BILLING CODE 4310-40-P

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Environmental Water Account

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of Availability of Draft Environmental Impact DES 03-40 Statement/Environmental Impact Report (EIS/EIR) and notice of public workshops and public hearings.

SUMMARY: The Bureau of Reclamation (Reclamation), the National Environmental Policy Act (NEPA) Federal lead agency; and the California Department of Water Resources (DWR), the California Environmental Quality Act (CEQA) State lead agency; along with the U.S. Fish and Wildlife Service (FWS) and National Marine Fisheries Service (NOAA Fisheries), Federal Cooperating Agencies; and the California Department of Fish and Game (DFG), State Responsible Agency, have made available for public review and comment the Draft EIS/EIR for the CALFED Environmental Water Account (EWA).

The EWA addresses fish protection and recovery in the San Francisco Bay/Sacramento-San Joaquin Delta while at the same time improving water supply reliability for Central Valley Project (CVP) and State Water Project (SWP) customers. The CVP and SWP facilities that pump water from the Delta can entrain and kill fish, some of which are Federally and State listed species.

Reductions in CVP and SWP pumping to protect these fish species can reduce water supply reliability. The EWA involves environmentally beneficial changes in operations of the CVP and SWP for Delta dependent native fish species, and acquires and manages water assets to pay back the water foregone by the CVP and SWP, assuring no uncompensated water cost to the projects' water users. Reclamation, DWR, FWS, NOAA Fisheries, and DFG collectively manage EWA assets and recommend operational changes to the CVP and SWP facilities. FWS, NOAA Fisheries, and DFG are responsible for recommending actions that protect and benefit Delta dependent fish populations. Reclamation and DWR are responsible for acquiring water assets from willing sellers and storing, conveying, and delivering the assets to the projects at appropriate times and locations to assure no uncompensated water cost to the projects' water users.
