SUPPLEMENTARY INFORMATION:

I. Background

II. Current Actions

III. Request for Comments

I. Background

The Federal Energy Administration Act of 1974 (Pub. L. 93-275, 15 U.S.C. 761 *et seq.*) and the DOE Organization Act (Pub. L. 95-91, 42 U.S.C. 7101 *et seq.*) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer term domestic demands.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35), provides the general public and other Federal agencies with opportunities to comment on collections of energy information conducted by or in conjunction with the EIA. Any comments received help the EIA to prepare data requests that maximize the utility of the information collected, and to assess the impact of collection requirements on the public. Also, the

EIA will later seek approval by the Office of Management and Budget (OMB) under section 3507(a) of the Paperwork Reduction Act of 1995.

The Voluntary Reporting of Greenhouse Gases collections are conducted pursuant to section 1605(b) of the Energy Policy Act of 1992 (Pub. L. 102-486, 42 U.S.C. 13385) under General Guidelines issued by the DOE's Office of Policy & International Affairs. These forms are designed to collect voluntarily reported data on greenhouse gas emissions, achieved reductions of these emissions, and increased carbon fixation as well as information on commitments to reduce greenhouse gas emissions and sequester carbon in future years.

Please refer to the proposed forms and instructions for more information about the purpose, who must report, when to report, where to submit, the elements to be reported, detailed instructions, provisions for confidentiality, and uses (including possible nonstatistical uses) of the information. For instructions on obtaining materials, see the **FOR FURTHER INFORMATION CONTACT** section.

II. Current Actions

EIA will be requesting a one-year extension with no changes for the Voluntary Reporting of Greenhouse Gases Program, Forms EIA-1605 and EIA-1605EZ.

This request for a one-year extension of the expiration date of the existing Forms EIA-1605 and EIA-1605EZ is being made to ensure that a data collection instrument is in place while the Guidelines to the Voluntary Reporting of Greenhouse Gases Program are in the process of being revised. A one-year extension, rather than a three-year extension, is being proposed because EIA anticipates significant changes to the data collection forms and data elements to result from the revisions to the program guidelines.

Revised Guidelines for the Voluntary Reporting of Greenhouse Gases Program

On February 14, 2002, President Bush announced a series of programs and initiatives to address the issue of global climate change, including a greenhouse gas intensity reduction goal, energy technology research programs, targeted tax incentives to advance the development and adoption of new technologies, and voluntary programs to promote actions to reduce greenhouse gases. In addition, the President directed the Secretary of Energy, in consultation with the Secretary of Commerce, the Secretary of Agriculture, and the Administrator of the Environmental Protection Agency, to
