Title: Accounting for Judgments and Other Costs Associated with Litigation, CC Docket No. 93-240.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 1.

Estimated Time Per Response: 36 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Total Annual Burden: 36 hours.

Annual Reporting and Recordkeeping Cost Burden: N/A.

Needs and Uses: In CC Docket No. 93-240, the Commission considered the issue of the accounting rules and ratemaking policies that should apply to litigation costs incurred by carriers subject to Part 32 of its rules and regulations. The Commission concluded that there should be special rules to govern the accounting treatment of federal antitrust judgments and settlements, in excess of the avoided costs of litigation, but not for litigation expenses. The Commission further concluded that these special rules should not apply to costs arising in other kinds of litigation. A carrier must make a showing to receive recognition of its avoided costs of litigation. This provision safeguards consumers against rates that are unreasonably high and guarantees carriers that they will not be required to charge rates that are so low as to be confiscatory. Carriers under the Commission's jurisdiction must be allowed to recover the reasonable costs of providing service to ratepayers, including reasonable and prudent expenses and a fair return on investment. This fundamental requirement is unchanged by the Telecommunications Act of 1996.

Title: Community Broadband Deployment Database Reporting Form.

Form No.: FCC Form 460.

Type of Review: Extension of a currently approved collection.

Respondents: Not-for-profit institutions, federal government, state, local, or tribal government.

Number of Respondents: 150.
Estimated Time Per Response: .25 hours.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 37 hours.

Annual Reporting and Recordkeeping Cost Burden: N/A.

Needs and Uses: Pursuant to Section 410(b) of the Communications Act of 1934, as amended, the FCC convened a Federal-State Joint Conference on Advanced Telecommunications Services to provide a forum for cooperative dialogue and information exchange between and among state and federal jurisdictions regarding the deployment of advanced telecommunications services. As part of this ongoing effort, a searchable on-line database of community broadband demand aggregation and deployment efforts has been established. The information will be used by the Commission to prepare reports that help inform consumers and policy makers at the state and federal levels of the status of deployment of broadband services. We will use this information to better inform our understanding of broadband deployment in conjunction with our congressionally required Section 706 reports. Absent this information, the Commission would lack an essential tool for assisting it in determining the effectiveness of its policies and fulfilling its statutory responsibilities in accordance with the Communications Act of 1934, as amended.
