

EPA has no authority to disapprove a redesignation request for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a state recommendation, to use VCS in place of a state request that otherwise satisfies the provisions of the CAA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

[FRL-7933-9]

#### National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of intent to delete the Jones Sanitation Superfund Site from the National Priorities List.

**SUMMARY:** The Environmental Protection Agency (EPA) Region 2 office is issuing this notice of intent to delete the Jones Sanitation Superfund Site (Site), located in Hyde Park, New York from the National Priorities List (NPL) and requests public comment on this action. The NPL is Appendix B of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), 40 CFR part 300, which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended. The EPA and the State of New York, through the Department of Environmental Conservation (NYSDEC), have determined that potentially responsible parties have implemented all appropriate response actions. Moreover, EPA and NYSDEC have determined that the Site poses no significant threat to

public health or the environment. In the "Rules and Regulations" Section of today's **Federal Register**, we are publishing a direct final notice of deletion for the Jones Sanitation Superfund Site without prior notice of this action because we view this as a noncontroversial revision and anticipate no significant adverse comment. We have explained our reasons for this action in the preamble to the direct final deletion. If we receive no significant adverse comment(s) on this notice of intent to delete or the direct final notice of deletion or other notices we may issue, we will not take further action on this notice of intent to delete. If we receive significant adverse comment(s), we will withdraw the direct final notice of deletion and it will not take effect. We will, as appropriate, address all public comments. If, after evaluating public comments, EPA decides to proceed with deletion, we will do so in a subsequent final deletion notice based on this notice of intent to delete. Any parties interested in commenting must do so at this time. For additional information, see the direct final notice of deletion which is located in the Rules section of this **Federal Register**.

**DATES:** Comments concerning this Site must be received by August 8, 2005.

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 73

[MM Docket No. 99-25; FCC 05-75]

#### Creation of a Low Power Radio Service

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** In this document, the Commission seeks comment on ownership and eligibility issues related to low power FM (LPFM) authorizations, including: whether LPFM authorizations should be transferable and, if so, whether transferability should be broadly permitted or limited to special circumstances; whether to extend the deadline for submission of a time-share proposal after a mutually exclusive group of LPFM applicants is announced; whether to permit renewal of licenses granted under involuntary time-sharing, successive license term procedures; whether to permanently restrict ownership of LPFM stations to local entities; and whether to permanently prohibit multiple ownership of LPFM stations. The Commission also seeks comment on technical issues related to LPFM authorizations, including: whether to extend the LPFM construction period to 36 months; whether to allow applicants submitting a time-share proposal to relocate the transmitter to a central location, notwithstanding the site relocation limits for minor amendments; whether and, if so, under what conditions LPFM applications should be treated as having "primary" status with respect to prior-filed FM translator applications and existing FM translator stations; and whether an LPFM station should be permitted to continue to operate even when interference is predicted to occur within the 70 dBu contour of a subsequently-authorized second- or third-adjacent channel full service FM station.

**DATES:** Comments must be filed on or before August 8, 2005, and reply comments must be filed on or before August 22, 2005. Written comments on the proposed information collection requirements contained in the document must be submitted by the public, the Office of Management and Budget (OMB), and other interested parties on or before September 6, 2005.
