro-purchases (products and services) are accessible?

c. Do you anticipate your company will label its EIT products with buyer information regarding the accessibility

aspects of the product being offered for sale? If so, when?

d. Do you offer a complete template of accessibility information for each of your EIT products and services on your Web site? If no, why not?

e. Currently, what process does your company employ to provide information to potential Government purchasers regarding the accessibility features of the products manufactured or sold?

2. For other respondents, please include in your comments responses to the following questions:

a. What mechanisms or approaches should the Government consider to ensure EIT micro-purchases (products and services) are accessible?

b. Currently, what type of training is being employed by your organization to educate purchasers and users regarding the Section 508 requirements? Is any training specifically geared towards cardholders and micro-purchases? If so, how do you explain and communicate the Section 508 requirements?

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

#### B. Regulatory Flexibility Act

The interim rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because for purchases under \$2,500 (a "micro-purchase"), no competitive quotations have to be obtained and micro-purchases are no longer reserved exclusively for small firms. Therefore, an Initial Regulatory Flexibility Analysis has not been performed. The Councils will consider comments from small entities concerning the affected FAR Part in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, *et seq.* (FAC 2001-11, FAR case 2002-012), in correspondence.

#### C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the FAR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

#### D. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense (DoD), the Administrator of General

Services (GSA), and the Administrator of the National Aeronautics and Space Administration (NASA) that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. This action is necessary because the rule extends an exception that would otherwise impose burdens that the Government and contractors are not prepared to meet. However, pursuant to Public Law 98-577 and FAR 1.501, the Councils will consider public comments received in response to this interim rule in the formation of the final rule.
