Title: Descriptive Study of Early Head Start (DSEHS).

OMB No.: New Collection.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), requests clearance to

recruit Early Head Start (EHS) programs for participation in the Descriptive Study of Early Head Start (DSEHS) and to conduct a pilot test of potential measures.

DSEHS is a longitudinal study of a representative sample of programs and children in three age cohorts, which will collect information about programs, families, and services. When completed, data will be collected on a sample of approximately 2,100 children and families from 60 EHS programs. Data will be collected in four waves: Fall 2008, Fall 2009, Fall 2010, and Fall 2011. Children and families will be followed until children are three years old and exit EHS programs.

Data collected under DSEHS will complement information gathered under the Survey of Early Head Start Programs (SEHSP), OMB Control No. 0992-0008. SEHSP gathered information on the management systems, services, and characteristics of children and families served by EHS programs. To complement this information, DSEHS will gather information on the needs and characteristics of children and families enrolled in EHS programs, including an assessment of children's and families' needs, how programs meet
