

would have the ability to consolidate costs into one system that provides the features and benefits of wireless telephones and a paperless means of complying with the requirement to accurately document drivers' hours of service.

Xora believes its system offers enhanced safety because it allows for a much more accurate compilation of drivers' on-duty time, driving time, driving distance and total hours, than handwritten records of duty status. The system is easily accessible for Federal and State roadside inspectors to review. The system maintains the required records in the GPS-enabled handset, and records are also maintained at the motor carrier's principle place of business. The system also provides a warning for drivers as they approach the applicable HOS limits.

Request for Comments

In accordance with 49 U.S.C. 31315 and 31136(e), FMCSA requests public comment from all interested persons on Xora's application for exemption from 49 CFR 395.15. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the address section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, the FMCSA will also continue to file in the public docket relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being

requested, and the petitioner's arguments in favor of relief.

Illinois Railway Museum (Waiver Petition Docket Number FRA-2005-21271)

The Illinois Railway Museum (IRYM) seeks a waiver of compliance from the Steam Locomotive Inspection and Maintenance Standards (49 CFR 230.17(a)) for steam locomotive number IRYM 428, which requires "Before any steam locomotive is initially put in service or brought out of retirement, and after every 1472 service days or 15 years, whichever is earlier, an individual competent to conduct the inspection shall inspect the entire boiler. In the case of a new locomotive or a locomotive being brought out of retirement, the initial 15 year period shall begin on the day that the locomotive is placed in service or 365 calendar days after the first flue tube is installed in the locomotive, whichever comes first. This 1472 service day inspection shall include all annual, and 5th annual, inspection requirements, as well as any items required by the steam locomotive owner and/or operator or the FRA inspector. At this time, the locomotive owner and/or operator shall complete, update and verify the locomotive specification card (FRA Form No. 4), to reflect the condition of the boiler at the time of this inspection. See appendices A and B of this part." IRYM request states that they installed the first tube in the subject locomotive boiler in October 1999, and since that time, the locomotive has been stored in a heated shop. The boiler has not been fired but was hydrostatically tested three times. If granted, the date the waiver is granted or the first day the locomotive is fired, whichever occurs first, would be the date the locomotive enters service and the 1472 service/15-year inspection requirements begin.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (FRA-2005-21271) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within

45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (volume 65, number 70; pages 19477-78). DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

[FTA Docket No. FTA 2005-21382]

Notice of Request for a New Collection

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the Federal Transit Administration (FTA) to request the Office of Management and Budget (OMB) to approve a new collection: 49 U.S.C. Section 3037 Job Access and Reverse Commute Programs.

DATES: Comments must be submitted before August 8, 2005.

ADDRESSES: All written comments must refer to the docket number that appears at the top of this document and be submitted to the United States Department of Transportation, Central Dockets Office, PL-401, 400 Seventh Street, SW., Washington, DC 20590. All comments received will be available for examination at the above address from 10 a.m. to 5 p.m., e.t., Monday through Friday, except federal holidays. Those desiring notification of receipt of comments must include a self-addressed, stamped postcard/envelope.

FOR FURTHER INFORMATION CONTACT: Mr. Gregory D. Brown, Office of Program Management, (202) 366-2053.

SUPPLEMENTARY INFORMATION: Interested parties are invited to send comments regarding any aspect of this information collection, including: (1) The necessity and utility of the information collection for the proper performance of the functions of the FTA; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the collected information; and (4) ways to minimize the collection burden without reducing the quality of the collected information. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection.

49 U.S.C. Section 3037 Job Access and Reverse Commute Programs

Background: 49 U.S.C. Section 3037 Job Access and Reverse Commute (JARC) Program authorizes the Secretary of Transportation to make grants to State and local governments and public transportation authorities to transport welfare recipients and other low-income individuals to and from jobs and activities related to employment. Grant recipients are required to make information available to the public and to publish a program of projects for affected citizens to comment on the proposed program and performance of the grant recipients at public hearings. Notices of hearings must include a brief description of the proposed project and must be published in a newspaper circulated in the affected area. FTA uses

the information to determine eligibility for funding and to monitor the grantees' progress in implementing and completing project activities. FTA also collects grantee performance information annually. A web-based contractor, who collects the grantee information electronically and develops JARC information tables as needed, performs this information collection activity. The information submitted ensures FTA's compliance with applicable federal laws and OMB Circular A-102.

Respondents: State & local government, private non-profit organizations and public transportation authorities.

Estimated Annual Burden on Respondents: 251 hours for each respondent.

Estimated Total Annual Burden: 78,609 hours.

Frequency: Annual.

Issued: June 2, 2005.

Ann Linnertz,

Deputy Associate Administrator for Administration.
