*Type of Review:* Reinstatement.

Title: Magnet Schools Assistance Program Application for Grants.

Frequency: Comp/once every three years.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 150.

Burden Hours: 6,000.

Abstract: The application is used by local education agencies to apply for grants under the Magnet Schools Assistance Program. Information in funded applications is used to describe to the public how grant funds are being used, for program evaluation, and as a basis for project monitoring.

This information collection is being submitted under the Streamlined Clearance Process for Discretionary Grant Information Collections (1890-0001). Therefore, the 30-day public comment period notice will be the only public comment notice published for this information collection.

Requests for copies of the submission for OMB review; comment request may be accessed from http:// edicsweb.ed.gov, by selecting the "Browse Pending Collections" link and by clicking on link number 2372. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW., Room 4050, Regional Office Building 3, Washington, DC 20202–4651 or to the e-mail address vivan.reese@ed.gov. Requests may also be electronically mailed to the internet address OCIO ŘIMG@ed.gov or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Kathy Axt at her e-mail address, Kathy.Axt@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

### Office of Nonproliferation Policy; **Proposed Subsequent Arrangement**

**AGENCY:** Department of Energy.

**ACTION:** Notice of subsequent arrangement.

SUMMARY: This notice has been issued under the authority of Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160). The Department is providing notice of a proposed "subsequent arrangement" under the Agreement for Cooperation Concerning Civil Uses of Atomic Energy between the United States and Canada and Agreement for Cooperation in the Peaceful Uses of Nuclear Energy between the United States and the European Atomic Energy Community (EURATOM).

This subsequent arrangement concerns the retransfer of 266,197 kg of U.S.-origin natural uranium hexafluoride, 180,000 kg of which is uranium, from Cogema Resources Inc., Saskatoon, Saskatchewan, Canada to Eurodif Production, Pierrelatte France. The material, which is now located at Cameco Corp., Port Hope, Ontario, will be transferred to Eurodif for enrichment. Upon completion of the enrichment, the material will be retransferred to the Kansai Electric Power Co. Inc. Osaka. Japan, the Chugoku Electric Power Co. Inc, Hiroshima, Japan, and the Tohoku Electric Power Co Inc., Mivagi, Japan for use as fuel. The uranium hexafluoride was originally obtained by the Cameco Corp. from Power Resources, Inc. pursuant to export license number XSOU8744.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, we have determined that this subsequent arrangement is not inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

For the Department of Energy.

#### Office of Energy Efficiency and **Renewable Energy**

**Energy Conservation Program for Consumer Products: Granting of the** Application for Interim Waiver and Publishing of the Petition for Waiver of Fisher & Paykel Appliances Limited From the DOE Clothes Washer Test Procedure

**AGENCY:** Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver and solicitation of comments.

**SUMMARY:** Today's notice grants an Interim Waiver to Fisher & Paykel Appliances Limited (Fisher & Paykel), publishes Fisher & Paykel's Petition for Waiver from the existing Department of Energy (DOE or Department) clothes washer test procedure for its IW model clothes washer which has an adaptive control system, and seeks comment on that Petition for Waiver. The DOE clothes washer test procedure requires manufacturers of non-conventional clothes washers with adaptive control systems other than adaptive water fill control systems to seek such a waiver.

Fisher & Paykel seeks a waiver because its clothes washer model IW has an adaptive control system with two sensing modes, water level sensing and fabric sensing, to assess the type of load in the washer. This model does not have the conventional "normal" cycle used by the DOE clothes washer test procedure set forth in 10 CFR part 430, subpart B, appendix J, or the energy test cycle for washing cotton or linen clothes used in Appendix J1. Instead, Fisher & Paykel seeks to test the washer by determining a cycle that is equivalent to the normal cycle and the energy test cycle. The company proposes to test the default cycle that begins when a user pushes the power button to start the washer. This default cycle is the midpoint of the five settings controlled by the washer's "How Dirty" button, setting three. This waiver seeks only to confirm which test cycle to use. Fisher & Paykel will then follow the remaining steps of the existing test procedure to determine the energy consumption of the clothes washer. The Department is soliciting comments, data, and information regarding the Petition for Waiver.

**DATES:** The Department will accept comments, data, and information regarding this Petition for Waiver not later than December 8, 2003.
