FOR FURTHER INFORMATION CONTACT: Brian Bellew, Planning Team Leader, at the Socorro Field Office (see address above), telephone (505) 838-1273.

SUPPLEMENTARY INFORMATION: The planning area encompasses all lands, regardless of jurisdiction, within Socorro and Catron counties, New Mexico totaling 8.7 million acres. A map of the planning area is available on the Web site (<http://www.nm.blm.gov>). The decision area for the DRMPR/DEIS

includes 1.5 million acres of BLM-administered public lands and 6.1 million acres of Federal mineral estate located in both counties.

The DRMPR/DEIS describes the physical, cultural, historic, and socioeconomic resources in and around the planning area and documents the direct, indirect, and cumulative environmental impacts of four alternatives for BLM-administered lands and resources within the planning area. The impact analysis focuses on resource issues and concerns identified during scoping and public involvement activities. Issues identified during scoping (not in priority order) include areas of special designation, soil and vegetation conditions, energy development, transportation and access, land use, and recreation and heritage tourism opportunities.

Four alternatives were analyzed in detail. The No-Action Alternative, Alternative A represents the continuation of existing management, which is defined by the 1989 Socorro RMP and subsequent amendments. Alternative B, BLM's preferred alternative, proposes managing the public lands for multiple uses and sustaining the health, diversity, and productivity of the lands for present and future generations. Alternative C emphasizes resource protection, while Alternative D emphasizes commodity production and use while still complying with applicable law, regulation, and BLM policy. Within all alternatives, Areas of Critical Environmental Concern (ACECs) have been identified to protect resources. These ACECs and associated acreages are listed in the table below. More detailed management prescriptions in these areas are provided in Table 2-2 of the DRMPR/DEIS.

Since the publication of the Notice of Intent to prepare an RMPR/EIS in the **Federal Register** on May 8, 2002, scoping meetings, off-highway vehicle workshops, and mailings have been conducted to inform the public and solicit input. Three scoping meetings were held in Socorro, Quemado, and Zuni, New Mexico on August 27, 28, and 29, 2002, respectively, resulting in approximately 76 oral comments from the public. In addition, 214 letters and comment forms were received during the scoping period. Catron County and the Zuni Tribe are cooperating agencies for development of the RMPR/EIS.

The Socorro DRMPR/DEIS is available for review via the Internet from a link at <http://www.nm.blm.gov> and in electronic (on CD-ROM) and paper format at the BLM, Socorro Field Office. Electronic (on CD-ROM) and paper copies may also be obtained by contacting Brian Bellew at the aforementioned address and phone number.
