The Proposal

The FAA is considering an amendment to 14 CFR part 71 to revoke Class D airspace at Chicago, IL, for Merrill C Meigs Airport. Controlled airspace extending upward from the surface of the earth is no longer needed to contain aircraft executing instrument approach procedures. Class D airspace areas extending upward from the surface of the earth are published in paragraph 5000 of FAA Order 7400.9K dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR 71.1. The Class D designations listed in this document would be removed subsequently in the Order.

The FAA has determined that this proposed regulation only involves an establishment body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this, proposed regulation—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a

Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9K, Airspace Designations and Reporting Points, dated August 30, 2002, and effective September 16, 2002, is amended as follows:

Paragraph 5000 Class D airspace.

AGL IL D Chicago, IL [Revoked]

Chicago, Merrill C Meigs Airport, IL (Lat. 41°51'32" N., long. 87°36'28" W.)

That airspace extending upward from the surface to and including 3,100 feet MSL and within a 3.8-mile radius of the Merrill C Meigs Airport, excluding that airspace within the Chicago, IL, Class B airspace area and the Chicago Midway Airport, IL, Class C airspace area. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be published in the Airport/ Facility Directory.

Background and Purpose

Hostile entities continue to operate with the intent to harm U.S. National Security. The President has continued the national emergencies he declared following the September 11, 2001 terrorist attacks (67 FR 58317, Sept. 13, 2002) (continuing national emergency with respect to terrorist attacks), (67 FR 59447, Sept. 20, 2002) (continuing national emergency with respect to persons who commit, threaten to commit or support terrorism). The President also has found pursuant to law, including the Act of June 15, 1917, as amended August 9, 1950, by the Magnuson Act (50 U.S.C. 191 *et seq.*), that the security of the United States is and continues to be endangered following the attacks (E.O. 13,273, 67 FR 56215, Sept. 3, 2002) (security endangered by disturbances in international relations of U.S. and such disturbances continue to endanger such relations).

The ongoing hostilities in Afghanistan and Iraq have made it prudent for U.S. ports and waterways to be on a higher state of alert because the al Qaeda organization and other similar organizations have declared an ongoing intention to conduct armed attacks on U.S. interests worldwide. On May 2, 2003, the Captain of the Port Portland issued a temporary final rule (TFR) (68 FR 23390, CGD13–03–012, 33 CFR 165.T13–006) establishing a large passenger vessel security and safety zone, which expires on September 12, 2003. The Coast Guard, through this proposed rule, intends to continue to assist large passenger vessels by establishing a permanent security and safety zone that when enforced by the Captain of the Port would exclude persons and vessels from the immediate vicinity of all large passenger vessels. Entry into this zone will be prohibited unless authorized by the Captain of the
