

Production, published at 40 CFR part 63, subpart III, were proposed on December 27, 1996, and promulgated on October 7, 1998. These standards apply to owners or operators of new and existing facilities that engage in the manufacture of flexible polyurethane foam products which emit hazardous air pollutants (HAPs). This includes facilities making slabstock flexible polyurethane foam (slabstock foam), rebond flexible polyurethane foam (rebond foam), and/or molded flexible polyurethane foam (molded foam).

In general, all MACT standards require initial notifications, performance tests, and periodic reports. Owners or operators of flexible polyurethane foam production facilities to which this rule is applicable must choose one of the compliance options described in the standard or reduce HAP emissions to below the compliance level. Specifically, the rule requirements for slabstock foam producers include an initial notification, notification of compliance status, semiannual reports and annual compliance certifications. In addition, respondents are required to submit a precompliance report that describes the HAP compliance procedures, and recordkeeping procedures. Those electing to comply with the slabstock foam emission limitation using recovery devices must measure and record emissions as specified in 40 CFR 63.1297 of the rule. The rule requirements for molded and rebond foam producers include a notification of compliance status report and an annual compliance certification. These notifications, reports, and records are essential in determining compliance, and are required of all sources subject to MACT.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the United States Environmental Protection Agency (EPA) regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 43 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes

of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Flexible polyurethane foam production facilities.

Estimated Number of Respondents: 132.

Frequency of Response: Initially, semiannually and annually.

Estimated Total Annual Hour Burden: 9,047.

Estimated Total Annual Cost: \$572,320, which includes \$0 annual Startup costs, \$0 Operating and Maintenance (O&M) costs, and \$572,320 annualized Labor costs.

Changes in the Estimates: There is no change in the labor hours or cost in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden.

Dated: April 6, 2007.

Robert Gunter,

Acting Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2006-0719; FRL-8299-2]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Phosphoric Acid Manufacturing and Phosphate Fertilizers Production, (Renewal); EPA ICR Number 1790.04, OMB Control Number 2060-0361

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office

of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on May 31, 2007. Under OMB regulations, the Agency may continue to conduct, or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before May 16, 2007.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2006-0719, to (1) EPA online, using www.regulations.gov (our preferred method), by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Compliance Assessment and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; e-mail address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On October 5, 2006 (71 FR 38853), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID Number EPA-HQ-OECA-2006-0719, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket Center is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.epa.gov>,

to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select: "Docket Search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically, or in paper, will be made available for public viewing at www.regulations.gov, as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NESHAP for Phosphoric Acid Manufacturing and Phosphate Fertilizers Production (40 CFR part 63, subparts AA & BB).

ICR Numbers: EPA ICR Number 1790.04, OMB Control Number 2060-0361.

ICR Status: This ICR is scheduled to expire on May 31, 2007. Under OMB regulations, the Agency may continue to conduct, or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct, or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register**, or by other appropriate means, such as on the related collection instrument, or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Owners/operators of affected phosphoric acid manufacturing and phosphate fertilizer production must submit one-time only notifications (where applicable) and annual reports on performance test results. Semiannual reports are required. In addition, a quarterly report is required when excess emissions occur.

Subparts AA and BB require respondents to install monitoring devices to measure the pressure drop and liquid flow rate for wet scrubbers. These operating parameters are permitted to vary within ranges determined concurrently with performance tests. Exceedances of the operating ranges are considered violations of the site-specific operating limits.

The standards require sources to determine and record the amount of

phosphatic feedstock material processed or stored on a daily basis. Respondents also maintain records of specific information needed to determine that the standards are being achieved and maintained.

An Agency may not conduct, or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information are estimated to average 18 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to, or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit, or otherwise disclose the information.

Respondents/Affected Entities: Phosphoric acid manufacturing and phosphate fertilizers production plants.

Estimated Number of Respondents: 12.

Frequency of Response: Initially, quarterly, semiannually, and annually.

Estimated Total Annual Hour Burden: 1,542.

Estimated Total Annual Costs: \$109,908, which includes no annualized capital/startup costs, \$11,000 in annual O&M costs, and \$98,908 in annual labor costs.

Changes in the Estimates: There is no change in the labor hours, or cost in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden.
