The EPA Science Advisory Board Staff Office has determined that the RAC, a standing committee of the Board, will conduct this consultation since the RAC already has the appropriate expertise without the need for additional expert consultants. Therefore, we are not soliciting additional experts for this consultation.

The SAB Staff Office will post the names and biosketches for members of the consultative Panel on the SAB Web site at: <http://www.epa.gov/sab>. Public comments will be accepted until February 18, 2003 on the information provided. During this comment period, the public will be requested to provide information, analysis or other documentation relevant to the membership of the panel for the Staff Office's final decision. Information, analysis or documentation must be received by Dr. K. Jack Kooyoomjian, the Designated Federal Officer (DFO) no later than February 18, 2003. Please see the address/contact information noted below.

For the EPA SAB, a balanced review panel (*i.e.*, committee, subcommittee, or panel) is characterized by inclusion of candidates who possess the necessary domains of knowledge, the relevant scientific perspectives (which, among other factors, can be influenced by work history and affiliation), and the collective breadth of experience to adequately address the charge. Information provided by the public will be considered in the selection of the panel, along with information provided by candidates and information gathered by EPA SAB Staff independently on the background of each candidate (*e.g.*, financial disclosure information and computer searches to evaluate a nominee's prior involvement with the topic under review). Specific criteria to be used in evaluating an individual subcommittee member include: (a) Scientific and/or technical expertise, knowledge, and experience (primary factors); (b) absence of financial conflicts of interest; (c) scientific credibility and impartiality; (d) availability and willingness to serve, and (e) ability to work constructively and effectively in committees.

The purchaser will record a notice with the County Clerk's Office that the property is part of the Site subject to the EPA removal action.

For thirty (30) days following the date of publication of this document, the Agency will receive written comments relating to the proposed settlement.
