

been taken in the Universal Licensing System to terminate the licenses that are set forth in Attachment A of the Public Notice.

FOR FURTHER INFORMATION CONTACT: Denise D. Walter, Commercial Wireless Division, at 202-418-0620.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Public Notice*, DA 03-3310, released on October 22, 2003. The full text of the *Public Notice* is available for inspection and copying during normal business hours in the Federal Communications Commission Reference Center, 445 12th Street, SW., Washington, DC 20554. The complete text may be purchased from the Federal Communications Commission's copy contractor, Qualex International, 445 12th Street, SW., Room CY-B402, Washington, DC 20554. The full text may also be downloaded at <http://wireless.fcc.gov>. Alternative formats are available to persons with disabilities by contacting Brian Millin at (202) 418-7426 or TTY (202) 418-7365 or at bmillin@fcc.gov.

1. On May 14, 2003, 452 letters were mailed to all licensees operating in the QT, QD, and QO radio services inquiring into the operational status of each license held. Each licensee was required to respond and certify, by June 13, 2003, that its authorized station(s) had not permanently discontinued service (*i.e.*, discontinued operations for one year or more). The audit letter, mailed to each licensee at its address of record, included the call signs of the licensee's authorizations involved in this audit. In addition, the Bureau released an initial *Public Notice*, 68 FR 19822, April 22, 2003 announcing the audit, as well as several follow-up *Public Notices*, 68 FR 31704, May 28, 2003 and 68 FR 41133, July 10, 2003 explaining that the audit was underway and setting forth the audit process.

2. In the audit letters that were mailed to the individual licensees, as well as in the Bureau's *Public Notices*, the Bureau expressly indicated that a response to the audit letter was mandatory. The Bureau also indicated that failure to provide a timely response might result in the Commission's presumption that station at issue was non-operational for one year or more and therefore automatically cancelled. The Bureau's second audit letter explicitly stated that failure to timely respond to the audit letter would result in the loss of the licensee's authority to operate on the station(s) at issue in the audit letter. The Bureau has received no response to either of the audit letters for the station licenses that are set forth in Attachment A of the *Public Notice*. The Bureau

therefore presumes that the stations identified in Attachment A have been non-operational for a period of one year or more, and confirms that these station licenses have cancelled automatically pursuant to 47 CFR 90.157 of the Commission's rules. Action has been taken in the Universal Licensing System to terminate these licenses.

Federal Communications Commission.

Roger Noel,

Deputy Division Chief.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Sunshine Act Meeting; Deletion of Agenda Items From November 13th Open Meeting

November 12, 2003.

The following items have been deleted from the list of Agenda items scheduled for consideration at the November 13, 2003, Open Meeting and previously listed in the Commission's Notice of November 6, 2003.

3 International

Title: Procedures to Govern the Use of Satellite Earth Stations on Board Vessels in the 5925-6425 MHz/3700-4200 MHz Bands and 14.0-14.5 GHz/11.7-12.2 GHz Bands (IB Docket No. 02-10).

Summary: The Commission will consider a Notice of Proposed Rulemaking concerning Earth stations on board vessels that are used to provide broadband telecommunications services on passenger, government, cargo, and recreational vessels.

4 Office of Engineering and Technology

Title: Revision of Parts 2 and 15 of the Commission's Rules to Permit Unlicensed National Information Infrastructure (UNII) devices in the 5 GHz band (ET Docket No. 03-122; RM-10371).

Summary: The Commission will consider a Report and Order to provide an additional 255 MHz of spectrum for unlicensed wireless devices operating in the 5 GHz region of the spectrum.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

Proposed Data Collections Submitted for Public Comment and Recommendations Withdrawal

A notice announcing a 30-Day comment period for the proposed project: Health and Safety Outcomes Related to Work Schedules in Nurses—NEW—The National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC) was inadvertently republished in the **Federal Register** November 5, 2003, [68 FR 62607 through 62608]. This notice is hereby withdrawn.

The official publication of this notice was September 18, 2003, [68 FR 54732] and stands as published.

Dated: November 10, 2003.

James D. Seligman,

Chief Information Officer, Office of the Chief Operations Officer, Centers for Disease Control and Prevention (CDC).

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 498-1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Anne O'Connor, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project: Comprehensive Cancer Control (CCC) Implementation Case Study—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background

While much has been learned about the development of CCC plans, little is known about CCC grantee activities, organizational capacity, or essential

elements of implementing CCC plans. CDC, through a contractor will evaluate the necessary components of the CCC Program. The evaluation consists of: (1) The design of a plan to evaluate the CCC Program; (2) an evaluation of grantee activities; (3) a nationwide assessment of capacity to plan, implement and evaluate CCC programs, and (4) a study of selected grantees' experiences implementing CCC plans. This project will focus on the fourth component of the evaluation.

Implementation case studies provide the opportunity to follow the relationships among needs identified in the planning process, goals and objectives established in the plan (priorities for action), and implemented activities. The goals of the proposed data collection are to document the process and activities CCC programs undertake to implement a CCC plan,

and to document measures CCC programs use to assess how well a CCC plan is implemented.

The data will be collected via in-person interviews with key personnel in the implementation of CCC plans. Key personnel will include: Program directors, program staff in health departments and partner organizations, partner organization decisionmakers, program evaluators, and representatives from non-partner organizations. Interviews will take place during one 3 to 4-day site visit to 10 sites. A total of 240 interviews will be conducted. Interviews will last approximately one to two hours each. The program directors will also complete a packet of background information in preparation for the site visits. The materials will take approximately two hours to complete. The only cost to respondents is their time.

| Form and type of respondents | No. of respondents | No. of responses per respondent | Avg. burden per response (in hours) | Total annual burden (in hours) |
|---------------------------------------|--------------------|---------------------------------|-------------------------------------|--------------------------------|
| 1: Program Directors | 20 | 1 | 2 | 40 |
| 2: Staff Members | 80 | 1 | 1 | 80 |
| 3: Partners or Coalition Member | 80 | 1 | 1 | 80 |
| 4: Program Evaluators | 20 | 1 | 1 | 20 |
| 5: Non-partners | 40 | 1 | 1 | 40 |
| 6: Program Directors | 20 | 1 | 2 | 40 |
| Total | | | | 300 |

Dated: November 7, 2003.

Gaylon D. Morris,

Acting Executive Secretariat, Centers for Disease Control and Prevention.

Proposed Project: A Survey of Veterinary Clinics to Assess Infection Control Practices and Use of Personal Protective Equipment to Reduce Transmission of Zoonotic Diseases—New—National Center for Infectious Diseases (NCID), Centers for Disease Control and Prevention (CDC).

Recent outbreaks of emerging zoonotic diseases in the United States have highlighted the need to better protect the veterinary community from infectious diseases by educating them about personal protective measures. In particular, during the recent 2003 outbreak of monkeypox in the United States associated with prairie dogs and imported rodents, veterinarians or veterinary staff represented over 25% of confirmed and probable human cases. During the height of this outbreak, health officials were tasked with providing information to the medical and veterinary communities to ensure safety when examining monkeypox-infected patients; a lack of universally accepted infection control and personal protection guidelines within the veterinary community hampered the delivery of effective prevention messages to this vulnerable population.

The proposed survey asks veterinarians about infection control procedures employed in their clinics and the use of personal protective equipment to prevent zoonotic disease transmission.

The proposed study consists of a self-administered, written questionnaire
