For FY 2004, applicants must present activities that focus on priorities listed in the Priorities section of this application notice.

Priorities:

For FY 2004, we have selected two priorities for the SBIR program. An application must be limited to one priority listed in this notice. Duplicate applications will be returned without review. When an application is relevant to more than one priority, the applicant must decide which priority is most relevant and submit it under that priority only. However, there is no limitation on the number of different applications that an applicant may submit under this competition, even to the same priority. A firm may submit separate applications on different priorities, or different applications on the same priority, but each application should respond to only one priority.

Priorities

We invite applications that meet one of the following priorities. Awards for each priority will be made for amounts up to \$100,000.

Priority 1—Services

This priority supports research to develop effective business consulting services that can better serve the education community at both the local and State levels. The Institute's SBIR program invites proposals that seek to develop a plan or a business model for the provision of such services. More details about this priority can be found in the application package.

Priority 2—Products

This priority supports the development of empirically derived educational products in the areas of reading, mathematics, science or character/pro-social development at the pre-kindergarten through postsecondary levels, including products that support teachers and administrators as well as products that are used directly by students.
