BILLING CODE 4184-01-C

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Substance Abuse and Mental Health Services Administration****Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies****AGENCY:** Substance Abuse and Mental Health Services Administration, HHS.**ACTION:** Notice.

SUMMARY: The Department of Health and Human Services (HHS) notifies Federal agencies of the laboratories currently certified to meet the standards of Subpart C of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines). The Mandatory Guidelines were first published in the **Federal Register** on April 11, 1988 (53 FR 11970), and subsequently revised in the **Federal Register** on June 9, 1994 (59 FR 29908), on September 30, 1997 (62 FR 51118), and on April 13, 2004 (69 FR 19644).

A notice listing all currently certified laboratories is published in the **Federal Register** during the first week of each month. If any laboratory's certification is suspended or revoked, the laboratory will be omitted from subsequent lists until such time as it is restored to full certification under the Mandatory Guidelines.

If any laboratory has withdrawn from the HHS National Laboratory Certification Program (NLCP) during the past month, it will be listed at the end, and will be omitted from the monthly listing thereafter.

This notice is also available on the Internet at <http://workplace.samhsa.gov> and <http://www.drugfreeworkplace.gov>.

FOR FURTHER INFORMATION CONTACT: Mrs. Giselle Hersh or Dr. Walter Vogl, Division of Workplace Programs, SAMHSA/CSAP, Room 2-1035, 1 Choke Cherry Road, Rockville, Maryland 20857; 240-276-2600 (voice), 240-276-2610 (fax).

SUPPLEMENTARY INFORMATION: The Mandatory Guidelines were developed in accordance with Executive Order 12564 and section 503 of Public Law 100-71. Subpart C of the Mandatory Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards that laboratories must meet in order to conduct drug and specimen validity tests on urine specimens for

Federal agencies. To become certified, an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification, a laboratory must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A laboratory must have its letter of certification from HHS/SAMHSA (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with Subpart C of the Mandatory Guidelines dated April 13, 2004 (69 FR 19644), the following laboratories meet the minimum standards to conduct drug and specimen validity tests on urine specimens:

*The Standards Council of Canada (SCC)
voted to end its Laboratory Accreditation
Program for Substance Abuse (LAPSA)
effective May 12, 1998. Laboratories certified
through that program were accredited to
conduct forensic urine drug testing as
required by U.S. Department of
Transportation (DOT) regulations. As of that
date, the certification of those accredited
Canadian laboratories will continue under
DOT authority. The responsibility for
conducting quarterly performance testing
plus periodic on-site inspections of those
LAPSA-accredited laboratories was
transferred to the U.S. HHS, with the HHS'
NLCP contractor continuing to have an active
role in the performance testing and
laboratory inspection processes. Other
Canadian laboratories wishing to be
considered for the NLCP may apply directly
to the NLCP contractor just as U.S.
laboratories do.

Upon finding a Canadian laboratory to be
qualified, HHS will recommend that DOT
certify the laboratory (**Federal Register**, July

16, 1996) as meeting the minimum standards
of the Mandatory Guidelines published in the
Federal Register on April 13, 2004 (69 FR
19644). After receiving DOT certification, the
laboratory will be included in the monthly
list of HHS-certified laboratories and
participate in the NLCP certification
maintenance program.

Anna Marsh,

Executive Officer, SAMHSA.
