#### North Pacific Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** The North Pacific Fishery Management Council (Council) IFQ Implementation and Cost Recovery Committee will hold a public meeting.

**DATES:** The meeting will be held on October 5, 2003, 9 a.m. to 5 p.m.

**ADDRESSES:** The meeting will be held at the Sheraton Hotel, 401 East 6th Avenue, Yukon Room, Anchorage, AK.  
*Council address:* North Pacific Fishery Management Council, 605 W. 4th Ave., Suite 306, Anchorage, AK 99501-2252.

**FOR FURTHER INFORMATION CONTACT:** Jane DiCosimo, Council staff, telephone: (907) 271-2809.

**SUPPLEMENTARY INFORMATION:** The meeting will be held to (1) Review commercial IFQ proposals from 1999 and recent proposals; (2) discuss sale of subsistence halibut.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal

action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

#### Endangered Species; File No. 1420, File No. 1444, and File No. 1447

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Receipt of applications.

**SUMMARY:** Notice is hereby given of the following actions regarding permits for takes of shortnose sturgeon (*Acipenser brevirostrum*) for scientific research:

NMFS has received permit applications from Michael F. Mangold, U.S. Fish and Wildlife Service, Maryland Fisheries Resource Office, 177 Admiral Cochrane Drive, Annapolis, Maryland 21401 (File No. 1444); and the South Carolina Department of Natural Resources (Dr. Mark Collins, Principal Investigator), 217 Fort Johnson Road, Charleston, South Carolina 29412 (File No. 1447). NMFS has received a request to modify a permit application from Douglas Peterson, Ph.D, Warnell School of Forest Resources (Fisheries Division), University of Georgia, Athens, Georgia 30602 (File No. 1420).

**DATES:** Written or telefaxed comments must be received on or before October 9, 2003.

**ADDRESSES:** The application and related documents are available for review upon written request or by appointment in the following office(s):

All documents: Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376.

For File No. 1444: Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298; phone (978)281-9200; fax (978)281-9371; and

For File No. 1420 and File No. 1447: Southeast Region, NMFS, 9721 Executive Center Drive North, St. Petersburg, FL 33702-2432; phone (727)570-5301; fax (727)570-5320.

**FOR FURTHER INFORMATION CONTACT:** Jennifer Jefferies or Sarah Wilkin, (301)713-2289.

**SUPPLEMENTARY INFORMATION:** The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

#### Applications for permits

Mr. Mangold (File No. 1444) seeks authorization to sample and track shortnose sturgeon for two projects: one project would be conducted in the Potomac River and the second would be conducted in the Delaware River, the Chesapeake Bay and its tributaries. For the Potomac River project, up to 50 fish would be taken annually via gill, pound, fyke and trammel netting, measured, weighed, PIT tagged, tissue samples will be taken, and the fish subsequently released. A subset of 20 fish annually would also be T-bar and CART tagged and have a temperature/depth datalogger attached. Additionally, Mr. Mangold would also use D-traps to collect up to 2500 shortnose sturgeon eggs annually. This research would be conducted from 2004-2006. For the second project, Mr. Mangold proposes to capture via gill and trammel net, measure, weigh, tag with PIT and T-bar tags, take a tissue and blood sample of, biopsy gonads of and release 50 fish annually. A subset of 10 fish annually would also have sonic transmitters attached before release and subsequently tracked. This project would be conducted from 2004-2009. A total of 5 incidental mortalities between both projects is requested.

The South Carolina Department of Natural Resources (File No. 1447) seeks authorization to sample and track shortnose sturgeon, in South Carolina coastal waters. Annually, up to 100 fish would be taken via gill nets and trawls, measured, weighed, PIT tagged, and the fish subsequently released. A subset of
