Bureau of Land Management

[(CA-670-1430 ER) CACA-44656]

Notice of Intent To Prepare an Amendment to the California Desert Conservation Area Plan for a 2.8 Mile Right-of-Way Proposed by Imperial Irrigation District for a Double Circuit 161 kV Overhead Transmission Line

AGENCY: Bureau of Land Management; El Centro Field Office, Interior.

ACTION: Notice of Intent (NOI) to prepare an Amendment to the California Desert Conservation Area (CDCA) Plan for a 2.8 mile Right-of-Way Proposed by Imperial Irrigation District (IID) for a Double Circuit 161 kV Overhead Transmission Line.

SUMMARY: This notice announces the Department of Interior, Bureau of Land Management (BLM)'s intent to prepare an amendment to the CDCA to consider issuance of a right-of-way proposed by Imperial Irrigation District (IID) for a double circuit 161 kV overhead transmission line. The purpose of the proposed transmission line is to deliver power generated by a proposed geothermal power plant to an existing IID electrical transmission line (L-line). The proposed L-Line Interconnection is a new 16-mile line of which approximately 2.8 miles will cross Federal lands in sections 8, 9 and 17, Township 13 South, Range 12 East, San Bernardino Meridian, Imperial County, California. The CDCA Plan requires new electrical transmission towers and cables of 161 Kv or above to be placed within designated corridors as identified in the Plan's Energy Production and Utility Corridor Element. An amendment to the CDCA Plan is necessary because the proposed right-of-way is outside any utility corridor designated by the CDCA Plan. The proposed plan amendment would allow an exception to the Energy Production and Utility Corridors element of the CDCA Plan, thereby allowing the issuance of a right-of-way grant to IID for the construction, operation, maintenance, and termination of a double circuit 161 kV overhead transmission line.

DATES: This notice initiates the public scoping process for the proposed plan amendment. Written comments are requested on this notice concerning the scope of analysis of the Environmental Assessment and Proposed Plan Amendment. Comments must be received within 30 days of the publication date of this notice in the **Federal Register**.
