

31, 2002), or go to <http://www.epa.gov/edocket>.

Affected Entities: Entities potentially affected by this action are those which produce, import, or distribute gasoline.

Title: Reformulated Gasoline and Conventional Gasoline: Requirements for Refiners, Oxygenate Blenders, and Importers of Gasoline; Requirements for Parties in the Gasoline Distribution Network (40 CFR 80—Subparts D, E and F), EPA ICR No. 1591.13, OMB Control No. 2060-0277, *expiration date:* 4-30-04.

Abstract: Gasoline combustion is the major source of air pollution in most urban areas. The Clean Air Act (Act) requires that gasoline dispensed in certain areas with severe air quality problems be reformulated to reduce toxic and ozone-forming (smog) emissions. The Act also requires that in the process of producing reformulated gasoline (RFG), dirty components removed in the reformulation process not be “dumped” into the remainder of the country’s gasoline, known as conventional gasoline (CG). The EPA promulgated regulations at 40 CFR 80 establishing standards for RFG and CG, as specified in the Act, and establishing mandatory reporting and record keeping requirements for demonstrating compliance and as an aid to enforcement. The primary requirements are to test each batch of gasoline for various properties, report the results to EPA, and demonstrate compliance with the standards on an annual basis. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of

information technology, *e.g.*, permitting electronic submission of responses.

Burden Statement: EPA estimates the respondent population at 75 RFG refineries, 25 RFG import facilities, 25 RFG oxygenate blenders, 225 CG refineries, 50 CG import facilities, 250 pipelines and terminals, 500 truckers, 19 independent laboratories, 20 auditors, and the RFG Survey Association, Inc. The typical RFG or CG respondent will have around 100 to 130 reports per year, depending primarily on the number of batches of gasoline involved. The total number of reports is estimated at 53,170 and the total burden at 101,585 hours. While this gives an average burden per report of about two hours, about 95% of the reports have an estimated burden of one hour. At \$65 per hour, the labor cost is about \$6.6 million. Most start-up costs were incurred at the start of the program in 1995. However, there is an estimated annualized capital cost for analysis equipment of \$4.8 million. Annual operating and maintenance costs are estimated at about \$5 million, and annual purchase of services costs are estimated at about \$13.2 million. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: October 24, 2003.

Suzanne Rudzinski,

Director, Transportation and Regional Programs Division.

National Advisory Council for Environmental Policy and Technology (NACEPT) Superfund Subcommittee Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification of public advisory NACEPT subcommittee on Superfund; open meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Superfund Subcommittee, a subcommittee of the National Advisory Council for Environmental Policy and Technology (NACEPT), will meet on the dates and times described below. The meeting is open to the public. Seating will be on a first-come basis, and limited time will be provided for public comment on each day.

DATES: The meeting will be held from 8:30 a.m. to 6 p.m. on December 9, 2003; from 8:30 a.m. to 6 p.m. on December 10, 2003; and 8:30 a.m. to 1 p.m. on December 11, 2003.

ADDRESSES: The meeting will take place at the Hilton Crystal City at National Airport, 2399 Jefferson Davis Highway, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: Angelo Carasea, Designated Federal Officer for the NACEPT Superfund Subcommittee, Office of Superfund Remediation and Technology Innovation, Office of Solid Waste and Emergency Response, MC 5204G, 1200 Pennsylvania Ave., NW., Washington, DC, (703) 603-8828.

SUPPLEMENTARY INFORMATION:

Agenda

This eight meeting of the NACEPT Superfund Subcommittee will involve discussion of the latest version of the Subcommittee’s draft report. The agenda for the meeting will be available one week prior to the meeting’s occurrence.

Public Attendance

The public is welcome to attend all portions of the meeting. Members of the public who plan to file written statements and/or make brief (suggested 5-minute limit) oral statements at the public sessions are encouraged to contact the Designated Federal Official. Each day will have one public comment period.

Dated: November 13, 2003.

Angelo Carasea,

Designated Federal Officer, NACEPT
Superfund Subcommittee.

Pesticide Product; Registration Approval

AGENCY: Environmental Protection
Agency (EPA)

ACTION: Notice.

SUMMARY: This notice announces Agency approval of an application to register the pesticide product Certis Technical Olive Fly Pheromone containing an active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: Andrew Bryceland, Biopesticides and Pollution Prevention Division (7511C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 305-6928; e-mail address: bryceland.andrew@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does This Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS 111)
- Animal production (NAICS 112)
- Food manufacturing (NAICS 311)
- Pesticide manufacturing (NAICS 32532)

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult

the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of This Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number OPP-2003-0326. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are also available for public inspection. Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001. The request should: Identify the product name and registration number and specify the data or information desired.

A paper copy of the fact sheet, which provides more detail on this registration, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Rd., Springfield, VA 22161.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although, not all docket materials may be available electronically, you may still

access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

II. Did EPA Approve the Application?

The Agency approved the application after considering all required data on risks associated with the proposed use of 1,7-dioxaspiro-(5,5)-undecane, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of 1,7-dioxaspiro-(5,5)-undecane when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

III. Approved Application

EPA issued a notice, published in the **Federal Register** of March 28, 2002 (67 FR 1493) (FRL-6827-7), which announced that Thermo Trilog Corporation (Certis USA), 9145 Guilford Road, Suite 175, Columbia, MD, 21046, had submitted an application to register the pesticide product Olive Fly Attract and Kill (A & K) Target Device containing two new active ingredients (EPA File Symbol 70051-TA). This product contained two new active ingredients; ammonium bicarbonate at 12.8% and the arthropod pheromone 1,7-dioxaspiro-(5,5) undecane (Spiroketal) at 0.2%.

During the course of the review of the Section 3 application for Olive Fly Attract and Kill (A & K) Target Device (EPA File Symbol 70051-TA) the Agency determined that a separate registration for the technical grade of 1,7-dioxaspiro-(5,5) undecane was needed. The registrant then submitted a pesticide application (7/18/02) for a section three registration for the product Certis Technical Olive Fly Pheromone containing the active ingredient 1,7-dioxaspiro-(5,5) undecane at 97.6 percent. This new product was assigned EPA File Symbol 7005 1-TT. The receipt of this application was not published in the **Federal Register**.

The application for Certis Technical Olive Fly Pheromone (EPA Registration Number 70051-77), was approved on September 16, 2003, for use in the manufacturing of end-use agricultural products for control of olive fly.
