BILLING CODE 4220-01-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of an Application for an Incidental Take Permit for Construction on a Single-Family Lot, in Volusia County, FL

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

Royce Winslow (Applicant), seeks an incidental take permit (ITP) from the Fish and Wildlife Service (Service), pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973 (Act), as amended. The ITP would authorize incidental take of the Florida scrub-jay (*Aphelocoma coerulescens*), on a single family lot for land clearing and other activities associated with the construction of a single family home on a 0.134-acre lot in City of Ormond Beach, Volusia County, Florida (Project).

The Applicant's Habitat Conservation Plan (HCP) describes the mitigation and minimization measures proposed to address the effects of the Project to the Florida scrub-jay. These measures are outlined in the **SUPPLEMENTARY INFORMATION** section below. The Service has determined that the Applicant's proposal, including the proposed mitigation and minimization measures, will individually and cumulatively have a minor or negligible effect on the species covered in the HCP. Therefore, the ITP is a "low-effect" project and would qualify as a categorical exclusion under the National Environmental Policy Act (NEPA), as provided by the Department of the Interior Manual (516 DM2, Appendix 1 and 516 DM 6, Appendix 1). The Service announces the availability of the HCP for the incidental take application. Copies of the HCP may be obtained by making a request to the Regional Office (*see ADDRESSES*). Requests must be in writing to be processed. This notice is provided pursuant to Section 10 of the Endangered Species Act and NEPA regulations (40 CFR 1506.6).

If you wish to comment, you may submit comments by any one of several methods. Please reference permit

number TE059232-0 in such comments. You may mail comments to the Service's Regional Office (*see ADDRESSES*). You may also comment via the Internet to *david_dell@fws.gov*. Please submit comments over the internet as an ASCII file avoiding the use of special characters and any form of encryption. Please also include your name and return address in your internet message. If you do not receive a confirmation from the Service that we have received your internet message, contact us directly at either telephone number listed below (*see FOR FURTHER INFORMATION CONTACT*). Finally, you may hand deliver comments to either Service office listed below (*see ADDRESSES*). Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours.

Individual respondents may request that we withhold their home address from the administrative record. We will honor such requests to the extent allowable by law. There may also be other circumstances in which we would withhold from the administrative record a respondent's identity, as allowable by law. If you wish us to withhold your name and address, you must state this prominently at the beginning of your comments. We will not, however, consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

DATES: Written comments on the ITP application and HCP should be sent to the Service's Regional Office (*see ADDRESSES*) and should be received on or before July 7, 2003.

ADDRESSES: Persons wishing to review the application, supporting documentation, and HCP may obtain a copy by writing the Service's Southeast Regional Office, Atlanta, Georgia. Documents will also be available for public inspection by appointment during normal business hours at the Regional Office, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345 (Attn: Endangered Species Permit Coordinator), or Field Supervisor, U.S. Fish and Wildlife Service, 6620 South Point Drive, South, Suite 310, Jacksonville, Florida 32216-0912. Written data or comments concerning the application or HCP should be submitted to the Regional Office. Requests for the documentation must be in writing to be processed. Please reference permit number TE059232-0 in

such comments, or in requests of the documents discussed herein.

FOR FURTHER INFORMATION CONTACT: Mr. David Dell, Regional Permit Coordinator, (*see ADDRESSES* above), telephone: 404/679-7313; or Ms. Jane Monaghan, Fish and Wildlife Biologist, Jacksonville Field Office, (*see ADDRESSES*), telephone 904/232-2580, extension 128.

SUPPLEMENTARY INFORMATION: The Florida scrub-jay is geographically isolated from other species of scrub-jays found in Mexico and the Western United States. The Florida scrub-jay is found almost exclusively in peninsular Florida and is restricted to scrub habitat. The total estimated population is between 7,000 and 11,000 individuals. Due to habitat loss and degradation throughout the State of Florida, it has been estimated that the Florida scrub-jay population has been reduced by at least half in the last 100 years. Surveys indicate that one family of Florida scrub-jays occupies the Project site. The 0.134 acre of occupied habitat on the site is very overgrown due to fire suppression and a lack of any kind of management. The surrounding area is intensely developed with only scattered fragments of scrub habitat remaining. Construction of the Project's infrastructure, commercial construction and construction of the individual home sites will likely result in death of, or injury to, Florida scrub-jays incidental to the carrying out of these otherwise lawful activities. Habitat alteration associated with property development will reduce the availability of feeding, shelter, and nesting habitat.

Section 9 of the Act, and implementing regulations, prohibits taking the Florida scrub-jay. Taking, in part, is defined as an activity that kills, injures, harms, or harasses a listed endangered or threatened species. Section 10(a)(1)(B) of the Act provides an exemption, under certain circumstances, to the Section 9 prohibition if the taking is incidental to an otherwise lawful activity. Section 10 requires the applicant to submit a Habitat Conservation Plan that specifies the impacts that are likely to result from the taking and the measures the permit applicant will undertake to minimize and mitigate such impacts. Section 10(a)(2)(B) of the Act provides statutory criteria that must be satisfied before an incidental take permit can be issued. The issuance criteria are as follows:

1. The taking is incidental to, and not the purpose of otherwise lawful activities.
