

Authority

Scientific research permits are issued in accordance with Section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et. seq.*) and Federal regulations governing listed fish and wildlife permits (50CFR Parts 222–226). NMFS issues permits and modifications based on findings that such permits and modifications: (1) Are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits and modifications.

Anyone requesting a hearing on the permit modification application listed in this notice should set out the specific reasons why a hearing would be appropriate (*see ADDRESSES*). The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA.

Species Covered in This Notice

The following listed species and evolutionarily significant units (ESUs) are covered in this notice:

Chinook salmon (*O. tshawytscha*): threatened naturally produced and artificially propagated Puget Sound (PS).

Permit Applications Received*Permit 1335–Modification 3*

The U.S. Forest Service in Corvallis, Oregon requests a modification to permit 1335 for annual take of juvenile threatened artificially propagated PS chinook salmon associated with its current study in the Puget Sound basin, Washington State. The purposes of the research are to assess watershed conditions and factors limiting salmonid health and production, and evaluate watershed health under the Northwest Forest Plan. The activities will benefit listed fish by generating information to improve forest management.

Permit 1369–Modification 1

The King County Department of Natural Resources and Parks in Seattle, Washington requests a modification to permit 1369 for increased annual take of juvenile threatened naturally produced PS chinook salmon associated with an expansion of work sites under its current study. The purpose of the study is to investigate scientific issues pertaining to how salmonid habitat in King County can be protected while concurrently providing local farmers with the technical and regulatory means to drain their farmlands to continue

agricultural production. This program will develop a comprehensive information base about the habitat quality; the extent of the current and potential salmonid use of habitat where most commercial agriculture occurs; and techniques to avoid, minimize, or mitigate agriculture-related impacts on listed salmonids and their habitat.

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the applications and modification requests, associated documents, and any comments submitted to determine whether the applications and modification requests meet the requirements of section 10(a) of the ESA and Federal regulations. NOAA will not make any final determinations until after the end of the 30 day comment period. NMFS will publish notice of its final action in the **Federal Register**.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Request for Public Comment on Commercial Availability Petition under the North American Free Trade Agreement (NAFTA)

August 14, 2003.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Request for Public Comments concerning a petition for modification of the NAFTA rules of origin for products made from certain yarns of cashmere and of camel hair.

FOR FURTHER INFORMATION CONTACT: Martin Walsh, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3400.

Summary

On July 10, 2003, the Chairman of CITA received a petition from Amicale Industries, Inc. alleging that certain yarns of carded cashmere or of carded camel hair, classified in heading 5108.10.60 of the Harmonized Tariff Schedule of the United States (HTSUS), cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting that the President proclaim a modification of the NAFTA rules of origin. Amicale requests that the NAFTA rules of origin for woven fabrics of subheadings 5111.11 and 5111.19, and for apparel of subheadings 6201.11, 6202.11, 6203.11, 6204.11 and 6204.31 be modified to all for use of non-North American yarn of subheading 5108.10.60. Such a proclamation may be made only after reaching agreement with the other NAFTA countries on the modification. CITA hereby solicits public comments on this petition, in particular with regard to whether cashmere and camel hair yarn can be supplied by the domestic industry in commercial quantities in a timely manner. To be ensured full consideration, comments must be submitted by September 19, 2003 to the Chairman, Committee for

the Implementation of Textile Agreements, Room 3001, United States Department of Commerce, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Section 202(q) of the North American Free Trade Agreement Implementation Act (19 USC 3332(q)); Executive Order 11651 of March 3, 1972, as amended.

Background

Under the North American Free Trade Agreement (NAFTA), NAFTA countries are required to eliminate customs duties on textile and apparel goods that qualify as originating goods under the NAFTA rules of origin, which are set out in Annex 401 to the NAFTA. The NAFTA provides that the rules of origin for textile and apparel products may be amended through a subsequent agreement by the NAFTA countries. In consultations regarding such a change, the NAFTA countries are to consider issues of availability of supply of fibers, yarns, or fabrics in the free trade area and whether domestic producers are capable of supplying commercial quantities of the good in a timely manner.
