14 CFR Part 71

[Docket No. FAA-2003-15075; Airspace Docket No. 03-ACE-43]

Modification of Class E Airspace; Valentine, NE

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: An Area Navigation (RNAV) Global Positioning System (GPS) Runway (RWY) 14 ORIGINAL Standard Instrument Approach Procedure (SIAP) has been developed to serve Miller Field, Valentine, NE. This action expands Class E airspace extending upward from 700 feet above ground level (AGL) at Valentine, NE to contain aircraft executing the approach. The Miller Field airport reference point has been redefined and is incorporated into the legal description of Valentine, NE Class E airspace.

DATES: This direct final rule is effective on 0901 UTC, September 4, 2003. Comments for inclusion in the Rules Docket must be received on or before June 25, 2003.

ADDRESSES: Send comments on this regulation to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. SUPPLEMENTARY INFORMATION: The amendment to 14 CFR part 71 modifies the Class E airspace area at Valentine, NE. An RNAV (GPS) RWY 14 ORIGINAL SIAP has been developed to serve Miller Field, Valentine, NE. The SIAP requires additional controlled airspace to contain aircraft executing the approach procedure. This action expands Class E airspace extending upward from 700 feet AGL at Valentine, NE. The National Aeronautical Charting Office redefined the Valentine, Miller Field, NE airport reference point effective April 9, 2003. Class E controlled airspace at Valentine, NE is defined, in part, by the Miller Field airport reference point. This action corrects discrepancies between the previous and revised airport reference points by modifying the Valentine, NE Class E airspace area. It incorporates the revised Miller Field airport reference point in the Class E airspace legal description and brings the airspace area into compliance with FAA Order 7400.2E, Procedures for Handling Airspace Matters. The area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9K, dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment

period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket No. FAA-2003-15075/Airspace Docket No. 03-ACE-43.” The postcard will be date/time stamped and returned to the commenter.
