Institute of Standards and Technology publications; HHS Information Systems Program Handbook and the CMS Information Security Handbook.

RETENTION AND DISPOSAL:

Records are maintained in the active files for a period of 15 years. The records are then retired to archival files maintained at the Health Care Data Center. All claims-related records are encompassed by the document preservation order and will be retained until notification is received from the Department of Justice.

SYSTEM MANAGER AND ADDRESS:

Director, Employer Policy & Operations Group, CMS, Room C1–22–06, 7500 Security Boulevard, Baltimore, Maryland 21244–1850.

NOTIFICATION PROCEDURE:

For purpose of access, the subject individual should write to the system manager who will require the system name, HICN, address, date of birth, and gender, and for verification purposes, the subject individual's name (woman's maiden name, if applicable), and SSN. Furnishing the SSN is voluntary, but it may make searching for a record easier and prevent delay.

RECORD ACCESS PROCEDURE:

For the purpose of access, use the same procedures outlines in Notification Procedures above. Requestors should also reasonably specify the record contents being sought. (These procedures are in accordance with Department regulation 45 CFR 5b.5).

CONTESTING RECORDS PROCEDURES:

The subject individual should contact the system manager named above and reasonably identify the records and specify the information to be contested. State the corrective action sought and the reasons for the correction with supporting justification. (These Procedures are in accordance with Department regulation 45 CFR 5b.7).

RECORD SOURCE CATEGORIES:

Records maintained in this system will be derived from Medicare Beneficiary Database system of records and from medical plans and plan sponsors.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request Proposed Project

Title: The National Evaluation of the Court Improvement Program.

OMB No.: New Collection. Description: The National Evaluation of the Court Improvement Program will describe the many paths followed by state courts to improve their oversight of child welfare cases, and will provide the field with information on effective models for juvenile and family court reform. Funded by the Children's Bureau, U.S. Department of Health and Human Services (HHS) in 2004, the fiveyear study is being carried out by a partnership of three organizations consisting of Planning and Learning Technologies (Pal-Tech, Inc.), the Urban Institute and the Center for Policy Research.

The federal Court Improvement Program (CIP) was established in 1994 as a source of funding for state courts to assess and improve their handling of foster care and adoption proceedings. The funding is codified in title IV-B, subpart 2, of the Social Security Act, Section 438, as part of the Promoting Safe and Stable Families Program. Although anecdotal information documents the program's success, this is the first national evaluation of CIP. This study builds on the recommendations of a Children's Bureau-funded Evaluability Assessment (EA) of the program completed in 2003 by James Bell Associates, Inc.

The National Evaluation of the Court Improvement Program involves three interrelated components:

- 1. Reviewing and synthesizing state and local court reform activities: This component will describe the full range of CIP-funded court reforms undertaken by states at the beginning and ending of the study's data collection period. Additionally, it will provide insights into states' reform priorities and how these shift over time. Especially promising models of reform will be highlighted. Finally, this component will provide important contextual information for the study's in-depth evaluation component of select models of reform. Information for this activity will be synthesized from existing reports submitted by states to the Children's Bureau.
- 2. Reviewing and synthesizing existing court reform evaluations: This

component will identify and synthesize findings from research and evaluation conducted on family and juvenile court reforms. It will provide an important context for the study's in-depth evaluation component in two ways. Findings on reform activities beyond those captured within the study sites will be provided. It will also help inform evaluation within the study sites by providing information on previously conducted evaluation of similar reform models. Information for this activity will be synthesized from existing evaluations and studies of court reform. Evaluations will be prioritized for synthesis based on their methodological rigor and findings reported in the substantive areas defined by the EA. These are:

- Alternative dispute resolution;
- Training and educational materials;
- Case tracking and management;
- Improvements to the consistency and quality of hearings;
- Parent/caregiver outreach, education, and support; and
 - Systemic court reforms.
- 3. Conducting in-depth studies of reform models: In-depth evaluation of select models of reform will be undertaken within three diverse sites across the country. The study designs vary among sites, and include quasiexperimental and descriptive outcome methodologies. Reflecting the Adoption and Safe Families Act, the primary outcome areas of interest will be child safety, the timely achievement of permanency, and child well-being. Within each site, outcome evaluation will be complemented by a qualitative study of the many factors that impacted reform including other related reform efforts, the evolution of the target reform over time, barriers encountered, and methods by which these barriers were overcome.

The outcome evaluation will utilize information from existing court and child welfare agency management information systems. Within select sites, information from these sources will be supplemented with information abstracted from existing court and/or child welfare agency case records. The process evaluation will help inform outcome findings within the study sites as well as provide important insights for the replication of the model within other sites. The process evaluation will involve the collection of new information through structured focus groups and interviews with key individuals, as well as court observations of child dependency hearings. This descriptive information will be collected twice during the study.

The three sites selected for in-depth analysis are the following:

- Connecticut's Case Management Protocol: Piloted in December 1997, the protocol involves a pre-hearing conference of professionals held early in the dependency court process coupled with expanded parent representation.
- Delaware's Systemic Reform: Piloted in 2000, the three primary components of the state's comprehensive reform effort are:
- —One judge/one case assignment practice where one judge presides over all legal stages of a dependency case;
- Defined sequence of hearings and reviews that significantly increases the number of hearings and oversight role of the courts; and

- Representation for indigent parents in child welfare proceedings.
- Texas's Cluster Courts: Piloted in 1997, these courts are located in rural areas of the state. Each court serves a cluster of contiguous counties, and a specially trained judge is appointed to travel to each county within a cluster on a given day to hear that county's child welfare cases. The cluster courts were formed to enable rural counties to meet the state's strict permanency status guidelines that were enacted January 1, 1998.

Collectively, findings from the three study components will capture the ongoing nationwide process of court reform supported by the Court Improvement Program. A technical work group comprised of leading researchers, judicial and child welfare

agency officials and representatives of public interest groups has been assembled to provide input at key points during the study.

Respondents: Study respondents include individuals in the following categories among the three study sites noted above:

- Court Improvement Program (CIP) administrators;
 - Judges;
- Attorneys (representing the parent, child, and agency);
- Court Appointed Special Advocates (CASAs) and Guardians Ad Litem (GALs):
- Child welfare agency administrators;
- Regional child welfare directors and supervisors; and
 - Child welfare agency caseworkers.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
CIP Administrators	8 30 95 55	1 1 1 1	2 1 2 2	16 30 190 110
Child Welfare Agency Administrators	10 30 120	1 1	1 2 2	10 60 240
Total				656

Estimated Total Annual Burden Hours: 656.

In compliance with the requirements of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Administration, Office of Information Services. 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. E-mail address: grjohnson@acf.hhs.gov. All request should be identified by the title of the information collection.

The Department specifically requests comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c)

the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Dated: July 11, 2005.

Administration for Children and Families

Proposed Information Collection Activity; Comment Request; Proposed Projects

Title: Methodology for Determining if an Increase in a State's Child Poverty Rate is the Result of TANF.

OMB No.: 0970-0186.

Description: In accordance with Section 413(i) of the Social Security Act and 45 CFR part 284, the Department of Health and Human Services (HHS) intends to reinstate the following information collection requirements. For instances when Census Bureau data show that a State's child poverty rate increased by 5% or more from one year to the next, a State will be required to submit: (1) An optional submission of data on child poverty from an independent source; (2) if the increase in the State's child poverty rate is still determined to be 5% or more, an assessment of the impact of the TANF program(s) in the State on the child poverty rate; and (3) if HHS determines from the assessment and other information that the child poverty rate in the State increased as a result of the TANF program(s) in the State, a corrective action plan.

Respondents: The respondents are the 50 States and District of Columbia; and when reliable Census Bureau data become available for the Territories, additional respondents will be Guam, Puerto Rico and the Virgin Islands.
