SUPPLEMENTARY INFORMATION:

Proposal to extend for three years without revision the following currently approved collections of informations:

1. *Report Title:* Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks

Form Number: FFIEC 002

OMB Number: 7100-0032

Frequency of Response: Quarterly

Affected Public: U.S. branches and agencies of foreign banks

Number of Respondents: 275

Estimated Time per Response: 22.75 hours

Estimated Total Annual Burden: 25,025 hours

General Description of Report: This information collection is mandatory: 12 U.S.C. 3105(b)(2), 1817(a)(1) and (3), and 3102(b). Except for select sensitive items, this information collection is not given confidential treatment [5 U.S.C. 552(b)(8)].

Abstract: On a quarterly basis, all U.S. branches and agencies of foreign banks (U.S. branches) are required to file detailed schedules of assets and liabilities in the form of a condition report and a variety of supporting schedules. This information is used to fulfill the supervisory and regulatory requirements of the International Banking Act of 1978. The data are also used to augment the bank credit, loan, and deposit information needed for monetary policy and other public policy purposes. The Federal Reserve System collects and processes this report on behalf of all three agencies.

2. *Report Title:* Report of Assets and Liabilities of a Non-U.S. Branch that is Managed or Controlled by a U.S. Branch or Agency of a Foreign (Non-U.S.) Bank

Form Number: FFIEC 002S

OMB Number: 7100-0273

Frequency of Response: Quarterly

Affected Public: U.S. branches and agencies of foreign banks

Estimated Number of Respondents: 74

Estimated Time per Response: 6 hours

Estimated Total Annual Burden: 1,776 hours

General Description of Report: This information collection is mandatory: 12 U.S.C. 3105(b)(2), 1817(a)(1) and (3), and 3102(b) and is given confidential treatment [5 U.S.C. 552(b)(8)].

Abstract: On a quarterly basis, all U.S. branches and agencies of foreign banks are required to file detailed schedules of their assets and liabilities in the form FFIEC 002. The FFIEC 002S is a separate supplement to the FFIEC 002 that

collects information on assets and liabilities of any non-U.S. branch that is "managed or controlled" by a U.S. branch or agency of the foreign bank. Managed or controlled means that a majority of the responsibility for business decisions, including but not limited to decisions with regard to lending or asset management or funding or liability management, or the responsibility for recordkeeping in respect of assets or liabilities for that foreign branch resides at the U.S. branch or agency. A separate FFIEC 002S must be completed for each managed or controlled non-U.S. branch. The FFIEC 002S must be filed quarterly along with the U.S. branch's or agency's FFIEC 002.

The data are used for: (1) monitoring deposit and credit transactions of U.S. residents; (2) monitoring the impact of policy changes; (3) analyzing structural issues concerning foreign bank activity in U.S. markets; (4) understanding flows of banking funds and indebtedness of developing countries in connection with data collected by the International Monetary Fund (IMF) and the Bank for International Settlements (BIS) that are used in economic analysis; and (5) assisting in the supervision of U.S. offices of foreign banks, which often are managed jointly with these branches.

Request for Comment

Comments are invited on:

- a. Whether the information collections are necessary for the proper performance of the agencies' functions, including whether the information has practical utility;
- b. The accuracy of the agencies' estimates of the burden of the information collections, including the validity of the methodology and assumptions used;
- c. Ways to enhance the quality, utility, and clarity of the information to be collected;
- d. Ways to minimize the burden of information collections on respondents, including through the use of automated collection techniques or other forms of information technology; and
- e. Estimates of capital or start up costs and costs of operation, maintenance, and purchase of services to provide information.

Comments submitted in response to this notice will be shared among the agencies. All comments will become a matter of public record. Written comments should address the accuracy of the burden estimates and ways to minimize burden including the use of automated collection techniques or the use of other forms of information technology as well as other relevant

aspects of the information collection request.

Board of Governors of the Federal Reserve System, February 24, 2005.

Robert deV. Frierson,

Deputy Secretary of the Board.

BILLING CODE 6210-01-S

FEDERAL RESERVE SYSTEM

Sunshine Act Meeting

AGENCY HOLDING THE MEETING: Board of Governors of the Federal Reserve System.

TIME AND DATE: 11:30 a.m., Monday, March 7, 2005.

PLACE: Marriner S. Eccles Federal Reserve Board Building, 20th and C Streets, N.W., Washington, D.C. 20551.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.

2. Any items carried forward from a previously announced meeting.

FOR FURTHER INFORMATION CONTACT: Michelle A. Smith, Director, Office of Board Members; 202-452-2955.

SUPPLEMENTARY INFORMATION: You may call 202-452-3206 beginning at approximately 5 p.m. two business days before the meeting for a recorded announcement of bank and bank holding company applications scheduled for the meeting; or you may contact the Board's Web site at <http://www.federalreserve.gov> for an electronic announcement that not only lists applications, but also indicates procedural and other information about the meeting.

Board of Governors of the Federal Reserve System, February 25, 2005.

Robert dev. Frierson,

Deputy Secretary of the Board.

BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[ATSDR-208]

Availability of Public Health Assessment Guidance Manual (Update)

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR),

Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: This notice announces the availability of the ATSDR Public Health Assessment Guidance Manual (Update). ATSDR is mandated to conduct public health assessment activities at all sites on, or proposed for inclusion on, the National Priorities List (NPL). ATSDR can also conduct public health assessments in response to a request from the public for an evaluation of active waste sites, landfills, and other possible releases of hazardous substances to the environment.

ADDRESSES: The Public Health Assessment Guidance Manual is available to the public by mail from the U.S. Department of Commerce, National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161, or by telephone at (703) 487-4650. There is a charge, determined by NTIS, for the manual. The NTIS order number for this document is PB2005-102123.

The Public Health Assessment Guidance Manual is also available on the ATSDR Web site at <http://www.atsdr.cdc.gov/HAC/PHAManual/index.html>.

FOR FURTHER INFORMATION CONTACT: William Cibulas, Ph.D., Director, Division of Health Assessment and Consultation, ATSDR, 1600 Clifton Road, NE., Mailstop E-32, Atlanta, Georgia 30333, telephone (404) 498-0007.

SUPPLEMENTARY INFORMATION: ATSDR is required by section 104(i) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) to conduct health assessment activities at all sites on, or proposed for inclusion on, the NPL (42 U.S.C. 9604(i)(6)(A)). ATSDR may also conduct health assessments in response to a request from the public (42 U.S.C. 9604(i)(6)(B)). In addition, the U.S. Environmental Protection Agency may request the conduct of a health assessment under the Resource Conservation and Recovery Act (RCRA) (42 U.S.C. 6939a(b)).

The general procedures for the conduct of public health assessments are included in the ATSDR regulation, 'Health Assessments and Health Effects Studies of Hazardous Substances Releases and Facilities' (42 CFR part 90).

The ATSDR public health assessment is the evaluation of data and information on the release of hazardous substances into the environment to assess any current or future impact on

public health, develop health advisories or other recommendations, and identify studies or actions needed to evaluate, mitigate, or prevent human health effects.

The ATSDR public health assessment includes an analysis and statement of the public health implications posed by the site under consideration. This analysis generally involves an evaluation of relevant environmental data, exposure pathways, community health concerns, and, when appropriate, health outcome data. The public health assessment also identifies populations living or working on or near hazardous waste sites for which more extensive public health actions or studies are indicated.

The Public Health Assessment Guidance Manual (Update) sets forth in detail the public health assessment process as developed by ATSDR and clarifies the methodologies and guidelines used by ATSDR staff and agents of ATSDR in conducting the assessments. The manual is not intended to supplant the professional judgment and discretion of the health assessor (or the public health assessment team) compiling and analyzing data, drawing conclusions, and making public health recommendations. Instead, the manual offers a systematic approach for evaluating the public health implications of hazardous waste sites, while still allowing the health assessors to develop new approaches to the process and apply the most current and appropriate science and methodology.

This manual replaces the previous guidance manual that was released on May 18, 1992. The manual has been updated and expanded to reflect current scientific knowledge and public health practices. For example, the manual expands the description of how to select environmental contaminants for further analysis and how to conduct an in-depth analysis of their potential to cause adverse health effects. Other revisions include new guidance on the evaluation of health outcome data and exposure to chemical mixtures.

This notice announces the availability of the revised manual. The manual has undergone extensive internal review, has been subjected to scientific peer review by experts both within and outside the Federal government, and was available for public comment from April 2, 2002, to June 3, 2002, **Federal Register** 67 15574, April 2, 2002.

Dated: February 23, 2005.

Georgi Jones,

Director, Office of Policy, Planning, and Evaluation, National Center for Environmental Health and Agency for Toxic Substances and Disease Registry.

Centers for Disease Control and Prevention

Urban Networks To Increase Thriving Youth Through Violence Prevention

Announcement Type: New.
Funding Opportunity Number: RFA 05042.

Catalog of Federal Domestic Assistance Number: 93.136.

Key Dates:

Letter of Intent Deadline: April 1, 2005.

Application Deadline: May 2, 2005.

I. Funding Opportunity Description

Authority: This program is authorized under Section 391(a) of the Public Health Service Act, 42 U.S.C. 280b(a).

Background: Youth violence is a pervasive and multi-sectoral problem. Homicide is one of the top four leading causes of death in every age group, from ages 1 to 34; it is the second and third leading cause of death among people ages 15-24 and 25-34, respectively.¹ Research indicates a number of factors can predispose children to a lifetime of violence and criminal activity, including poverty, substance abuse, poor parenting skills, placement outside the home, and improper peer interaction.² Exposure to violence is magnified for many youth in urban communities who have had encounters with shootings, stabbings, and other acts of violence by early adolescence.³ The disproportionate exposure to violence by urban youth often results in increased social problems such as anxiety and depression, pronounced grief, aggressive and delinquent behavior, a decrease in grade point average and social withdrawal.⁴
