BILLING CODE 4510-27-M

NATIONAL CREDIT UNION ADMINISTRATION

Notice of Change in Time of Meeting

It has been determined by the National Credit Union Administration Board that it will be necessary to change the time of the previously announced open Board meeting (**Federal Register**, Vol. 68, No. 120, page 37177, June 23, 2003) scheduled for Thursday, June 26, 2003 at 10 a.m. The meeting will now be held at 2 p.m. Earlier announcement of this change was not possible.

FOR FURTHER INFORMATION CONTACT:

Becky Baker, Secretary of the Board, Telephone: (703) 518-6304.

Becky Baker,

Secretary of the Board.

BILLING CODE 7535-01-M

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: Under the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501 *et seq.*), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed continuing information collection. This is the second notice for public comment; the first was published in the **Federal Register** at 68 FR 19582 and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Comments regarding these information collections are best assured of having their full effect if received by OMB by July 28, 2003.

ADDRESSES: Written comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of NSF, including whether the information will have practical utility; (b) the accuracy of NSF's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send e-mail to splimpto@nsf.gov. Copies of the submission may be obtained by calling (703) 292-7556.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, NSF Reports Clearance Office at (703) 292-7556 or send e-mail to splimpto@nsf.gov.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: Academic Research and Development Survey Expenditures at Universities and Colleges, FY 2003 through FY 2006.

OMB Control No.: 3145-0100.

Proposed Project: Separately budgeted current fund expenditures on research and development in the sciences and engineering performed by universities and colleges and federally funded research and development centers—A web survey, the Survey of Scientific and Engineering Expenditures at Universities and Colleges, originated in

fiscal year (FY) 1954 and has been conducted annually since FY 1972. The survey is the academic expenditure component of the NSF statistical program that seeks to provide a "central clearinghouse for the collection, interpretation, and analysis of data on the availability of, and the current and projected need for, scientific and technical resources in the United States, and to provide a source of information for policy formulation by other agencies of the Federal government, as mandated in the National Science Foundation Act of 1950.

Use of the Information: The proposed project will continue the current survey cycle for three to five years. The Academic R&D Survey will be a census of the full population of an expected 646 institutions (610 universities or colleges plus 36 federally funded research and development centers—FFRDCs) for academic years 2003 through FY 2006. These institutions account for over 95 percent of the Nation's academic R&D funds. The survey has provided continuity of statistics on R&D expenditures by source of funds and by science & engineering (S&E) field, with separate data requested on current fund expenditures for research equipment by S&E field. Further breakdowns are collected on passed through funds to subrecipients and received as a subrecipient. Additional measures on current fund expenditures for separately budgeted research and development by field of science and engineering are requested as being part of the core survey on select Federal Government agency sources. Data are published in NSF's annual publication series Academic Science and Engineering R&D Expenditures and are available electronically on the World Wide Web.

The survey is a fully automated web data collection effort and is handled primarily by the administrators at the Institutional Research Offices. To minimize burden, institutions are provided with an abundance of guidance and help menus on the web, in addition to printing and responding via paper copy if necessary. Each record is pre-loaded with the institutions 2 previous year's data and a complete program for editing and trend checking. Response to this voluntary survey in FY 2001 was 95.4 percent.

Burden estimates are as follows: ¹

¹ Average burden hours for institutions responding to burden item.

Total number of institutions	Doctorate-granting burden hours	Masters-granting burden hours	Bachelors degree burden hours	FFRDC's burden hours
FY 1999 480	20.8	13.0	7.5	9.4
FY 2000 700	21.0	12.0	10.5	9.2
FY 2001 625	30.2	11.9	9.0	12.1

Dated: June 20, 2003.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NATIONAL SCIENCE FOUNDATION

Sunshine Act; Meeting

AGENCY HOLDING MEETING: National Science Foundation. National Science Board.

DATE AND TIME: June 30, 2003: 10 a.m.—11 a.m. Open Session.

PLACE: The National Science Foundation, 4201 Wilson Boulevard—Room 130, Arlington, VA 22230, www.nsf.gov/nsb.

CONTACT FOR INFORMATION: Robert Webber, (703) 292-700.

STATUS: This meeting will be open to the public.

MATTERS TO BE CONSIDERED: Monday, June 30, 2003.

Open: NSB Subcommittee on Education and Human Resources Teleconference, Room 130.

- Overview of K-12 Working Group Objectives
- Strategies for Achieving Working Group Objectives
- Comments and Requests Related to the May 2003 Three-Groups Background Book
- Overview of Research Finding on Impact of Inquiry-Based Learning—NSF Staff
- Coordination with other Federal Agencies
- Schedule for K-12 Working Group Activities

Robert Webber

Policy Analyst, NSBO.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No.: 72-25]

Foster Wheeler Environmental Corporation's Proposed Idaho Spent Fuel Facility; Notice of Availability of Draft Environmental Impact Statement

ACTION: Notice of availability of draft environmental impact statement.

SUMMARY: Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) is issuing a Draft Environmental Impact Statement (DEIS) for the Foster Wheeler Environmental Corporation (FWENC) license application dated November 19, 2001, and docketed on June 27, 2002, (67 FR 43358) for the receipt, transfer, and storage of spent nuclear fuel (SNF) at its proposed Idaho Spent Fuel Facility to be located at the U.S. Department of Energy's (DOE's) Idaho National Engineering and Environmental Laboratory (INEEL) site in Butte County, Idaho.

The DEIS discusses the purpose and need for the proposed facility and reasonable alternatives to the proposed action, including the no-action alternative. The DEIS also discusses the environment potentially affected by the proposed facility, presents and compares the potential environmental impacts resulting from the proposed action and its alternatives, and identifies mitigation measures that could eliminate or lessen the potential environmental impacts.

The DEIS is being issued as part of the NRC's decision-making process on whether to issue a license to FWENC. Based on the preliminary evaluation in the DEIS, the NRC environmental review staff have concluded that the proposed action will have small effects on the public and existing environment. The DEIS is a preliminary analysis of the environmental impacts of the proposed action and its alternatives. The Final EIS and any decision documentation regarding the proposed action will not be issued until public comments on the DEIS have been received and evaluated. Notice of the availability of the Final EIS will be published in the **Federal Register**.

At this time, the NRC is soliciting public comments on the DEIS. Due to limited interest during the "Scoping" phase of the DEIS preparation, the NRC staff has elected not to hold a public meeting on the DEIS. However, the DEIS is still being offered for public review and comment in accordance with applicable NRC regulations, including requirements in 10 CFR parts 51.73, 51.74 and 51.117. Any interested person may submit written comments on the DEIS for consideration by the NRC staff. Please see the **DATES** and **ADDRESSES** sections of this notice for directions on when and how to submit comments.

DATES: The public comment period begins with publication of this notice of availability in the **Federal Register** and continues until August 18, 2003.

Written comments submitted by mail should be postmarked by that date to ensure consideration. Comments mailed after that date will be considered to the extent practical. Comments will also be accepted by electronic or facsimile submission.

ADDRESSES: Members of the public are invited and encouraged to submit comments to the Chief, Rules Review and Directives Branch, Mail Stop T6-D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Please note Docket No. 72-25 when submitting comments. Due to the current mail situation in the Washington, DC area, it is encouraged that comments be sent electronically to isffacility@nrc.gov or by facsimile to (301) 415-5398, Attn: Matt Blevins.

FOR FURTHER INFORMATION CONTACT: For environmental review questions, please contact Matthew Blevins at (301) 415-7684. For questions related to the safety review or overall licensing of the Idaho Spent Fuel Facility, please contact James Randall Hall at (301) 415-1336.

Information and documents associated with the Idaho Spent Fuel Facility project, including the Environmental Report and the License Application, submitted on November 19, 2001, may be obtained from the Internet on NRC's Idaho Spent Fuel Facility Web page: <http://www.nrc.gov/waste/spent-fuel-storage.html> (case sensitive). In addition, all documents, including the DEIS, are available for public review through our electronic
