Pursuant to 40 CFR 22.45(b)(2)(iii), the following is a list of facilities at which Gerda self-disclosed violations of CWA section 311: 225 Elm Street, P.O. Box 309, Perth Amboy, New Jersey 08862 and North Crossman Road, Sayreville, New Jersey 08871. Gerda also disclosed a violation of CWA sections 301 and 402 at the Sayreville, New Jersey.

In addition, Gerda self-disclosed violations of EPCRA section 312 at its facility located in the State of New Jersey.

EPA determined that Gerda met the criteria set out in the Audit Policy for a 100% waiver of the gravity component of the penalty. As a result, EPA proposes to waive the gravity based penalty (\$439,622) and proposes a settlement penalty amount of forty-three thousand, five hundred and sixty-five dollars (\$43,565). This is the amount of the economic benefit gained by Gerda, attributable to their delayed compliance with the CWA, RCRA, CAA and EPCRA regulations. Gerda has agreed to pay this amount. EPA and Gerda negotiated and signed an administrative consent agreement, following the Consolidated Rules of Practice, 40 CFR 22.13(b), on March 11, 2003 (*In Re: Gerda Ameristeel, Inc., d/b/a Gerda Ameristeel, Perth Amboy and Gerda Ameristeel, Sayreville*, Docket Nos. Under CAA section 113(d), the Administrator may issue an administrative order assessing a civil penalty against any person who has violated an applicable requirement of the CAA, including any rule, order, waiver, permit or plan. The deadline for submitting public comment on this proposed final order is June 30, 2003. All comments will be transferred to the Environmental Appeals Board ("EAB") of EPA for consideration. The powers and duties of the EAB are outlined in 40 CFR 22.4(a).

OMB Control Number: 3060-1038.

Type of Review: New collection.

Title: Digital Television Transition Information Questionnaires.

Form Number: N/A.

Respondents: Business or other for-profit entities.

Number of Respondents: 844.

Estimated Time per Response: 4 to 24 hours.

Frequency of Response: One-time reporting requirement.

Total Annual Burden: 4,823 hours.

Total Annual Cost: \$251,400.

Needs and Uses: In the Telecommunications Act of 1996, Congress directed that every broadcaster be given a second channel for digital operations. At the end of the transition, broadcasters' analog channels will be returned to the government. Congress set a target date of December 31, 2006 for the end of the transition, although that date can be extended if 85% of viewers in a particular market do not have access to the digital signals. In addition, at the end of the transition the broadcast spectrum will contract from channels 2-69 to channels 2-51. This 108 MHz of spectrum (channels 52-69) can then be used by advanced wireless services and public safety authorities. There are several key building blocks to a successful transition. First, content—consumers must perceive something significantly different than what they have in analog. Second, distribution—the content must be delivered to consumers in a simple and convenient way. Third, equipment—equipment must be capable, affordable and

consumer-friendly. And fourth, education—consumers must be educated about what digital television is, and what it can do for them. These information requests are designed to gather data in these key areas.
