

flexibility analysis if a rule would have a significant economic impact, either detrimental or beneficial on a substantial number of small entities. The proposed shooting closure does not pertain specifically to commercial or governmental entities of any size, but to public recreational use of specific lands. Therefore, the BLM has determined under the RFA that these interim supplementary rules would not have a significant economic impact on a substantial number of small entities.

Small Business Regulatory Enforcement Fairness Act (SBREFA)

This proposed shooting closure does not constitute a "major rule" as defined by U.S.C. 804(2). The proposed shooting closure merely contains rules of conduct for recreational use of certain public lands. The proposed shooting closure has no effect on business, commercial, or industrial use of the public lands.

Unfunded Mandates Reform Act

The proposed shooting closure does not impose an unfunded mandate on state, local, or Tribal governments in the aggregate, or the private sector, of more than \$100 million per year; nor does it have a significant or unique effect on small governments. The proposed shooting closure does not require anything of state, local, or Tribal governments. Therefore, the BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1532 *et seq.*).

Executive Order 12630, Governmental Actions and Interference With Constitutionally Protected Property Rights (Takings)

The proposed shooting closure is not a government action capable of interfering with constitutionally protected property rights. The proposed shooting closure does not address property rights in any form, and does not cause the impairment of anybody's property rights. Therefore, the Department of the Interior has determined that this proposed shooting closure would not cause a taking of private property or require further discussion of takings implications under this Executive Order.

Executive Order 13132 Federalism

The proposed shooting closure will not have a substantial direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. The proposed shooting closure affects land in only one

state, Nevada. Therefore, the BLM has determined that the proposed shooting closure does not have sufficient Federalism implications to warrant preparation of a Federalism Assessment.

Executive Order 12988, Civil Justice Reform

Under Executive Order 12988, the Office of the Solicitor has determined that the proposed shooting closure will not unduly burden the judicial system and that the requirements of sections 3(a) and 3(b)(2) of the Order are met. The proposed shooting closure includes rules of conduct and prohibited acts, but they are straightforward and not confusing, and their enforcement should not unreasonably burden the United States Magistrate who will try any persons cited for violating them.

Executive Order 13175, Consultation and Coordination With Indian Tribal Governments

In accordance with Executive Order 13175, the BLM has found that this proposed shooting closure does not include policies that have Tribal implications. The proposed shooting closure does not affect lands held for the benefit of Indians, Aleuts or Eskimos.

Paperwork Reduction Action

The proposed shooting closure does not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* rules requiring special recreation permits for certain recreational users will involve collection of information contained on BLM Special Recreation Permit form 2930-1. This permit form has been approved under OMB Number 10004-0119.

SUPPLEMENTARY INFORMATION: The Kremmling planning area is located in Grand, Eagle, Jackson, Larimer, and Summit Counties, Colorado. The Glenwood Springs planning area is located in Eagle, Garfield, Mesa, Pitkin, Rio Blanco, and Routt Counties, Colorado. This planning activity encompasses approximately 964,000 acres of BLM-administered public lands. The plan will fulfill the needs and obligations set forth by the National Environmental Policy Act, the Federal Land Policy and Management Act, and BLM management policies. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis and alternatives. These issues also guide the planning process. You may submit comments on issues and planning criteria in writing to the BLM at any public scoping meeting, or you may submit them to the BLM using one of the methods listed in the **ADDRESSES** section above. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comments. Such requests will be honored to the extent allowed by law. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

Preliminary issues and management concerns have been identified by BLM personnel, other agencies, and in meetings with individuals and user groups. They represent the BLM's knowledge to date regarding the existing issues and concerns with current land management. The EIS will describe and analyze a range of alternatives, comprised of the No Action alternative (continued management) and a number of action alternatives, each of which will describe options for addressing the major issues. The major issues that will be addressed in this planning effort include:

- Oil and gas development;
- Range health/upland management;
- Water/riparian issues;

• Increased recreation demands and uses;

- Comprehensive travel management and transportation;
- High concentration of cultural sites;
- Maintaining habitat for Sage Grouse and Sagebrush obligate species; and
- Rapidly expanding urban interface areas.

Issues identified through public comments will be placed into one of four categories:

1. Issues to be resolved in the plan;
2. Issues to be resolved through policy or administrative action;
3. Issues beyond the scope of the plan; or
4. Issues that have already been addressed but should be better communicated to the issue holder.

Rationale will be provided for each issue placed in categories two, three, and four. The public is encouraged to help identify these questions and concerns during the scoping phase.

An interdisciplinary approach will be used to develop the plan in order to consider the variety of resource issues and concerns identified. Disciplines involved in the planning process will include specialists with expertise in minerals and geology, forestry, range, fire and fuels, outdoor recreation, archaeology, paleontology, wildlife, fisheries, lands and realty, hydrology, soils, sociology, environmental justice and economics.

The following planning criteria have been proposed to guide development of the plan, avoid unnecessary data collection and analyses, and to ensure the plan is tailored to the issues. Other criteria may be identified during the public scoping process. After gathering comments on planning criteria, the BLM will finalize the criteria and provide feedback to the public on the criteria to be used throughout the planning process. Some of the planning criteria that are under consideration include:

- The plans will be completed in compliance with the Federal Land Policy and Management Act (43 U.S.C. 1701 *et seq.*) and the National Environmental Policy Act.
- The plan will recognize valid existing rights.
- Public participation will be encouraged throughout the process. The BLM will collaborate and build relationships with tribes, state and local governments, federal agencies, local stakeholders and others in the community of interest of the plan as normal business.

Acting Kremmling Field Manager.
