provides only for "exceptions reporting," we anticipate that very few quarterly reports will include and information under this amendment.

Description of the Need for the Information and Proposed Use of the Information—NHTSA will rely on the information provided by manufacturers under this rule in deciding whether or not the manufacturer(s) are complying with the requirements of the TREAD Act for the proper handling and disposal of recalled tires.

Description of the Likely Respondents (Including Estimated Number and Proposed Frequency of Responses to the Collection of Information)—All manufacturers that conduct tire recall campaigns would be required to comply with reporting requirements. We estimate that there are 10 manufacturers of tires. In the past 3 years, there has been an average of between 9 and 10 tire recalls conducted annually by all manufacturers. (Occasionally, but rarely, vehicle manufacturers conduct recalls that involve the replacement of tires.) Manufacturers are required to provide quarterly reports for 6 quarters for each. If a manufacturer does not combine quarterly reporting for all active (within 6 quarters) recalls, there could be a total of up to 40 quarterly reports per year (4 x 10), but most would not contain any information under this amendment.

Estimate of the Total Annual
Reporting and Recordkeeping Burden of
the Collection of Information in the
NPRM—Manufacturers conducting tire
recalls would be required to include
additional information in their part 573
notices when initiating a recall. This
will require about one hour of staff work
in each notice. Additionally, each
quarterly report that includes
information under this amendment
could require up to an additional 8
hours to maintain the records and
prepare the report.

Estimate of the Total Annual Costs of the Collection of Information in the NPRM—Other than the cost of the burden hours, we estimate that there would be no additional costs associated with this information collection.

Authority: 44 U.S.C. 3506(c); delegation of authority at 49 CFR 1.50.

National Highway Traffic Safety Administration

[Docket No. NHTSA-2003-15209]

Public Meetings on Reporting Procedures Under the Early Warning Reporting Rule

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT. **ACTION:** Notice of public meetings.

SUMMARY: This document announces that NHTSA will hold meetings with interested members of the public to discuss the manner in which early warning reporting (EWR) information is to be submitted by motor vehicle and motor vehicle equipment manufacturers to NHTSA's Office of Defects Investigation (ODI) pursuant to regulations adopted to implement the Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act.

DATES: NHTSA will conduct public meetings on June 18 and 19, 2003, with regard to specific motor vehicles and motor vehicle equipment, at the following times:

Tires: June 18, 2003 from 9:30 a.m. to 12 p.m.

Child restraint systems and other equipment: June 18, 2003 from 1 p.m. to 3:30 p.m.

Light vehicles: June 19, 2003 from 9:30 a.m. to 12 p.m.

Medium-heavy vehicles and buses: June 19, 2003 from 1 p.m. to 3:30 p.m.

Location: All meetings will be held in Room 8236 of the United States Department of Transportation (Nassif) Building, 400 Seventh Street, SW., Washington, DC 20590.

FOR FURTHER INFORMATION CONTACT: Ms. Lorena Villa, Office of Defects Investigation, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Room 5319, Washington, DC 20590; (202) 366–0699 or at bvilla@nhtsa.dot.gov.

SUPPLEMENTARY INFORMATION: NHTSA will hold public meetings with interested members of the public to discuss the manner in which early warning reporting (EWR) information is to be submitted by motor vehicle and motor vehicle equipment manufacturers to NHTSA's Office of Defects Investigation (ODI) pursuant to subpart C of 49 CFR part 579. NHTSA will hold four separate public meetings to discuss submission by manufacturers of the following four types of products: tires, child restraint systems and other equipment, light vehicles, and medium/

heavy vehicles and buses. At these meetings, NHTSA will discuss the procedures for the submission of EWR information, security measures for protection of EWR information, the manner in which NHTSA will acknowledge receipt of EWR information and identify problems with the submissions, and other technical matters. NHTSA will also answer questions raised on these issues at the meetings.

NHTSA recommends that all visitors arrive at least 45 minutes early in order to pass through building security. Visitors to the building should enter through the Southwest lobby to sign in with security and to be escorted to the meeting room.

NHTSA will provide auxiliary aids to participants as necessary. Any person desiring such auxiliary aids (sign language interpreter, telecommunications devices for deaf persons (TDDs), readers, taped tests, brailed materials, or large print materials, and magnifying devices) should contact Julia Goldson at (202) 366–9944, by Wednesday, June 4, 2003.

Issued on: May 19, 2003.

Notice of Receipt of Petition for Decision That Nonconforming 2001– 2003 Mercedes-Benz Type 463 Short Wheel Base Gelaendewagen Multi-Purpose Passenger Vehicles Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petition for decision that nonconforming 2001–2003 Type 463 short wheel base(SWB) Gelaendewagen multi-purpose passenger vehicles (MPVs) are eligible for importation.

SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that 2001–2003 Type 463 SWB Gelaendewagen MPVs that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States because they have safety features

that comply with, or are capable of being altered to comply with, all such standards.

DATES: The closing date for comments on the petition is June 26, 2003.

ADDRESSES: Comments should refer to the docket number and notice number, and be submitted to: Docket Management, Room PL-401, 400 Seventh St., SW., Washington, DC 20590. [Docket hours are from 9 a.m. to 5 p.m.]. Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the Federal Register published on April 11, 2000 (Volume 65, Number 70; Pages 19477–78) or you may visit http://dms.dot.gov.

FOR FURTHER INFORMATION CONTACT: Coleman Sachs, Office of Vehicle Safety Compliance, NHTSA (202–366–3151).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Under 49 U.S.C. 30141(a)(1)(B), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards may also be granted admission into the United States, even if there is no substantially similar motor vehicle of the same model year originally manufactured for importation into and sale in the United States, if the safety features of the vehicle comply with or are capable of being altered to comply with those standards based on destructive test information or other evidence that NHTSA decides is adequate.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

J.K. Motors of Baltimore, Maryland ("J.K.")(Registered Importer 90–006) has petitioned NHTSA to decide whether 2001–2003 Type 463 SWB Gelaendewagen MPVs are eligible for importation into the United States. J.K. has identified its petition as pertaining to both the Cabriolet and the Three Door versions of these vehicles. J.K. believes that these vehicles can be made to conform to all applicable Federal motor vehicle safety standards (FMVSS).

In its petition, J.K. noted that over a period of ten years, NHTSA has granted import eligibility to a number of Mercedes Benz Gelaendewagen type 463 vehicles. These include the 1990–1996 SWB version of the vehicle (assigned vehicle eligibility number VCP-14) and the 1996 through 2001 long wheel base (LWB) version of the vehicle (assigned vehicle eligibility numbers VCP-11, 15, 16, 18, and 21). These eligibility decisions were based on petitions submitted by J.K. and another registered importer, Europa International, Inc., claiming that the vehicles were capable of being altered to comply with all applicable FMVSS. Because those vehicles were not manufactured for importation into and sale in the United States, and were not certified by their original manufacturer (Daimler Benz), as conforming to all applicable FMVSS, they cannot be categorized as "substantially similar" to the 2001–2003 SWB versions for purposes of establishing import eligibility under 49 U.S.C. 30141(a)(1)(A). In addition, while there are some similarities between the SWB and LWB versions, NHTSA has decided that the 2002 and 2003 LWB versions of the vehicle that Mercedes Benz has manufactured for importation into and sale in the United States cannot be categorized as substantially similar to the SWB versions for the purpose of establishing import eligibility under section 30141(a)(1)(A). Therefore, we will construe J.K.'s petition as a petition pursuant to 49 U.S.C. 30141(a)(1)(B).

J.K. submitted information with its petition intended to demonstrate that 2001–2003 Type 463 SWB Gelaendewagen MPVs, as originally manufactured, conform to many applicable FMVSS and are capable of being readily altered to conform to all other applicable standards to which they were not originally manufactured to conform.

Specifically, the petitioner claims that 2001–2003 Type 463 SWB Gelaendewagen MPVs has safety features that comply with Standard Nos. 102 Transmission Shift Lever Sequence *., 103 Defrosting and Defogging Systems, 104 Windshield Wiping and Washing Systems, 105 Hydraulic Brake Systems, 106 Brake Hoses, 113 Hood Latch Systems, 116 Brake Fluid, 118 Power-Operated Window Systems, 119 New Pneumatic Tires for Vehicles other than Passenger Cars, 124 Accelerator Control Systems, 201 Occupant Protection in Interior Impact, 202 Head Restraints, 204 Steering Control Rearward Displacement, 205 Glazing Materials, 206 Door Locks and Door Retention Components, 207 Seating Systems, 209 Seat Belt Assemblies, 210 Seat Belt Assembly Anchorages, 212 Windshield Retention, 214 Side Impact Protection, 216 Roof Crush Resistance, 219 Windshield Zone Intrusion, and 302 Flammability of Interior Materials.

Petitioner also contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 Controls and Displays: (a) Replacement of the instrument cluster with the U.S.-model component; (b) replacement of the cruise control lever with a U.S.-model component on vehicles that are not so equipped; (c) reprogramming and initialization of the vehicle control system to integrate the new instrument cluster and activate required warning systems.

Standard No. 108 Lamps, Reflective Devices and Associated Equipment: (a) Installation of U.S.-model headlamps and front sidemarker lights; (b) installation of U.S.-model taillamp assemblies or modification of existing taillamps to conform to the standard; (c) installation of U.S.-model sidemarker lights.

Standard No. 111 Rearview Mirror: Replacement of the passenger side rearview mirror with a U.S.-model component or inscription of the required warning statement on the mirror's surface.

Standard No. 114 *Theft Protection:* programming of the vehicle control systems to activate the required driver warning.

Standard No. 120 *Tire Selection and Rims for Motor Vehicles other than Passenger Cars:* Installation of a tire information placard.

Standard No. 208 Occupant Crash Protection: Programming of the vehicle control systems to activate the required seat belt warnings. The petitioner states

that the vehicles are equipped with driver's and passenger's air bags and knee bolsters, and with combination lap and shoulder belts that are selftensioning and that release by means of a single red push button at the front and rear outboard seating positions.

Standard No. 225 *Child Restraint Anchorage Systems:* Inspection of all vehicles for compliance with this standard, and modification of any vehicle found not to comply.

Standard No. 301 Fuel System Integrity: The petitioner states that the vehicles' fuel systems must be modified with U.S.-model parts to meet U.S. Environmental Protection Agency (EPA) OBDII, Spit Back, and enhanced EVAP requirements. The petitioner claims that as modified, these systems will control all fuel leaks in the case of an impact.

The petitioner also states that a vehicle identification plate must be affixed to the vehicle near the left windshield post and a reference and certification label must be affixed in the area of the left front door post to meet the requirements of 49 CFR part 565.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Management, Room PL–401, 400 Seventh St., SW., Washington, DC 20590. [Docket hours are from 9 a.m. to 5 p.m.]. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(B) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: May 20, 2003.

Associate Administrator for Enforcement. [FR Doc. 03–13067 Filed 5–23–03; 8:45 am]

BILLING CODE 4910-59-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA-2003-14631; Notice 2]

Decision That Nonconforming 1986 Chevrolet Blazer Multi-Purpose Passenger Vehicle Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT. **ACTION:** Notice of decision by NHTSA that nonconforming 1986 Chevrolet Blazer multi-purpose passenger vehicles are eligible for importation.

SUMMARY: This notice announces the decision by NHTSA that 1986 Chevrolet Blazer multi-purpose passenger vehicle not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States because they are substantially similar to vehicles originally manufactured for importation into and sale in the United States and certified by their manufacturer as complying with the safety standards (the U.S. certified version of the 1986 Chevrolet Blazer multi-purpose passenger vehicle), and they are capable of being readily altered to conform to the standards.

DATES: This decision is effective as of the date of its publication in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Coleman Sachs, Office of Vehicle Safety Compliance, NHTSA (202–366–3151). SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Wallace Environmental Testing Laboratories, Inc. of Houston, Texas ("WETL") (Registered Importer 90-005) petitioned NHTSA to decide whether non-U.S. certified European Market 1986 Chevrolet Blazer multi-purpose passenger vehicles are eligible for importation into the United States. NHTSA published notice of the petition on March 12, 2003 (68 FR 11899) to afford an opportunity for public comment. The reader is referred to that notice for a thorough description of the petition. No comments were received in response to the notice of the petition. Based on its review of the information submitted by the petitioner, NHTSA has decided to grant the petition.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final decision must indicate on the form HS–7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP–405 is the vehicle eligibility number assigned to vehicles admissible under this notice of final decision.

Final Decision

Accordingly, on the basis of the foregoing, NHTSA hereby decides that European Market 1986 Chevrolet Blazer multi-purpose passenger vehicles that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are substantially similar to 1986 Chevrolet Blazer multi-purpose passenger vehicles originally manufactured for sale in the United States and certified under 49 U.S.C. 30115, and are capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: May 15, 2003.
