

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption ADDRESSES.

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive to read as follows:

2003-08-04 Eurocopter France:

Amendment 39-13115. Docket No. 2001-SW-52-AD.

Applicability: Model EC120B helicopters, serial numbers 1001 through 1029 inclusive, certificated in any category.

Note 1: This AD applies to each helicopter identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For helicopters that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (e) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required as indicated, unless accomplished previously.

To prevent separation of the cyclic pitch stick yokes from the cyclic pitch flight control torque tube (torque tube), loss of cyclic control, and subsequent loss of control of the helicopter, accomplish the following:

(a) Within 50 hours time-in-service (TIS), determine whether each attachment of the bolted assembly of the torque tube (attachment) has a single or double-locking device in accordance with the Accomplishment Instructions, paragraph 2.B.1., of Eurocopter France Alert Service Bulletin No. 67A003, dated August 2, 2001 (ASB).

(1) If the attachment has a double-locking device (a castellated self-locking nut with a cotter pin), no further action is required by this AD.

(2) If the attachment has a single-locking device (a castellated self-locking nut without a cotter pin or a self-locking nut only), in accordance with the Accomplishment Instructions, paragraph 2.B.1., of the ASB, before further flight:

(i) Torque each nut to 0.4 to 0.5 mdaN (36 to 44 inch-lbs), and

(ii) Apply a slippage mark on the nut and torque tube.

(b) At intervals not to exceed 50 hours TIS, inspect the attachment for movement of the locking device indicated by a misalignment of the slippage mark.

(1) If no movement has occurred, record the inspection.

(2) If movement has occurred, replace, retorque, and reapply the slippage mark to the nut in accordance with the Accomplishment Instructions, paragraph 2.B.2., of the ASB.

(c) Within 250 hours TIS or 12 months, whichever occurs first, modify the torque tube in accordance with the Accomplishment Instructions, paragraph 2.B.3., of the ASB.

(d) Modifying the torque tube in accordance with paragraph (c) of this AD is terminating action for the requirements of this AD.

(e) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Regulations Group, Rotorcraft Directorate, FAA. Operators shall submit their requests through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Regulations Group.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Regulations Group.

(f) Special flight permits may be issued in accordance with 14 CFR 21.197 and 21.199 to operate the helicopter to a location where the requirements of this AD can be accomplished.

(g) The inspection of the attachment of the bolted assembly of the torque tube and modification of the torque tube shall be done in accordance with the Accomplishment Instructions, paragraph 2.B.1., 2.B.2., and 2.B.3., of Eurocopter Alert Service Bulletin No. 67A003, dated August 2, 2001. The Director of the Federal Register approved this incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

Copies may be obtained from American Eurocopter Corporation, 2701 Forum Drive, Grand Prairie, Texas 75053-4005, telephone (972) 641-3460, fax (972) 641-3527. Copies may be inspected at the FAA, Office of the Regional Counsel, Southwest Region, 2601

Meacham Blvd., Room 663, Fort Worth, Texas; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(h) This amendment becomes effective on May 22, 2003.

Note 3: The subject of this AD is addressed in Direction Generale De L'Aviation Civile, (France) AD 2001-373-008(A), dated August 22, 2001.

Issued in Fort Worth, Texas, on April 8, 2003.

Michele M. Owsley,

Acting Manager, Rotorcraft Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2003-14847; Airspace Docket No. 03-ACE-32]

Modification of Class E Airspace; Eureka, KS

AGENCY: Federal Aviation Administration, (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: The FAA has developed an Area Navigation (RNAV) Global Positioning System (GPS) Runway (RWY) 18, ORIGINAL Standard Instrument Approach Procedure (SIAP) to serve Eureka Municipal Airport, Eureka, KS. This modification of Class E airspace at Eureka, KS provides additional controlled airspace at and above 700 feet Above Ground Level (AGL) to contain the new SIAP.

The intended effect of this rule is to provide controlled Class E airspace for aircraft executing the SIAP and to segregate aircraft using instrument approach procedures in instrument conditions from aircraft operating in visual conditions.

DATES: This direct final rule is effective on 0901 UTC, July 10, 2003.

Comments for inclusion in the Rules Docket must be received on or before May 15, 2003.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, S.W., Washington, DC 20590-0001. You must identify the docket number FAA-2003-14847/ Airspace Docket No. 03-ACE-32, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the

public docket containing the proposal, any comments received, and any final disposition in person on the Dockets Office between 9 a.m. to 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

FOR FURTHER INFORMATION CONTACT:

Kathy Randolph, Air Traffic Division, Airspace Branch, ACE-520C, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329-2525.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR part 71 modifies the Class E airspace area extending upward from 700 feet above the surface at Eureka, KS. The FAA has developed an RNAV (GPS) RWY 18, ORIGINAL SIAP to serve Eureka Municipal Airport, Eureka, KS. Additional controlled airspace at and above 700 feet AGL is required to contain the new SIAP within controlled airspace, and thereby segregate aircraft operating under Instrument Flight Rules (IFR) in instrument conditions from those aircraft operating under visual flight rules. This amendment brings the legal description of the Eureka, KS Class E airspace area into compliance with FAA Order 7400.2E, Procedures for Handling Airspace Matters. The area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9K, dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA

does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2003-14847/Airspace Docket No. 03-ACE-32." The postcard will be date/time stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive order 13132.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ Accordingly, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration order 74009.9K, dated August 30, 2002, and effective September 16, 2002, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth

* * * * *

ACE KS E5 Eureka, KS

Eureka Municipal Airport, KS
(Lat. 37°51'06" N., long. 96°17'30" W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of Eureka Municipal Airport.
