

(iv) The driver may not return to driving subject to the normal limits under § 395.3 without taking at least 10 consecutive hours off duty, at least 10 consecutive hours in the sleeper berth, or a combination of at least 10 consecutive hours off duty and sleeper berth time.

(2) *Specially trained driver of a specially constructed oil well servicing commercial motor vehicle at a natural gas or oil well location.* A specially trained driver who operates a commercial motor vehicle specially constructed to service natural gas or oil wells that is equipped with a sleeper berth, as defined in §§ 395.2 and 393.76 of this subchapter, or who is off duty at a natural gas or oil well location, may accumulate the equivalent of 10 consecutive hours off duty by taking a combination of at least 10 consecutive hours of off-duty time, sleeper-berth time, or time in other sleeping accommodations at a natural gas or oil well location; or by taking two periods of rest in a sleeper berth, or other sleeping accommodation at a natural gas or oil well location, providing:

(i) Neither rest period is shorter than two hours;

(ii) The driving time in the period immediately before and after each rest period, when added together, does not exceed 11 hours;

(iii) The driver does not drive after the 14th hour after coming on duty following 10 hours off duty, where the 14th hour is calculated:

(A) by excluding any sleeper berth or other sleeping accommodation period of at least 2 hours which, when added to a subsequent sleeper berth or other sleeping accommodation period, totals at least 10 hours, and

(B) by including all on-duty time, all off-duty time not spent in the sleeper berth or other sleeping accommodations, all such periods of less than 2 hours, and any period not described in paragraph (g)(2)(iii)(A); and

(iv) The driver may not return to driving subject to the normal limits under § 395.3 without taking at least 10 consecutive hours off duty, at least 10 consecutive hours in the sleeper berth or other sleeping accommodations, or a combination of at least 10 consecutive hours off duty, sleeper berth time, or time in other sleeping accommodations.

(3) *Passenger-carrying commercial motor vehicles.* A driver who is driving a passenger-carrying commercial motor vehicle that is equipped with a sleeper berth, as defined in §§ 395.2 and 393.76 of this subchapter, may accumulate the equivalent of 8 consecutive hours of off-duty time by taking a combination of at least 8 consecutive hours off-duty and

sleeper berth time; or by taking two periods of rest in the sleeper berth, providing:

* * * * *

(o) * * *

(3) The driver has not taken this exemption within the previous 6 consecutive days, except when the driver has begun a new 7- or 8-consecutive day period with the beginning of any off duty period of 34 or more consecutive hours as allowed by § 395.3(c).

Issued on: September 25, 2003.

Warren E. Hoemann,

Deputy Administrator.

BILLING CODE 4910-EX-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 635

I.D. 092403C

Atlantic Highly Migratory Species Fisheries; Bluefin Tuna Retention Limit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Atlantic bluefin tuna retention limit adjustment.

SUMMARY: This action adjusts the Atlantic bluefin tuna (BFT) General category daily retention limit to allow for maximum utilization of the proposed coastwide General category quota. NMFS increases the daily retention limit to three large medium or giant BFT. This action is being taken to provide increased fishing opportunities in all areas without risking overharvest of the General category quota.

DATES: Effective September 27, 2003, through October 31, 2003.

FOR FURTHER INFORMATION CONTACT: Brad McHale at 978-281-9260.

SUPPLEMENTARY INFORMATION: Regulations implemented under the authority of the Atlantic Tunas Convention Act (16 U.S.C. 971 *et seq.*) and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act; 16 U.S.C. 1801 *et seq.*) governing the harvest of BFT by persons and vessels subject to U.S. jurisdiction are found at 50 CFR part 635. Section 635.27 subdivides the U.S. BFT quota recommended by the International Commission for the Conservation of Atlantic Tunas (ICCAT)

among the various domestic fishing categories, and General category effort controls (including time-period subquotas and restricted fishing days (RFDs)) are specified annually under 50 CFR 635.23(a) and 635.27(a). The 2003 BFT Quota Specifications and General category effort controls were proposed on July 10, 2003 (68 FR 41103).

Adjustment of Daily Retention Limit

Under § 635.23 (a)(4), NMFS may increase or decrease the General category daily retention limit of large medium and giant BFT over a range from zero (on RFDs) to a maximum of three per vessel to allow for maximum utilization of the quota for BFT. Based on a review of dealer reports, daily landing trends, available quota, and the availability of BFT on the fishing grounds, NMFS has determined that an increase of the daily retention limit for the month of October is appropriate and necessary to maximize use of the proposed coastwide General Category quota. Based on this seasons landings rates in June through September, it is highly unlikely that the proposed September subquota will be filled in the remaining fishing days. At current catch rates and a daily retention limit of two BFT per vessel, it is also unlikely that the proposed October through December subquota, will be attained in the October through December time-period. An adjustment to the General category daily retention limit will allow full use of the General category quota proposed for the 2003 fishing year, while preventing overharvest and ensuring reasonable fishing opportunities in all areas. Therefore, NMFS adjusts the General category daily retention limit to three large medium or giant BFT per vessel, effective September 27 through October 31, 2003.

The intent of this adjustment is to allow for maximum utilization by General category participants of the remaining General category quota (specified under 50 CFR 635.27(a)), (which has been adjusted by the quota carryover from the June through August and September time-period subquotas), to help achieve optimum yield in the General category fishery, to collect a broad range of data for stock monitoring purposes, and to be consistent with the objectives of the HMS FMP.

Closures or subsequent adjustments to the daily retention limit, if any, will be published in the **Federal Register**. In addition, owners/operators may call the Atlantic Tunas Information Line at (888) 872-8862 or (978) 281-9305 for updates on quota monitoring and retention limit adjustments.

Classification

The Assistant Administrator for Fisheries, NOAA (AA), finds that it is impracticable and contrary to the public interest to provide prior notice of, and an opportunity for public comment on, this action. Catch rates for the 2003 BFT season have been extremely low and at the current rate of landings it is highly unlikely that the proposed quota will be harvested. Delay in increasing the retention limits would further exacerbate this problem. Large amounts of unharvested quota will have negative social and economic impacts to U.S. fishermen who depend upon catching the available quota within the time periods designated in the HMS FMP. Therefore, the AA finds good cause under 5 U.S.C. 553(b)(B) to waive prior notice and the opportunity for public comment. For all of the above reasons, and because this action relieves a restriction (i.e., allows the retention of more fish), there is also good cause under 5 U.S.C. 553(d) to waive the delay in effectiveness of this action. This action is being taken under 50 CFR 635.23(a)(4) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 971 *et seq.* and 1801 *et seq.*

Dated: September 24, 2003.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 679**

[Docket No. 021212306-2306-01; I.D. 092403B]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Vessels Catching Pacific Cod for Processing by the Inshore Component in the Western Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Western Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to

prevent exceeding the 2003 total allowable catch (TAC) of Pacific cod apportioned to vessels catching Pacific cod for processing by the inshore component of the Western Regulatory Area of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), September 25, 2003, through 2400 hrs, A.l.t., December 31, 2003.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2003 TAC of Pacific cod apportioned to vessels catching Pacific cod for processing by the inshore component in the Western Regulatory Area of the GOA is 13,905 metric tons (mt) as established by the final 2003 harvest specifications for groundfish of the GOA (68 FR 9924, March 3, 2003). In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2003 TAC of Pacific cod apportioned to vessels catching Pacific cod for processing by the inshore component of the Western Regulatory Area of the GOA will be reached.

Therefore, the Regional Administrator is establishing a directed fishing allowance of 13,500 mt, and is setting aside the remaining 405 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will soon be reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Western Regulatory Area of the GOA.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is contrary to the public interest. This

requirement is contrary to the public interest as it would delay the closure of the fishery, lead to exceeding the TAC of Pacific cod apportioned to vessels catching Pacific cod for processing by the inshore component in the Western Regulatory Area of the GOA, and therefore reduce the public's ability to use and enjoy the fishery resource.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 24, 2003.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the Exclusive Economic Zone off Alaska; Pacific Cod by Vessels Using Trawl Gear in Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing directed fishing for Pacific cod by vessels using trawl gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2003 halibut bycatch allowance specified for the trawl Pacific cod fishery category in the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), September 25, 2003, through 2400 hrs, A.l.t., December 31, 2003.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone
