

disproportionately stratified by the seven NPS administrative regions (including the states of Alaska and Hawaii). In each of the seven regions, 500 completed interviews of about 15 minutes length will be obtained, for a total of 3,500 completions. The data collected from the comprehensive survey will profile patterns in visitation and non-visitation to the National Park System. These findings will be described in a national technical report and in reports for each of the seven NPS regions. Thematic reports on specific policy and management issues included in the survey will be produced, and a summary reported tracking changes in key variables between 2000 and 2007 will be written. In order to produce the best survey possible, the NPS has been and will continue to conduct development work in the form of pretesting, cognitive interviews, and focus groups to inform survey design.

The increase in the popularity of cell phones calls into question the adequacy of conventional land-line sampling frames from which households are selected through random digit dialing (RDD). Looking to the future, survey methodology will need a mechanism to sample additional cell users. In this survey, an add-on of a cell phone user sample will form a benchmark to compare sampling differences with the RDD results. The cell user sample will be compared to the land-line sample, looking at demographic characteristics of respondents, park visitation rates, and attitudinal variables. This information is needed by NPS to determine whether changes in measures tracked over time represent actual shifts in knowledge, attitudes, or behavior or are instead artifacts of differences in responses between cell-only households and households with land-lines.

Comments are invited on: (1) The practical utility of the information being gathered; (2) the accuracy of the burden hour estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden to respondents, including use of automated information collection techniques or other forms of information technology. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time.

While you can ask us in your comment to withhold your personal identifying information from public

review, we cannot guarantee that we will be able to do so.

Frequency of collection: Once.

Description of Respondents: United States residents.

Estimated average number of respondents: 4044 respondents (Final Survey: 4,000; Developmental Work: focus group = 12, cognitive interview = 12, pre-test calling = 20).

Estimated average number of responses: 4044 responses.

Estimated average time burden per respondent: Final Survey: 15 minutes/respondent; Developmental Work: focus group = 90 minutes/respondent, cognitive interview = 120 minutes/respondent, pre-test calling = 15 minutes/respondent.

Frequency of response: 1 time per respondent.

Estimated total annual reporting burden: 1047 hours.

Dated: August 22, 2007.

Leonard E. Stowe,

NPS, Information Collection Clearance Officer.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Emergency Approval of a New Information Collection; 30-Day Notice of Intent To Request an Extension for the Collection of Information; Interagency Access Pass Application Process

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice and request for comments.

SUMMARY: Under provisions of the Paperwork Reduction Act of 1995 and 5 CFR Part 1320, Reporting and Recordkeeping Requirements, the National Park Service (NPS) has requested and received emergency approval on the collection of information; Interagency Access Pass Application Process (OMB #1024-0252). The NPS invites public comments on the extension of this currently approved collection.

DATES: Public comments on this Information Collection Request (ICR) will be accepted on or before September 27, 2007.

ADDRESSES: You may submit comments directly to the Desk Officer for the Department of the Interior (OMB #1024-0252), Office of Information and Regulatory Affairs, OMB, by fax at 202/395-6566, or by electronic mail at

oira_docket@omb.eop.gov. Please also send a copy of your comments to Brandon Flint, NPS, WASO Recreation Fee Program Office, 1849 C St., NW., (2608), Washington, DC 20240; or by e-mail at *brandon_flint@nps.gov*, or by fax at 202/371-2401.

FOR FURTHER INFORMATION CONTACT: Brandon Flint, NPS, WASO Recreation Fee Program Office, 1849 C St., NW., (2608) Washington, DC 20240; phone: 202/513-7096; e-mail: *brandon_flint@nps.gov*, or by fax at 202/371-2401.

Comments Received on the 60-Day Federal Register Notice: The NPS published the 60-Day **Federal Register** Notice to solicit comments on this ICR on May 25, 2007 (Vol. 72, pages 29351-29352). The comment period ended on July 24, 2007. There were no public comments received as a result of publishing this notice.

SUPPLEMENTARY INFORMATION:

Title: The Interagency Access Pass Application Process.

Bureau Form Number: None.

OMB Number: 1024-0252.

Expiration Date: 10/31/2007.

Type of Request: Extension of a currently approved information collection.

Description of Need: The currently approved information collection responds to The Federal Lands Recreation Enhancement Act (FLREA) which requires the Secretary of Agriculture, and the Secretary of the Interior, to make the America the Beautiful—The National Parks and Federal Recreational Lands Pass available, for free, to any United States citizen or person domiciled in the United States who has been medically determined to be permanently disabled for purposes of section 7(20)(B)(i) of the Rehabilitation Act of 1973 (29 U.S.C. 705(20)(B)(i)). The Act further requires that the applicant provide adequate proof of the disability and such citizenship or residency. The Act specifies that the Pass shall be valid for the lifetime of the pass holder. The America the Beautiful—The National Parks and Federal Recreational Lands Access Pass (Interagency Access Pass) was created to meet the requirements of the FLREA. An Interagency Access Pass is a free, lifetime permit that is issued without charge by the Bureau of Land Management, Bureau of Reclamation, United States Fish and Wildlife Service, United States Forest Service, and the National Park Service to citizens or persons who are domiciled (permanent residents) in the United States, regardless of age, and who have a medical determination and

documentation of permanent disability. Furthermore, the Pass is to be non-transferable and entitles the permittee and any person accompanying him in a single, private, non-commercial vehicle, or alternatively, the permittee and 3 adults to enter with him where entry to the area is by any means other than private, non-commercial vehicle. The Pass must be signed by the holder.

In order to issue the Interagency Access Pass only to persons who have been medically determined to be permanently disabled, in accordance with the FLREA direction and in order to clarify, simplify, and to provide uniform guidance for the public on the process for obtaining the Interagency Access Pass, the Secretaries of Agriculture and Interior established eligibility and required documentation guidelines for issuing the Interagency Access Pass and published them within the America the Beautiful—The National Parks and Federal Recreational Lands Pass Standard Operating Procedures. The procedures require the individual to appear in person and sign the Pass in the presence of the issuing agency officer. Acceptable documentation to verify that the individual had been medically determined to have a permanent disability has been identified and includes:

A statement signed by a licensed physician attesting that the applicant has a permanent physical, mental, or sensory impairment that substantially limits one or more major life activities, and stating the nature of the impairment; or

A document issued by a Federal agency, such as the Veteran's Administration, which attests that the applicant has been medically determined to be eligible to receive Federal benefits as a result of blindness or permanent disability. Other acceptable Federal agency documents include proof of receipt of Social Security Disability Income (SSDI) or Supplemental Security Income (SSI); or

A document issued by a State agency such as the vocational rehabilitation agency, which attests that the applicant has been medically determined to be eligible to receive vocational rehabilitation agency benefits or services as a result of medically determined blindness or permanent disability. Showing a State motor vehicle department disability sticker, license plate or hang tag is not acceptable documentation;

Information available to the general public through agency websites and publications will inform potential Pass applicants of the documentation

requirements. However, there are instances where applicants learn about the Pass when arriving at a recreation site and do not have the required documentation available. For those instances, a fourth option is made available at recreation sites. If a person claims eligibility for the Access Pass but cannot produce any of the documentation outlined, that person must read, sign, and date the Statement of Disability Form in the presence of the officer issuing the Pass. If the applicant cannot read and/or sign, someone else may read, date, and sign the statement on his/her behalf in the applicant's presence, and the presence of the officer issuing the Pass. The Interagency Access Pass replaces the Golden Access Passport that was established in 1980 by an amendment to the Land and Water Conservation Fund Act (L&WCFA) of 1965. Previously issued Golden Access Passports will remain valid for the lifetime of the Passport holder. The requested information and Statement of Disability have been collected and used since the creation of the Golden Access Passport in 1980 to verify that the individual had been medically determined to have a permanent disability for the issuance of the Golden Access Passport under OMB control number 0596-0173, under the authority of the L&WCFA.

Comments are invited on: (1) The practical utility of the information being gathered; (2) the accuracy of the burden hour estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden to respondents, including use of automated information collection techniques or other forms of information technology. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Description of respondents: United States citizens or persons domiciled in the United States who have been medically determined to be permanently disabled for the purposes of section 7(20)(B)(i) of the Rehabilitation Act of 1973 (29 U.S.C. 705(20)(B)(i)).

Estimated average number of respondents: 73,400 per year.

Estimated average number of responses: 73,400 per year.

Estimated average time burden per respondent: 5 minutes.

Frequency of response: Once per respondent.

Estimated total annual reporting burden: 6117 hours.

Dated: August 1, 2007.

DEPARTMENT OF THE INTERIOR

National Park Service

General Management Plan/Final Environmental Impact Statement, Valley Forge National Historical Park, Pennsylvania

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of availability of the Final Environmental Impact Statement for the General Management Plan, Valley Forge National Historical Park.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service (NPS) announces the availability of an Final Environmental Impact Statement for the General Management Plan (GMP/EIS) for Valley Forge National Historical Park, Pennsylvania.

The Final GMP/EIS is comprised of the NPS' responses to public comments, errata detailing editorial changes to the *Draft GMP/EIS*, and copies of agency and substantive comment letters. The Draft GMP/EIS evaluated alternatives to guide the development and future management of the park over the next 20 years. Alternative A (No Action) provides a baseline evaluation of existing resource conditions, visitor use, facilities, and management at the park. The Action Alternatives (B and C) would enhance the preservation of the park's cultural and natural resources, while providing new opportunities for visitors. Alternative B would provide a range of new options for visitors to tailor visits and experiences to best meet their own needs and interest. Experiences would focus on exploration and self-discovery of the full cultural and natural history of Valley Forge. Alternative C, the agency's preferred alternative, would provide visitors the opportunity to decide what kind of experience they want, depending on learning style, interest, and time. The
