

filings on its website. The NYSE also has stated that it actively encourages vendors and subscribers to display this indicator. The Commission believes that these measures should provide notice to the investing public that an issuer is late in filing its annual report with the Commission.²¹

The Commission also notes that to the extent a late annual report filer files an overdue report, the NYSE has indicated it will not remove the indicator or the company's name from the late filer posting on its website until all outstanding quarterly reports have been submitted. While this is helpful to the public to ensure that investors are aware of the information available on a particular issuer, the Commission believes the NYSE should consider developing systems that identify all late filers of quarterly reports, irrespective of whether the annual report is also late. The Commission will continue to work with the NYSE in this area.

As noted above, Amendment No. 3 clarifies that the proposed rule change would apply to companies that are already late in filing their annual reports as of the date that the Commission approves the proposed rule change. The Commission notes that this amendment was published for notice and comment and that no comments were received addressing this issue. The Commission believes that applying the proposal to companies that are already late in filing their annual reports as of the date that the Commission approves the proposed rule change should help to ensure that such companies do not remain late filers for an extended time period past the 9 or 12 month period allowed under new Paragraph 802.01E of the Listed Company Manual, thereby benefiting the public interest.

In summary, the Commission believes that the procedures being approved herein will provide clarity to both issuers and investors on the delisting procedures applicable to late annual report filers and will help to ensure that delisting procedures are commenced no later than 12 months after the date the annual report was due. Further, the Commission continues to encourage the NYSE to further refine its policies to address late quarterly reports and other related matters.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²² that the

Consistent with this obligation, USTR is providing notice that a dispute settlement panel has been established pursuant to the WTO Dispute Settlement Understanding ("DSU"). The panel will hold its meetings in Geneva, Switzerland.
