

Committee will host a working group of interested members of the public to resolve the issues of resource damage and conflicts with other users.

While hikers, horseback riders, mountain bicyclists and other users can schedule their use around published hunting seasons for safety reasons; they are not able to avoid random target shooting. Local conditions including heavy timber and rough terrain reduce visibility and increase the hazard to other users from target shooters. As a result recent incidents involving random target shooting have resulted in endangerment and injury to other users. In addition, resource damage is occurring from the accumulation of debris from target materials. To reduce the incidence of future conflicts, three areas of public land known as the Acton Area, 21-Mile Area, and Shepherd Ah-Nei, located north of Billings, Montana are being closed to target shooting with firearms. These areas will remain open to hunting by licensed hunters during seasons administered by the Montana Department of Fish, Wildlife and Parks.

This Emergency Closure does not apply to other lands, specifically the "17-Mile" area located west of Highway 87, north of Billings, Montana, on the Crooked Creek Road.

SUPPLEMENTARY INFORMATION: Under the authority of 43 CFR 9268.3 (d)(1)(i) and 43 CFR 8364.1(a) the Bureau of Land Management will enforce the following Emergency Closure on public lands within the closed area.
