NUCLEAR REGULATORY COMMISSION

[Docket No. 50-305; License No. DPR-43]

In the Matter of Wisconsin Public Service Corporation, Wisconsin Power and Light Company, and Nuclear Management Company, LLC (Kewaunee Nuclear Power Plant, Unit No. 1); Order Extending the Effectiveness of the Approval of the Transfer of License and Conforming Amendment

Wisconsin Public Service Corporation (WPSC), Wisconsin Power and Light Company (WPL), and Nuclear Management Company, LLC (NMC) (the licensees) are the holders of Facility Operating License No. DPR-43, which authorizes operation of Kewaunee Nuclear Power Plant, Unit No. 1 (Kewaunee or the facility). The facility is located at the licensees' site in Kewaunee County, Wisconsin. The

license authorizes WPSC and WPL to possess, and NMC to use and operate, Kewaunee.

By order dated June 10, 2004, the Commission approved the transfer of the license for Kewaunee to Dominion Energy Kewaunee, Inc. (Dominion Energy Kewaunee). By its terms, the order of June 10, 2004, becomes null and void if the license transfer is not completed by June 30, 2005, unless upon application and for good cause shown, the Commission extends the effectiveness of the approval.

By letter dated May 4, 2005, NMC, on behalf of itself, WPSC, and WPL, submitted a request to extend the effectiveness of the order of June 10, 2004, until December 31, 2005. According to the letter, Kewaunee is currently in an extended unit shutdown to address certain recently identified design issues. Based on the current asset sales agreement between the owners and Dominion Energy Kewaunee, the license transfer will not occur until the unit has been returned to full power operation. The licensee's present schedule for addressing the plant design issues, returning the unit to full power operation, and completing the license transfer shows that all of these items will be done before June 30, 2005. However, Dominion Energy Kewaunee and NMC consider it prudent to request an extension of the order approving the license transfer if unforeseen circumstances make an extension necessary. Therefore, NMC requests an extension of the order until December 31, 2005, to permit completion of the Kewaunee license transfer. In its May 4, 2005, letter, NMC also stated that no conditions under which the NRC order was granted have been significantly changed or detrimentally affected since the order was issued.

The NRC staff has considered the licensee's May 4, 2005, request and has determined that the licensee has shown good cause for extending the effectiveness of the order of June 10, 2004, as requested.

Accordingly, pursuant to Sections 161b, 161i, and 184 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2201(b), 2201(i), and 2234, and 10 CFR 50.80, it is hereby ordered that the effectiveness of the herein described order of June 10, 2004, is extended such that if the subject license transfer from NMC, WPSC, and WPL to Dominion Energy Kewaunee referenced above is not completed by December 31, 2005, the order of June 10, 2004, shall become null and void, unless upon application and for good cause shown, the Commission further extends the effectiveness of the order.

This Order is effective upon issuance. For further details with respect to this action, see the submittal dated May 4, 2005, which is available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and is accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 1st day of June, 2005.

NUCLEAR REGULATORY COMMISSION

Notice of Availability of Interim Staff Guidance Documents for Fuel Cycle Facilities

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT:

Wilkins Smith, Project Manager, Technical Support Group, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20005-0001. Telephone: (301) 415-5788; fax number: (301) 415-5370; e-mail: wrs@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is preparing and issuing Interim Staff Guidance (ISG) documents for fuel cycle facilities. These ISG documents provide clarifying guidance to the NRC staff when reviewing licensee integrated safety analyses, license applications or amendment requests or other related licensing activities for fuel cycle facilities under Subpart H of 10 CFR Part 70. The NRC is soliciting public comments on one ISG Draft document (ISG-08) which will be considered in the final version or subsequent revision.

II. Summary

The purpose of this notice is to provide the public an opportunity to review and comment on the Interim Staff Guidance document for fuel cycle facilities. Draft Interim Staff Guidance-08, Version 0, provides guidance to NRC staff relative to evaluation of natural

phenomena hazards in the context of a review of a license application or amendment request or other licensee submittal under 10 CFR Part 70, Subpart H.

III. Further Information

Documents related to this action are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. BILLING CODE 7710-12-M

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange

Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Rule 10A-1; SEC File No. 270-425; OMB Control No. 3235-0468.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Rule 10A-1 implements the reporting requirements in Section 10A of the Exchange Act, which was enacted by Congress on December 22, 1995 as part of the Private Securities Litigation Reform Act of 1995, Public Law No. 104-67. Under section 10A and Rule 10A-1 reporting occurs only if a registrant's board of directors receives a report from its auditors that (1) there is an illegal act material to the registrant's financial statements, (2) senior management and the board have not taken timely and appropriate remedial action, and (3) the failure to take such action is reasonably expected to warrant the auditor's modification of the audit report or resignation from the audit engagement. The board of directors must notify the Commission within one business day of receiving such a report. If the board fails to provide that notice, then the auditor, within the next business day, must provide the Commission with a copy of the report that it gave to the board.

Likely respondents are those registrants filing audited financial statements under the Securities Exchange Act of 1934 and the Investment Company Act of 1940.

It is estimated that Rule 10A-1 results in an aggregate additional reporting burden of 10 hours per year. The estimated average burden hours are solely for purposes of the Paperwork Reduction Act and are not derived from a comprehensive or even a representative survey or study of the costs of SEC rules or forms.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to
