DEPARTMENT OF THE INTERIOR

Minerals Management Service

Environmental Documents Prepared for Proposed Oil and Gas Operations on the Gulf of Mexico Outer Continental Shelf (OCS)

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of the availability of environmental documents prepared for OCS mineral proposals on the Gulf of Mexico OCS.

SUMMARY: Minerals Management Service (MMS), in accordance with Federal Regulations that implement the National Environmental Policy Act (NEPA), announces the availability of NEPA-related Site-Specific Environmental Assessments (SEA) and Findings of No Significant Impact (FONSI), prepared by MMS for the following oil and gas activities proposed on the Gulf of Mexico OCS.

FOR FURTHER INFORMATION CONTACT: Public Information Unit, Information Services Section at the number below. Minerals Management Service, Gulf of

Mexico OCS Region, Attention: Public Information Office (MS 5034), 1201 Elmwood Park Boulevard, Room 114, New Orleans, Louisiana 70123-2394, or by calling 1-800-200-GULF.

SUPPLEMENTARY INFORMATION: MMS prepares SEAs and FONSI for proposals that relate to exploration for and the development/production of oil and gas resources on the Gulf of Mexico OCS. These SEAs examine the potential environmental effects of activities described in the proposals and present MMS conclusions regarding the significance of those effects. Environmental Assessments are used as a basis for determining whether or not approval of the proposals constitutes major Federal actions that significantly affect the quality of the human environment in the sense of NEPA Section 102(2)(C). A FONSI is prepared in those instances where MMS finds that approval will not result in significant effects on the quality of the human environment. The FONSI briefly presents the basis for that finding and includes a summary or copy of the SEA.

This notice constitutes the public notice of availability of environmental documents required under the NEPA Regulations.

This listing includes all proposals for which the Gulf of Mexico OCS Region prepared a FONSI in the period subsequent to publication of the preceding notice.

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation and Liability Act

Notice is hereby given that on September 19, 2003, a proposed Consent Decree in *United States of America, The State of New Mexico, and The New Mexico Office of Natural Resources Trustee v. The Burlington Northern and Santa Fe Railway Company*, Civil Action No. 03-1105 MV KBM, was lodged with the United States District Court for the District of New Mexico.

In this action the United States, on behalf of the United States Department of the Interior ("DOI"), the United States Fish and Wildlife Service, and the Attorney General of the State of New Mexico, on its own behalf and on behalf of The State of New Mexico and The New Mexico Office of Natural Resources Trustee ("NMONRT") sought damages from The Burlington Northern and Santa Fe Railway Company for injury to, destruction and loss of natural resources, under Section 107(a) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S.C. 9607(a), resulting from the release of hazardous substances from the AT & SF (Clovis) New Mexico Superfund Site, located in Clovis, Curry County, New Mexico. The Complaint alleges that hazardous substances, including polycyclic aromatic hydrocarbons, phenol compounds and metals, were released from a railway switching yard owned and operated by the Defendant and its predecessor, to a former playa lake known as Santa Fe Lake, resulting in the loss of habitat for fish and wildlife, including migratory birds and aquatic dependent biota. The Consent Decree provides for BNSF to pay a total of \$489,000.00 to resolve the claims alleged in the Complaint. Of this amount, \$459,000 will be placed in a Court Registry trust account for use by DOI and NMONRT in planing and implementing a habitat acquisition and enhancement project, \$20,500 and \$9,500 shall be paid to DOI and NMONRT respectively, to reimburse DOI and NMONRT for costs incurred to assess the alleged injury to, destruction and loss of natural resources.
