Section C. Privacy Act Protections

Privacy Act

The Privacy Act of 1974, 5 U.S.C. 552a, applies to Federal agencies, including the Postal Service. The Privacy Act provides protections for personal information that an agency maintains in a system of records. A system of records describes a file, database, or program from which information is retrieved about an individual by name or other personal identifier.

Privacy Act Protections

The Privacy Act establishes recordkeeping, access, and nondisclosure requirements for information maintained in a system of records. The Privacy Act requires agencies to publish a description of each system of records to provide full information on how personal information within the system is treated. This includes how information is collected, used, disclosed, stored, and disposed of. It also includes how individuals can obtain access to, correct, and amend, information relating to themselves that is stored in the system.

The Privacy Act places limitations and requirements on how information from within a system can be disclosed, as described below. Sections D and E contain the complete description of routine uses that apply to the Postal Service systems of records.

Authorized Disclosures and Routine Uses

Under the Privacy Act, information can only be disclosed from a system, internally or externally, under one of two conditions.

1. The individual has authorized the disclosure in writing.
2. The disclosure fits within one of 12 specified categories.

The following is a description of disclosures, including those authorized by the Privacy Act, Postal Service routine uses, and regulations.

Disclosures Authorized by the Privacy Act

The Privacy Act authorizes disclosures in the following 12 circumstances. To see the official text of the Privacy Act, see 5 U.S.C. 552a(b).

Under the Privacy Act, disclosures are authorized:

1. To agency employees who need the information to perform their job.
2. As required by the Freedom of Information Act (FOIA).
3. For routine uses for which the agency has provided proper notice.
4. To the Bureau of the Census for purposes related to census and survey activities.
5. To a recipient who provides advance written assurance that the information will only be used for statistical research or reporting, and the information provided does not identify individuals.

6. To the National Archives and Records Administration for historic preservation purposes.

7. To other domestic government agencies for a civil or criminal law enforcement activity if the activity is authorized by law. In such cases, the agency head must specify in writing both the law enforcement activity and the particular information needed.

8. To a person upon a showing of compelling circumstances affecting an individual's health or safety. The agency must send notice of the disclosure to the individual's last known address.

9. To Congress, or to any of its committees or subcommittees, to the extent the matter is within their jurisdiction.

10. To the Comptroller General in the performance of duties of the General Accounting Office.

11. Pursuant to the order of a court of competent jurisdiction.

12. To a consumer reporting agency in order to collect claims owed to the Government.

Postal Service Disclosures and Routine Uses

The Privacy Act allows agencies to disclose information from a system of records if they establish a routine use describing the disclosure (see 3 above). Under the Privacy Act, routine uses are defined as disclosures that are compatible with the purpose for which the information was collected—in other words, disclosures that are appropriate and necessary for the efficient conduct of government business. Routine uses

for each system of records are established by publishing them in a **Federal Register** notice that describes the system. They must also be disclosed in a notice given to an individual when information is collected directly from the individual. Routine uses that apply to general and customer systems of records are contained in Sections D and E, respectively.

The Privacy Act also allows disclosures required by the Freedom of Information Act (FOIA). Postal Service regulations implementing the Privacy Act and FOIA are contained in 39 CFR parts 261–268. Postal Service regulations describe treatment for particular FOIA and other requests, and describe exemptions permitting nondisclosure for certain personal and business information as allowed by FOIA.

Section D. Prefatory Statement of Routine Uses That Apply to the General Systems of Records

General Systems of Records

Section D includes routine uses for general systems of records. General systems include systems relating to employees, Finance, Postal Inspection Service, litigation, and other systems that are not primarily related to Postal Service customers.

Routine Uses for General Systems

The following are routine uses for general systems of records. (**Note:** The letter “i” was not used.) Each system notice indicates which standard routine uses are incorporated, as well as any specific routine uses that apply.

a. *Disclosure for Law Enforcement Purposes.* When the Postal Service becomes aware of an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, or in response to the appropriate agency's request on a reasonable belief that a violation has occurred, the relevant records may be referred to the appropriate agency, whether Federal, state, local, or foreign, charged with enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto.

b. *Disclosure Incident to Litigation.* Records from this system may be disclosed to the U.S. Department of Justice or the other counsel representing the Postal Service, or may be disclosed in a proceeding before a court or adjudicative body before which the Postal Service is authorized to appear, when (a) the Postal Service; or (b) any

Postal Service employee in his or her official capacity; or (c) any Postal Service employee in his or her individual capacity whom the Department of Justice has agreed to represent; or (d) the United States when it is determined that the Postal Service is likely to be affected by the litigation, is a party to litigation or has an interest in such litigation, and such records are determined by the Postal Service or its counsel to be plausibly relevant to the litigation, provided, however, that in each case, the Postal Service determines that disclosure of the records is a use of the information that is compatible with the purpose for which it was collected. This routine use specifically contemplates that information may be released in response to relevant discovery and that any manner of response allowed by the rules of the forum may be employed.

c. *Disclosure Incident to Requesting Information.* Records may be disclosed to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement or other pertinent information, such as licenses, when necessary to obtain information from such agency that is relevant to a Postal Service decision about the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, permit, or other benefit.

d. *Disclosure to Requesting Agency.* Records may be disclosed to a Federal, state, local, or foreign agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the conduct of a security or suitability investigation of an individual, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

e. *Congressional Inquiries.* Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the prompting of that individual.

f. *Disclosure to Agents and Contractors.* Records or information from this system may be disclosed to an expert, consultant, or other individual who is under contract to the Postal Service to fulfill an agency function, but only to the extent necessary to fulfill that function. This may include disclosure to any individual with whom the Postal Service contracts to reproduce by typing, photocopy, or

other means, any record for use by Postal Service officials in connection with their official duties or to any individual who performs clerical or stenographic functions relating to the official business of the Postal Service.

g. *Storage.* Inactive records may be transferred to a Federal records center for Storage prior to destruction.

h. *Disclosure to Office of Management and Budget.* Records from this system may be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that circular.

j. *Disclosure to Outside Auditors.* Records in this system may be subject to review by an independent certified public accountant during an official audit of Postal Service finances.

k. *Disclosure to Equal Employment Opportunity Commission.* Records from this system may be disclosed to an authorized investigator, administrative judge, or complaints examiner appointed by the Equal Employment Opportunity Commission, when requested in connection with the investigation of formal complaint of discrimination filed against the U.S. Postal Service under 29 CFR Part 1614.

l. *Disclosure to Merit Systems Protection Board or Office of the Special Counsel.* Records from this system may be disclosed to the Merit Systems Protection Board or Office of the Special Counsel for the purpose of litigation, including administrative proceedings, appeals, special studies, investigations of alleged or possible prohibited personnel practices, and such other functions as may be authorized by law.

m. *Disclosure to Labor Organizations.* Pursuant to the National Labor Relations Act, records from this system may be furnished to a labor organization when needed by that organization to properly perform its duties as the collective bargaining representative of Postal Service employees in an appropriate bargaining unit.

Section E. Prefatory Statement of Routine Uses That Apply to Customer Systems

Customer Systems of Records

Section E includes routine uses for systems of records containing information relating to Postal Service customers.

Routine Uses for Customer Systems

The following standard routine uses apply to Postal Service systems of records for customer information. The

routine uses fall into three categories: (1) Disclosures that are legally required (such as in a legal proceeding); (2) disclosures that facilitate the customer transaction (such as sharing data with contractors assisting in the program); and (3) disclosures for the benefit of the customer (such as sharing with a congressional office at a customer's behest). A system may have an additional routine use or uses on occasion. Those routine uses will be disclosed in each system notice.

1. *Disclosure for Law Enforcement Purposes.* Relevant records may be disclosed to appropriate law enforcement agencies to investigate, prevent, or take action regarding suspected illegal activities against the Postal Service. Records may be disclosed to other law enforcement agencies as required by law.

2. *Disclosure Incident to Legal Proceedings.* When the Postal Service has an interest in litigation or other legal proceedings before a state, Federal, local, administrative, or foreign adjudicative body, relevant records may be disclosed before that adjudicative body and/or to the Department of Justice or other legal counsel representing the Postal Service or its employees, and in response to relevant discovery.

3. *Disclosure to Government Agencies.* Relevant records may be disclosed to a Federal, state, local or foreign government agency when necessary in connection with decisions by the requesting agency, or by the Postal Service, regarding personnel matters, issuance of security clearances, letting of contracts, or decisions to issue licenses, grants, or other benefits.

4. *Congressional Inquiries.* Relevant records about an individual may be disclosed to a congressional office in response to an inquiry from the congressional office made at the prompting of that individual.

5. *Disclosure to Agents, Contractors, and Partners.* Relevant records may be disclosed to entities under contract or agreement with the Postal Service, when necessary to fulfill a Postal Service function or to provide Postal Service products and services to customers.

6. *Disclosure to Agencies and Entities for Financial Transactions.* Relevant records may be disclosed to credit bureaus, government agencies, and service providers that perform identity verification and credit risk assessment services; to financial institutions or payees to facilitate or resolve issues with payment services; or to collection agencies for the purposes of debt collection.

7. *Disclosure to Auditors.* Relevant records may be disclosed to government

agencies and other entities authorized to audit the Postal Service and Postal Service activities, including financial and other audits of the Postal Service.

8. *Disclosure for Customer Service Purposes.* Relevant records may be disclosed to entities if the disclosure is part of the service to the customer. This includes disclosures to addressees of mail to process inquiries and claims; entities to which the customer wants to provide identity verification; the State Department for passport processing; international posts or agents to process international services or inquiries; or disclosures to mailers of sexually oriented advertisements of a list of individuals who do not want to receive them.

Activities are audited, and archived information is protected from corruption, deletion, and modification.

For authentication services and electronic postmark, electronic data is transmitted via secure socket layer (SSL) encryption to a secured data center. Paper forms are stored within a secured area within locked cabinets.
