\*The Standards Council of Canada (SCC)  
voted to end its Laboratory Accreditation  
Program for Substance Abuse (LAPSA)  
effective May 12, 1998. Laboratories certified  
through that program were accredited to  
conduct forensic urine drug testing as  
required by U.S. Department of  
Transportation (DOT) regulations. As of that  
date, the certification of those accredited  
Canadian laboratories will continue under  
DOT authority. The responsibility for  
conducting quarterly performance testing  
plus periodic on-site inspections of those  
LAPSA-accredited laboratories was  
transferred to the U.S. HHS, with the HHS'  
NLCP contractor continuing to have an active  
role in the performance testing and  
laboratory inspection processes. Other  
Canadian laboratories wishing to be  
considered for the NLCP may apply directly  
to the NLCP contractor just as U.S.  
laboratories do.

Upon finding a Canadian laboratory to be  
qualified, HHS will recommend that DOT  
certify the laboratory (**Federal Register**, July

16, 1996) as meeting the minimum standards  
of the Mandatory Guidelines published in the  
**Federal Register** on April 13, 2004 (69 FR  
19644). After receiving DOT certification, the  
laboratory will be included in the monthly  
list of HHS-certified laboratories and  
participate in the NLCP certification  
maintenance program.
