SUPPLEMENTARY INFORMATION: As part of its redesign of the materials license program, NMSS is consolidating and updating numerous decommissioning guidance documents into a three-volume NUREG report. The three volumes are as follows: (1) Decommissioning Process for Materials Licensees; (2) Characterization, Survey, and Determination of Radiological Criteria; and (3) Financial Assurance, Recordkeeping, and Timeliness. Volume 3 of this NUREG series, entitled "Consolidated NMSS Decommissioning Guidance: Financial Assurance, Recordkeeping, and Timeliness," is the third of these three volumes and, when finalized, is intended for use by applicants, licensees, NRC license reviewers, other NRC personnel, and Agreement State staff.

The approaches to compliance with the financial assurance, recordkeeping, and timeliness requirements described in Volume 3 of NUREG-1757 will help to identify the information (subject matter and level of detail) needed for a wide range of radioactive materials users licensed by NRC. Volume 3 of the NUREG provides guidance for compliance with the requirements for (1) financial assurance for decommissioning, (2) recordkeeping for decommissioning, and (3) timeliness in decommissioning of materials facilities. Specifically, Volume 3 provides guidance relevant to demonstrating compliance with 10 CFR 30.35, 30.36, 40.36, 40.42, 70.25, 70.38, and 72.54. Volume 3 updates and builds upon the risk-informed approach used in the NMSS Decommissioning Standard

Review Plan (NUREG-1727, September 2000), and, in whole or in part, incorporates the parts of NUREG-1727 that provide guidance for demonstrating compliance with the financial assurance, recordkeeping, and timeliness requirements. This draft Volume 3 describes and makes available to the public (1) issues related to demonstrating compliance with financial assurance and decommissioning recordkeeping and timeliness requirements that licensees may wish to consider, (2) guidance on addressing these issues, and (3) methods and approaches that are acceptable to NRC staff.

When published as a final report, the guidance in draft NUREG-1757, Volume 3, should be used by fuel cycle, fuel storage, and materials licensees in preparing financial assurance plans and instruments, recordkeeping plans, decommissioning license amendment requests, decommissioning plans, and related compliance documents. Other NRC licensees may find this information useful, but they are not the subject of this NUREG. When finalized, NRC staff will use the policies and procedures discussed in Volume 3 to evaluate a licensee's financial assurance for decommissioning, recordkeeping for decommissioning, and timeliness in decommissioning. This NUREG will not substitute for regulations, and compliance with it will not be required. Methods and solutions different from those in this NUREG will be acceptable, if they provide a basis for concluding that the decommissioning actions are in compliance with the Commission's regulations.

Further information on the overall decommissioning guidance consolidation and updating project can be found in the **Federal Register** notice publishing the plan for the project (66 *FR* 21793).

Commentors are encouraged to submit their written comments on NUREG-1757, Volume 3, to the addresses listed above. In particular, the NRC staff requests input on the application of decommissioning timeliness requirements to onsite disposals (burial grounds), discussed in Section 2.4 of the draft Volume 3. To ensure efficient and complete comment resolution, commentors are requested to reference the section, page, and line numbers of the document to which the comment applies, if possible.

Dated at Rockville, MD, this 2nd day of January, 2003.

For the Nuclear Regulatory Commission.

Acting Chief, Decommissioning Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.

Dominion Resources, Inc. (70-9477)

Dominion Resources, Inc., ("DRI"), 120 Tredegar Street, Richmond, VA 23219, a registered holding company under the Act, has filed a post-effective amendment to its application-declaration in this file under section 10 of the Act.

DRI requests authorization to continue its process of divesting the holdings of its subsidiary Dominion Capital, Inc., ("DCI") beyond the third anniversary of the effective date of the

merger (January 28, 2000) authorized in the Commission's order of December 15, 1999 (HCAR No. 27113) ("Merger Order"), authorizing DRI's proposed acquisition of Consolidated Natural Gas Company ("Merger").

At the time of the Merger Order DCI was, through its subsidiaries, a diversified financial services company with its core operations in commercial finance, corporate finance, and consumer finance. Under the terms of the Merger Order, DCI and each of its subsidiaries were to be divested within three years of the Merger.¹ DRI states that in accordance with the Merger Order DRI has diligently undertaken to divest the businesses and assets of DCI. DRI states that it has succeeded in reducing the assets of DCI by a factor of two thirds, from a balance as of December 31, 1999, of \$3,576,460,000 to a balance as of September 30, 2002, of \$1,175,164,000. DRI states that its efforts to divest itself of DCI have been frustrated by the economic recession, low interest rates, and the diverse assets held by DCI. DRI therefore requests that the Commission issue an order authorizing an extension of the time to accomplish divestiture until January 28, 2006, and reserve jurisdiction over any further extension of time which may be required.

DRI states that it proposes to continue an expeditious and prudent program of divesting the assets and lines of business of DCI and to apply the resulting proceeds to reduce the debt portion of DRI's consolidated capitalization. DRI proposes to conduct an annual evaluation as of June 30th of each year of the feasibility of expediting the divestiture of DCI's remaining assets and lines of business in light of changing business and financial market conditions (including the relative feasibility of selling assets at that time or subsequently in order to recover fair value).

For the Commission by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

Applicants' Representations

1. The Sponsor is a broker-dealer registered under the Securities and Exchange Act of 1934. The Trust is registered under the Act and consists of several UITs registered or to be registered under the Securities Act of 1933 ("Trust Series"). Each Trust Series is created under the laws of the United States pursuant to a trust agreement that will contain information specific to that Trust Series and which will incorporate by reference a master trust indenture (the "Indenture") among the Sponsor, a bank (as defined in section 2(a)(5) of the Act), an evaluator and a supervisor. Applicants request that any order granted pursuant to the application extend to any future UIT sponsored by the Sponsor or an entity controlling, controlled by, or under common control with the Sponsor (together with the Trust, the "Trusts" and their series, "Trust Series") and any bank which acts as trustee (a "Trustee") for any Trust Series.

2. Several Trust Series have investment objectives that specify the investment of assets in non-United States securities. To date, the existing Trust Series which invest in foreign securities have been able to deposit such securities in the custody of foreign banks and securities depositories pursuant to the Prior Order. Applicants state that the Commission granted the Prior Order before the most recent amendments to rule 17f-5 under the Act and the adoption of rule 17f-7 under the Act² and seek to amend the Prior Order to reflect these changes. Applicants therefore request an order to supercede the Prior Order to permit the Trust Series to deposit investments, including foreign currencies, for which the primary market is outside the United States and such cash and cash equivalents as reasonably necessary to effect the Trust Series' transactions in those investments (collectively, "Foreign Investments"), with any foreign bank or securities depository subject to the requirements described below.

Applicants' Legal Analysis

1. Under sections 2(a)(5) and 26(a)(1) of the Act, the trustee of a UIT must be a bank that is subject to regulation by the U.S. government or one of the states. Section 26(a)(2)(D) also requires that the
