Description: 30 CFR, 70.201(c), 71.201(c), and 90.201(c), authorizes the District Manager to require the mine operator to submit the date on which sampling will begin. Only a certified person is allowed to conduct the respirable dust sampling required by these parts.

Sections 70.202(b), 71.202(b), and 90.202(b), requires that the person must pass the MSHA examination on sampling of respirable coal mine dust.

Sections 70.220(a), 71.220(a), requires the operator to report status changes to MSHA in writing within 3 working days after the status change has occurred.

Sections 70.209, 71.209, and 90.209, requires persons who are certified by MSHA to take respirable dust samples to complete the dust data card that accompanies each sample being submitted for analysis.

Sections 71.300 and 90.300 require a coal mine operator to submit to MSHA for approval a written respirable dust control plan with 15 calendar days after the termination data of a citation for violation of the applicable dust standard.

Section 71.301(d) requires the respirable dust control plan to be posted on the mine bulletin board however, 90.301(d) prohibits posting of the dust control plan for part-90 miners and, instead, requires a copy be provided to the affected part-90 miner.

Power One, Boston, MA; Notice of Termination of Certification

This notice terminates that Certification Regarding Eligibility to Apply For Worker Adjustment Assistance issued by the Department on February 19, 2003, for all workers of Power One located in Boston, Massachusetts. The notice was published in the **Federal Register** on March 10, 2003 (68 FR 11410).

The Department, at the request of the State agency, reviewed the certification for workers for Power One in Boston, Massachusetts. Findings show that workers of the subject firm produced DC/DC power supplies.

The certification review revealed that workers of Power One are covered by an existing certification, TA–W–39,768, issued on October 31, 2001. While that certification noted that the Power One workers are located in Allston, Massachusetts, the Department has learned that Allston is used synonymously with Boston.

Since the workers of Power One, located in Boston, Massachusetts, also known as Allston, Massachusetts, are covered by an existing certification, the continuation of this certification would serve no purpose and the certification has been terminated.

Signed in Washington, DC this 13th day of March, 2003.

Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the **Employment and Training** Administration is soliciting comments concerning the proposed extension of the ETA 191, Statement of Expenditures and Financial Adjustments of Federal Funds for Unemployment Compensation for Federal Employees and Ex-Servicemembers. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before July 1, 2003. The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
