Title and Purpose Information Collection

Application for Employee Annuity Under the Railroad Retirement Act; OMB 3220-0002 section 2 of the Railroad Retirement Act (RRA), provides for payment of age and service, disability and supplemental annuities to qualified employees. The basic requirement for a regular employee annuity retirement annuity under the RRA is 120 months (10 years) of creditable railroad service. Benefits then become payable after the employee meets certain other requirements, which depend, in turn, on the type of annuity payable. The requirements relating to the annuities are prescribed in 20 CFR 216, and 220.

The RRB currently uses the electronic AA-1cert, Application Summary and Certification process and the following forms to collect the information needed for determining entitlement to and the amount of, an employee retirement annuity: Form AA-1, Application for Employee annuity Under the Railroad Retirement Act, Form AA-1d, Application for Determination of Employee Disability, and Form G-204,
