SUPPLEMENTARY INFORMATION: The Wildlife and Sport Fish Restoration Programs Improvement Act of 2000 (Pub. L. 106-408) (Improvement Act) established a Multistate Conservation Grant Program within the Federal Aid in Wildlife Restoration Act (16 U.S.C. 669-669k) and Federal Aid in Sport Fish Restoration Act (16 U.S.C. 777-777m) (Restoration Acts). The Improvement Act authorizes grants of up to \$3 million annually from funds available under each of the Restoration Acts, for a total of up to \$6 million annually. Grants may be made from a priority list of projects submitted by the International Association of Fish and Wildlife Agencies (IAFWA), which represent the State fish and wildlife agencies. The Service Director, exercising the authority of the Secretary, need not fund all recommended projects, but may not fund projects that are not recommended.

To be eligible for consideration by the IAFWA, a project must benefit fish and/or wildlife conservation in at least 26 States, a majority of the States in a Fish and Wildlife Service Region, or a regional association of State fish and wildlife agencies. Grants may be made to a State or group of States, to non-governmental organizations, and, for the purpose of carrying out the National Survey of Fishing, Hunting and Wildlife-Associated Recreation, the U.S. Fish and Wildlife Service.

The priority list of projects submitted by the IAFWA follows:

*Denotes project submitted pending a final decision of the IAFWA Executive Committee, which is expected December 13, 2002.

The total cost of the proposed Wildlife Restoration projects is more than the amount allocated by Congress for this program. If we were to fund all of these projects, funds allocated, but not spent, from Fiscal Year (FY) 2002 would be used to make up the difference for FY 2003. The rest of the funding would come from FY 2004 and FY 2005 allocations because six of these projects are multi-year projects.

We expect to decide by January 10, 2003, which of the listed projects will be awarded a FY 2003 Multistate Conservation Grant. We will also publish the list of the awards in the **Federal Register** immediately afterwards.

Dated: November 27, 2002.

Steve Williams,
Director.

Endangered and Threatened Wildlife and Plants; Guidance on Streamlining Section 7 Consultation on Hazardous Fuels Treatment Projects

AGENCIES: Fish and Wildlife Service (USFWS), Interior; National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of availability.

SUMMARY: The Fish and Wildlife Service and National Marine Fisheries Service (Services) announce the availability of guidance on alternative approaches for streamlining section 7 consultation on hazardous fuels treatment projects. This guidance presents options for land management agencies and the Services

for streamlining consultation conducted under section 7 of the Endangered Species Act of 1973, as amended (ESA). The guidance encourages early coordination and cooperation at the project planning stage, "batching" of similar projects, and use of design criteria or screens to streamline the consultation process while minimizing the potential for adverse effects to listed species and their habitats at both the landscape and site-specific levels. All procedures identified in this document are consistent with the requirements of section 7(a)(2) of the ESA and its implementing regulations (50 CFR part 402).

ADDRESSES: Electronic copies of this guidance may be obtained from the USFWS World Wide Web consultation home page at <http://endangered.fws.gov/consultations/streamlining.pdf>.
