

DEPARTMENT OF COMMERCE**Foreign-Trade Zones Board****[Docket 30-2003]****Foreign-Trade Zone 82—Mobile, AL
Application for Manufacturing
Authority Kvaerner Oilfield Products
(Undersea Umbilicals) Mobile, AL**

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of Mobile, grantee of FTZ 82, requesting manufacturing authority within a proposed general-purpose zone expansion site for the manufacturing and warehousing facilities of Kvaerner Oilfield Products (Kvaerner), located in Mobile, Alabama. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on June 18, 2003.

The Kvaerner facility (50 employees) is located within proposed Site 7 of FTZ 82, the Theodore Industrial Complex, located on the western shore of Mobile Bay. The facility will be used for the manufacturing and warehousing of undersea umbilicals (HTS 8544.60, duty rate 3.5%). Components and materials sourced from abroad (representing 25-35% of all parts consumed in manufacturing) include: super duplex steel tubes, power and signal cables, fiber optic cables and plastic conduits (HTS 7304.10, 7304.21-7304.59, 8544.11-8544.20 and 9001.10, duty rate ranges from .3% to 6.7%).

FTZ procedures would exempt Kvaerner from Customs duty payments on the foreign components used in export production. The company anticipates that some 50 percent of the plant's shipments will be exported. On its domestic sales, Kvaerner would be able to choose the duty rates during Customs entry procedures that apply to finished umbilicals (3.5%) for the foreign inputs noted above. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been appointed examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. Submissions via Express/Package Delivery Services: Foreign-Trade-Zones Board, U.S. Department of Commerce, Franklin Court Building—Suite 4100W,

2. Submissions via the U.S. Postal Service: Foreign-Trade-Zones Board, U.S. Department of Commerce, FCB—Suite 4100W, 1401 Constitution Ave. NW., Washington, DC 20230.

National Oceanic and Atmospheric Administration

[I.D. 061303A]

Incidental Take of Marine Mammals; Bottlenose Dolphins and Spotted Dolphins

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of issuance of letters of authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act

(MMPA) and implementing regulations, notification is hereby given that 4 letters of authorization (LOAs) to take bottlenose and spotted dolphins incidental to oil and gas structure removal activities were issued.

ADDRESSES: The applications and letters are available for review in the following offices: Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910, and the Southeast Region, NMFS, 9721 Executive Center Drive N, St. Petersburg, FL 33702.

FOR FURTHER INFORMATION CONTACT: Kimberly Skrupky, Office of Protected Resources, NMFS, (301) 713-2055, ext. 163.

SUPPLEMENTARY INFORMATION: Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs NMFS to allow, on request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region, if certain findings are made and regulations are issued. Under the MMPA, the term "taking" means to harass, hunt, capture, or kill or to attempt to harass, hunt, capture or kill marine mammals.

Permission may be granted if NMFS finds, after notification and opportunity for public comment, that the taking will have a negligible impact on the species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses. In addition, NMFS must prescribe regulations that include permissible methods of taking and other means effecting the least practicable adverse impact on the species and its habitat, and on the availability of the species for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance. The regulations must include requirements pertaining to the monitoring and reporting of such taking. Regulations governing the taking of bottlenose and spotted dolphins incidental to oil and gas structure removal activities in the Gulf of Mexico were published on August 1, 2002 (67 FR 49869), and remain in effect until February 2, 2004. Issuance of these letters of authorization are based on a finding that

the total takings will have a negligible impact on the bottlenose and spotted dolphin stocks of the Gulf of Mexico.

Letters of Authorization were issued to:
