Whereas, Koochiching Economic Development Authority, grantee of Foreign-Trade Zone 259 (International Falls, Minnesota), has made application for authority to establish special-purpose subzone status at the all-terrain vehicle engine and snowmobile manufacturing facilities of Arctic Cat, Inc., located in Thief River Falls, Minnesota (Docket 56-2004, filed 12-3-2004);

Foreign-Trade Zones Board

[Docket 58-2005]

Foreign-Trade Zone 77—Memphis, TN; Expansion of Manufacturing Authority—Subzone 77B; Brother Industries (U.S.A.) Inc. (Manufacture/ Refurbish Toner Cartridges)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of Memphis and Shelby County (Tennessee), Division of Planning and Economic Development, grantee of FTZ 77, to expand the scope of manufacturing authority for Brother Industries (U.S.A.) Inc. (Brother) under zone procedures within Subzone 77B, at the Brother plant located in Bartlett, Tennessee. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on November 17, 2005.

Subzone 77B was approved by the Board in 1995 and is currently comprised of two sites in Bartlett, Tennessee. Authority was initially granted for the manufacture of typewriters and word processors (Board Order 774, 60 FR 48100-48101, 9/18/1995). Brother's manufacturing authority was later expanded to include postage franking machines/electronic

business equipment (Board Order 1109, 65 FR 41625-41626, 7/6/2000).

Brother is now proposing to expand the scope of manufacturing activity conducted under zone procedures at Subzone 77B to include manufacturing/refurbishing toner cartridges. The finished toner cartridges fall into categories which enter the United States duty free. Brother's application indicates that foreign-sourced materials under the proposed expanded scope (toner; toner caps; collars, guards, and covers; seals; labels; developer rollers; bearings; springs; gears; retaining rings; washers; lower film; foil bags; and instruction sheets) have duty rates ranging from duty-free to 6.5% *ad valorem*.

Expanded subzone manufacturing authority would enable Brother to choose the lower duty rate that applies to the new finished products for foreign components, when applicable, on shipments to the U.S. market. Brother indicates that it will also realize logistical/procedural and other benefits related to the proposed expanded scope of manufacturing. All of the above-cited savings from zone procedures could help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. Submissions via Express/Package Delivery Services: Foreign-Trade-Zones Board, U.S. Department of Commerce, Franklin Court Building—Suite 4100W, 1099 14th St. NW., Washington, DC 20005; or

2. Submissions via the U.S. Postal Service: Foreign-Trade-Zones Board, U.S. Department of Commerce, FCB—Suite 4100W, 1401 Constitution Ave. NW., Washington, DC 20230.

The closing period for their receipt is January 31, 2006. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to February 15, 2006.

A copy of the application and accompanying exhibits will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at address Number 1 listed above, and at the Memphis U.S. Export Assistance Center, c/o Memphis Regional Chamber of Commerce, 22 North Front Street, Suite 200 Memphis, TN 38103.

Dated: November 17, 2005.

Dennis Puccinelli,

Executive Secretary.

Carbon Steel Plate from Taiwan: Notice of Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request from Nucor Corporation, a U.S. domestic producer of carbon steel plate, the Department of Commerce (the Department) initiated an administrative review of the antidumping duty order on carbon steel plate from Taiwan. *See Notice of Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 70 FR 42028 (July 21, 2005) (*Initiation Notice*). The period of review (POR) covered June 1, 2004 through May 31, 2005. We are now rescinding this review because there is no evidence the respondent had any reviewable U.S. transactions during the POR.

EFFECTIVE DATE: December 2, 2005.

FOR FURTHER INFORMATION CONTACT: Maryanne Burke or Robert James, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Room 7868, Washington, DC 20230; telephone (202) 482-5604 and (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department published an antidumping finding on carbon steel plate from Taiwan on June 13, 1979. *See Antidumping; Certain Carbon Steel Plate from Taiwan*, 44 FR 33877 (June 13, 1979). On June 1, 2005 the Department published a notice of “Opportunity to Request Administrative Review” of the antidumping duty order for the period of June 1, 2004 through May 31, 2005. *See Notice of Opportunity to Request Administrative*

Review of Antidumping or Countervailing Duty Order, Finding or Suspended Investigation, 70 FR 31422 (June 1, 2005). In accordance with 19 CFR 351.213(b)(1), on June 30, 2005 petitioner Nucor Corporation requested a review of this finding with respect to the manufacturer and/or exporter China Steel Corporation (China Steel). In response to this request, the Department published the initiation of the antidumping duty administrative review on carbon steel plate from Taiwan on July 21, 2005. *See Initiation Notice.*

On August 10, 2005, the Department issued an antidumping questionnaire to China Steel to which we did not receive a response. We subsequently issued a supplemental questionnaire on September 2, 2005 and China Steel submitted a brief response on September 16, 2005. On October 18, 2005 the Department requested further clarification and issued a second supplemental questionnaire and China Steel filed its response on October 28, 2005.

China Steel notified the Department that neither it nor any of its affiliates had any reviewable U.S. transactions during the POR. The Department obtained documentation from U.S. Customs and Border Protection (CBP) for specific entries to the United States of merchandise subject to this order. *See* November 1, 2005 memorandum from Maryanne Burke to the file entitled, “2004/2005 Administrative Review of Carbon Steel Plate from Taiwan: Release of Customs Documentation.” Also, CBP Headquarters issued a no shipments inquiry for carbon steel plate from Taiwan from China Steel. *See* CBP message no. 5258209 dated September 15, 2005 available at <http://adcdvd.cbp.gov/>. No information from these inquiries indicated that China Steel had reviewable U.S. transactions during the POR. Accordingly, we notified the petitioners that we intended to rescind this administrative review with respect to the respondent and they did not object.

Rescission of the Administrative Review

Pursuant to 19 CFR 351.213(d)(3), we are rescinding this review of the antidumping finding on carbon steel plate from Taiwan for the period June 1, 2004 through May 31, 2005. The Department will issue appropriate assessment instructions to CBP within 15 days of publication of this notice.
