*B. How Should I Submit CBI to the Agency?*

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. Commenters wishing to submit proprietary information for consideration must clearly distinguish such information from other comments and clearly label it as CBI. Send submissions containing such proprietary information directly to the following address only, and not to the public docket, to ensure that proprietary information is not inadvertently placed in the docket: Attention: OEI Document Control Officer, Mail Code: 2822T, U.S. EPA, 1200 Pennsylvania Ave., NW., Washington, DC 20460. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). The EPA will disclose information claimed as CBI only to the extent allowed by the procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person identified in

the **FOR FURTHER INFORMATION CONTACT** section.

**BILLING CODE 6560-50-P**

**ENVIRONMENTAL PROTECTION AGENCY**

**[FRL-7603-6]**

**Intent To Grant Exclusive License**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of intent to grant an exclusive license.

**SUMMARY:** Pursuant to 35 U.S.C. 207 and 37 CFR part 404, EPA hereby gives notice of its intent to grant an exclusive, royalty-bearing, revocable license to practice the invention described and claimed in the patent application listed below, all U.S. patents issuing therefrom, and all reexamined and reissued patents granted in the United States in connection with such patent application to Analytical Engineering, Incorporated of Columbus, Indiana. The patent application is:

U.S. Patent Application No. 10/306,044, entitled "Exhaust Aftertreatment System and Method for an Internal Combustion Engine," filed November 27, 2002 and claiming priority from the first filed provisional application, filed November 29, 2001.

Normally, 37 CFR 404.7(a)(1) requires an agency to issue both a notice of availability of an invention for exclusive licensing, as well as a notice of intent to grant the exclusive license. However, EPA has authority under the same 37 CFR 404.7(a)(1) to proceed without a notice of availability when expeditious transfer of rights will best serve the interest of the Federal government and the public. Under that authority, EPA has decided not to issue a notice of availability of this invention for licensing. Analytical Engineering, Incorporated is co-owner by assignment from its employee inventors of an undivided interest in the invention. It is unlikely that any other party would be willing to take a license from EPA on a patent application or patent encumbered by co-ownership. Accordingly, EPA is relying on its authority under 37 CFR 404.7(a)(1) to proceed without such notice of availability.

The proposed exclusive license will contain appropriate terms, limitations

and conditions in accordance with the limitations and conditions of 35 U.S.C. 209 and 37 CFR 404.5 and 404.7 of the U.S. Government patent licensing regulations.

EPA will negotiate the final terms and conditions and execute the exclusive license, unless within 30 days from the date of this Notice, EPA receives, at the address below, written objections to the grant, together with supporting documentation. The documentation from objecting parties having an interest in practicing the above patent application should include an application for an exclusive or nonexclusive license with the information set forth in 37 CFR 404.8. The EPA Patent Counsel and other EPA officials will review all written responses and then make recommendations on a final decision to the Director of the National Vehicle Fuel Emissions Laboratory, who has been delegated the authority to issue patent licenses under EPA Delegation 1-55.

**DATES:** Comments to this notice must be received by EPA at the address listed below by January 29, 2004.
